Buttons	Instructions
Power 	Press to turn the light and white noise on or off. Tips: 1. When you turn on the projector, the white noise will be off by default. You can go to the "Device Settings" page in Govee Home App to disable the "Silent Power-Up" feature. 2. The projector will automatically shut down after four straight hours of use. You can turn off the "Auto-Stop" function or change the automatic shutdown time using Govee Home App.
Scene Switch 	Press to cycle through scenes. Tip: The scenes available when using Scene Switch can be manually managed using "Preset Features" on the "Device Settings" page in Govee Home App.
Volume + 	Press to increase the volume. When the projector light is on, long press to increase the brightness.
Volume - 	Press to decrease the volume. When the projector light is on, long press to decrease the brightness.

White
Noise

Press to cycle through white noise options. If a smartphone is connected to the speaker via Bluetooth, press to advance to the next song. This button will be disabled if the "White Noise" function is off and no devices are connected to the Bluetooth speaker.

Play
/Pause

Press to play or pause white noise or audio coming from a device connected to the speaker via Bluetooth. This button will be disabled if the "White Noise" function is off and no devices are connected to the Bluetooth speaker.
Long press to enter Bluetooth pairing mode or to unpair a device from the speaker.
Tip: Enter the "Device Settings" page in Govee Home App to find a guide for connecting devices to the Bluetooth speaker.

Pairing Your Device with Govee Home App

What You Need:

- A Wi-Fi router supporting 2.4GHz and 802.11b/g/n bands. 5GHz is not supported.
1. Download Govee Home App from the App Store (iOS) or Google Play (Android). Log in with your account. New users need to create an account.
 2. Turn on the Bluetooth on your smartphone.
 3. Open the app, tap the “+” icon in the top right corner and search for “H6094”.
 4. Tap the device icon and follow the on-screen instructions to complete pairing.

Controlling the Light Projector with Your Voice

1. Open the app, then tap the device icon to enter the details page.
2. Tap the “Settings” icon in the top right corner.
3. Select User Guide and follow the on-screen instructions to control the device using your voice.

Pairing with the Bluetooth Speaker

1. Turn on your smartphone's Bluetooth.
2. Long press the "⌂" button on the device or enable Bluetooth Pairing on the Device Settings page in Govee Home App to enter the Bluetooth speaker pairing mode. A sound will play when pairing.
3. Go to the Bluetooth discovery list on your smartphone and tap "Star Light Speaker" to connect.
4. You can check the Bluetooth speaker connection on your smart device or in the "Device Settings" page in Govee Home App.
Tip: You can turn the pairing sound on or off in Settings -> Bluetooth Speaker.

Matter Guide

1. How to use Matter

Step 1

Find the QR code or device number of Matter on the product or on Device Settings page in Govee Home App.

Step 2

Turn on the Bluetooth on your smartphone.

Step 3

Download and open the app that supports Matter like Google Home/Apple Homekit, etc.

Step 4

Use the device number or QR code on the product in the app to complete the network connection of Matter for the product.

2. Important:

- a. You need to complete the network connection of apps that support Matter (e.g. Alexa/Google Home/Apple HomeKit etc.) within 15 minutes after the product is powered on when using Matter for the first time.
An IPv6 network is required.
- b. Changing the network may cause Matter to malfunction.
- c. If the device cannot be connected to Matter's ecosystem
- d. app network, please long press the Power Button and press the Scene Switch Button four times at the same time to restore the device to factory settings before trying to reconnect to the network.

If you need to change the network when using Matter,

- e. close Govee Home App and power off the device. Then, power back on and complete the network connection of apps that support Matter (e.g. Alexa/Google Home/Apple HomeKit etc.) within 15 minutes.

Light Displaying Technology	RGBW
Control Methods	Function Buttons, Govee Home App, Voice
Operating Temperature	-10°C to 40°C/14°F to 104°F

Troubleshooting

1. Cannot connect to Govee Home App.

- a. Check if the light projector has been powered on.
- b. Check if your smartphone's Bluetooth has been turned on or try connecting the light projector to another smartphone.
- c. Ensure that your smartphone is near the light projector when connecting for the first time.
- d. If the problem persists, go to the "Device" page to delete the device and follow the previous instructions to reconnect.

2. Cannot connect to Wi-Fi.

- a. Check if the light projector has been powered on.
- b. Do not skip connecting to Wi-Fi during the pairing process.
- c. Ensure that your Wi-Fi router is 2.4GHz capable. 5GHz is not supported.
- d. Ensure that you entered the correct Wi-Fi password during the Wi-Fi connection process.
- e. Shorten the distance between the light projector and the Wi-Fi router to less than 50ft, then try reconnecting.
- f. Use another smartphone to pair with the light projector to check if your Wi-Fi network is working.

3. Cannot pair or connect with Alexa or Google Assistant.

- a. Ensure that the Wi-Fi connection is stable.
- b. Go to the app's "Settings" page and follow the instructions under "User Guide" to pair the light projector again.

4. The light projector does not display the selected color fully or some LED beads do not light up.

- a. Please contact Customer Support for a replacement.
