AYL Pocket Speaker (Model: SPK001)

User Manual & Troubleshooting Guide (1 Page)

Product Overview

The AYL Pocket Speaker is a **compact, portable wired speaker** designed to enhance audio from compatible devices using a **3.5mm AUX connection**. It features a built-in rechargeable battery, volume control slider, and patented vacuum-bass technology.

IMPORTANT: CONNECTION REQUIREMENT

🔌 **This is a WIRED speaker. Bluetooth is NOT supported.**

- Audio input requires a **3.5mm AUX / headphone jack**
 - Devices without a headphone jack (newer smartphones) require a **compatible 3.5mm adapter**
 - This speaker will not pair wirelessly
-

Package Contents

- 1 × AYL Pocket Speaker (SPK001)
 - 1 × USB Charging Cable
 - 1 × 3.5mm Audio Extension Cable
 - 1 × User Manual
-

Getting Started

1. Charging the Speaker

1. Connect the speaker to a computer or USB power source using the included USB cable
 2. **Red light** = charging
 3. **Blue light** = fully charged
- 🕒 Charging time: approx. **2 hours**

2. Connecting Audio (Required)

1. Pull out the **built-in 3.5mm audio plug** from the bottom of the speaker
2. Plug it firmly into your device's **headphone/AUX jack**
3. Start playback on your device

 Ensure the audio plug is fully inserted for proper sound output.

3. Volume Control

- Slide toward **VOL+** to increase volume
 - Slide toward **VOL-** to decrease volume
 - For best performance, increase volume on **both the speaker and your device**
-

Troubleshooting Guide

No Sound or Low Volume

- Confirm the **3.5mm AUX plug is fully inserted**
 - Increase volume on **both the speaker and the connected device**
 - Make sure your device is actively playing audio
 - Try a different audio source to rule out device issues
-

Speaker Does Not Connect

- This speaker **does not support Bluetooth**
 - Confirm your device uses a **3.5mm headphone jack**
 - If using a phone without a headphone jack, ensure the adapter supports **audio output** (not charging only)
-

Speaker Will Not Charge or Turn On

- Use the **included USB cable** and a known working USB power source
 - Allow the speaker to charge for at least **30 minutes** before use
 - Confirm the charging indicator light is on
-

Sound Is Distorted or Buzzing

- Lower the volume slightly on the speaker and source device
 - Ensure the speaker is fully charged
 - Avoid forcing or pulling the **extendable resonator**, as this may damage internal components
-

Specifications (Summary)

- Power Output: 3W
 - Battery Capacity: 550mAh
 - Playback Time: Up to 10 hours (medium volume)
 - Charging Voltage: 5V
 - Weight: 200g
 - Audio Input: **3.5mm AUX (Wired Only)**
-
