This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

TP103B Wireless Earphones
Type-C USB Charging Cable
Silicon Gel Tips (S/M/L)
Quick Guide

Bluetooth: V5.4
Frequency Range: 2402-2480 MHz
Sensitivity: 110 ± 3dB
Impedance: 32 ohm ± 15%
Input: DC 5V / 500mA
Earphones Battery Capacity: 30 mAh x 2
Charging Pod Battery Capacity: 250 mAh
Charge Time: 1.5 hours

When the charging case is connected with charger (or computer USB port) by charging cable, the indicator will flash in red. When the charging case is fully charged, the indicator will be lit-in red.

When the charging case is out of battery, the earbuds will not turn on/off automatically when removed from or placed back into the charging case. In this case, turn the earbuds on/off manually.

Take the earbuds out of the charging case, the earbuds will automatically power on and enter into pairing mode.

Touch the MFB for 2 secs on both earbuds to turn on the earbuds. (You will hear the prompt tone). The earbuds will automatically enter pairing mode.

The diagram shows a smartphone screen with the Bluetooth settings. At the top, it says 'BLUETOOTH'. Below that, there is a toggle switch for Bluetooth, which is turned on. A list of devices is shown below the toggle. The first device is 'TP103B', which is highlighted with a red box. To the right of 'TP103B', the word 'Connected' is displayed, which is highlighted with a green box.

Turn on the device's Bluetooth setting .
Search for and choose **TP103B** to pair,
your device will show "connected" .

Auto Power-Off

Put L&R earbuds back into charging case, the earbuds will automatically power off .

1. Touch the MFB for 5 secs on both earbuds to power off the earbuds.
2. The earbuds will automatically turn off when without pairing for 10 mins.

Insert the earphones directed towards your ear canal. Twist gently until the earbuds fit comfortably and get better sound experience.

The diagram illustrates the touch gestures on the back of the AirPods Pro case, categorized into three main functions: Calls, Music, and Voice Assistant. Each function has specific gestures and corresponding actions:

- Calls:**
 - Tap Once: Answer Call
 - Tap Twice: End Call
 - Touch for 2s: Reject Call
- Music:**
 - Tap Twice: Play / Pause
 - Touch for 2s: Earbud R- Next Track, Earbud L- Previous Track
 - Tap Once: Earbud R- Volume Up, Earbud L- Volume Down
- Voice Assistant:**
 - Tap 3 times: SIRI / Voice assistant

If you have problem to connect the earphones with your device, don't worry about it, please follow the step as below:

1. Make sure all devices have turned off Bluetooth Function and pairing record have been cleaned.
2. Take the earphones out of the case, tap each earbuds by 5 times quickly , prompt sound will be activated , then follow the pairing step as instruction.
