Select Your Connectivity

Control your lock using the U home app for full functionality, or through Matter with your preferred smart home platform (features vary by platform). You can use U home and Matter modes at the same time.

Connection Mode		Description
	U home app	Access all features including UWB hands-free unlock, auto-lock, activity history, and remote control (with ULTRALOQ Bridge).
 matter	Matter over Thread *Visit https://ultraloq.com/pages/works-with-matter	Integrates directly with supported platforms such as Amazon Alexa, Google Home, Apple Home, and SmartThings (features may vary).
	ULTRALOQ Bridge (Optional) *For U home app only	Enables remote control and cloud-based access through 2.4 GHz Wi-Fi (5 GHz not supported).

*Standalone mode is not available for this model.

Ultra-Wideband (UWB) Unlock Your Bolt Mission lock features built-in Ultra-Wideband (UWB) for precise, hands-free unlocking.

When you approach the door with a compatible smartphone, UWB detects your proximity with centimeter-level accuracy and unlocks automatically. No manual configuration is needed—setup is completed through the U home app.

Thread & Matter Connectivity The lock communicates over Thread for fast, secure local performance. Matter over Thread ensures seamless interoperability with next-generation smart home ecosystems.

FCC Statement

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device must operate with a minimum distance of 20 cm between the radiator and user body.

UWB devices may not be employed for the operation of toys. Operation onboard an aircraft, a ship or a satellite is prohibited per §15.521(a). Antennas mounted on outdoor structures such as antennas mounted on the outside of a building or on a telephone pole, or any fixed outdoor infrastructure are prohibited for use with this device.
