

Product Application Skills

- a) This product is built in high quality original lithium ion battery, it has no memory effect but high-capacity, and it is durable. However, we still recommend you to apply in the range of 10 °C ~30 °C, so as to obtain the optimal charging capacity.
- b) When charging, in order to avoid interference, please stay away from TV, radio and other equipment.
- c) If the device has not been used for a long time, please disconnect the cable and store.
- d) In order to extend the life of product (lithium battery), it is best to charge within 3 months, and charge at least once within 6 months.

Recycle

Always return your used electronic products, batteries, and packaging materials to dedicated collection points. This way you help prevent uncontrolled waste disposal and promote the recycling of materials.

Battery information

Your device has and internal, non-removable, rechargeable battery. Do not attempt to remove the battery, as you may damage the device.
The battery can be charged and discharged over 500 times, but it will eventually wear out.

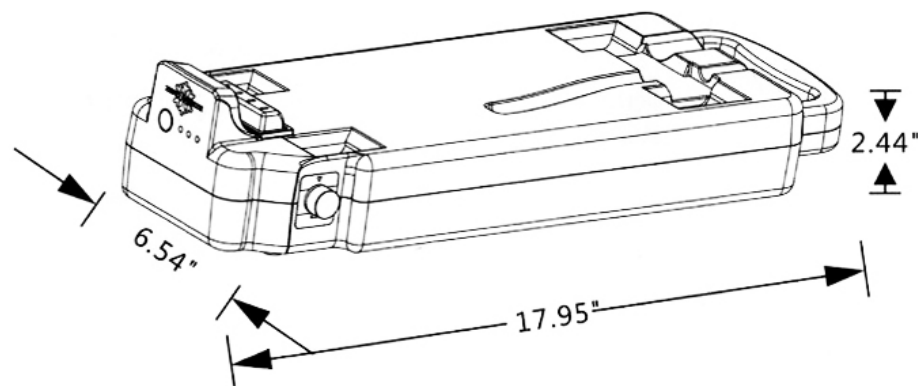

Please read the manual carefully before operating and keep it!

Thank you very much for applying our smart battery.
Our company takes no responsibility for any improper use or damage caused by used on other products.
Before using this unit, please read the user manual carefully and properly keep for reference.This manual helps you to operate this device correctly. But it is not the introduction of the soft & hard ware configuration. Any configuration of products. Please refer to the related contract or consult with your distributor. the images in this manual are for reference only. Thank you!

- This battery is for use ONLY on Zero Breeze One air conditioner
- Please use our ZERO BREZZ ONE original adaptor to charge the battery
- Turn off the battery before put in or pull out the air conditioner to avoid damaging the power interface.
- Do not place something heavy above the battery

Specification

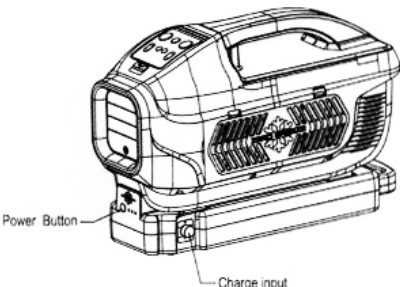

Model	ZB one
Battery Type	Lithium-ion Polymer Battery
Battery Capacity	12V 43Ah 477Wh
AC Charge Input	AC 110~220V 50/60Hz
Net Weight	7.63lbs
Size	17.95*6.54*2.44 inch
Operation Temperature	0°C (32°F) ~60°C (140°F)

Product Instruction

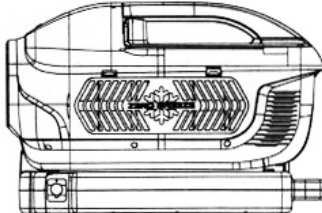

How to turn on the battery?

- 1.Press the power button on the battery
- 2.When LED indicator light is on, press power button for 2 seconds to activate the power output.

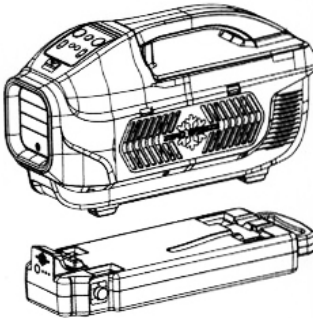

How to turn off the battery?

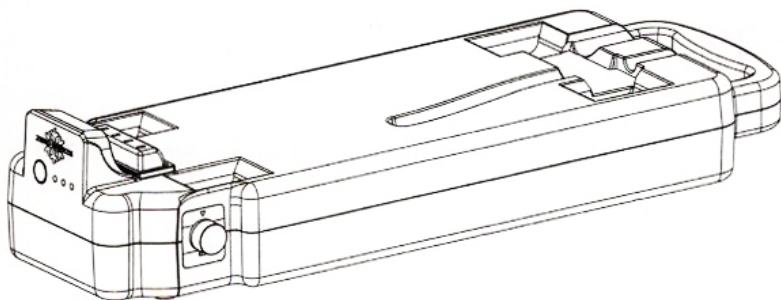

- 1.Press the power button on the battery
- 2.Please make sure the air conditioner is OFF before turn off the battery, then press the power button for 2 seconds to turn off the power output.

Remark: Air conditioner will stop working if take it off from the battery, then the battery will be in standby state and automatically off if you don't operate it beyond 5 minutes.
