Filter Better Live Healthier

Waterdrop X14 Undersink

Reverse Osmosis System

1400 GPD
High Capacity

Healthy
Alkalinity

Smart
Faucet

Tankless Reverse Osmosis Filtration System

Leaving Behind the Issues of Traditional Tank RO

1400 GPD

Gushing Waterfall

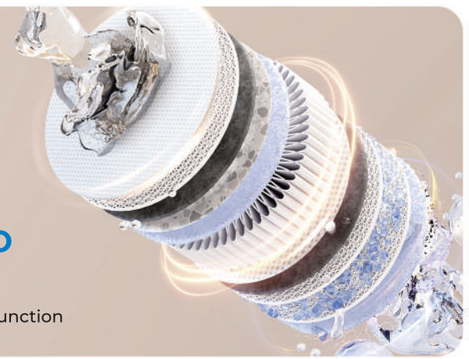

Fills a cup in 2.5s*

*A cup of water has a volime of 6oz.

11-stage RO Filtration

Auto-sensing LED function

Tankless Design

Easy DIY installation

Alkaline Mineralization

PH 7.5± & rich in Ca, Mg

Smart Digital Faucet

- TDS level & filter life at a glance
- Adjustable water volume options

Gold color available

Waterdrop X14			
Size	18.2" * 6.25" * 16.72"	Feed Water Temperature	41-100 ˚F / 5-38 ˚C
Capacity	1400(GPD), 0.97(GPM)	Input Voltage	110-240 V 50/60HZ
Drain Ratio	3 : 1	Filter Life	CF-6Mths,CB-12Mths,RO-24Mths
System Color	Black	Faucet color	Black, Gold
Certification	NSF/ANSI 58, 372, FCC, CE	Weight	36.92 pounds

What's in the Box

- ⑪ System
- ⑫ Smart faucet
- ⑬ Reverse osmosis membrane filter (F3)
- ⑭ Pre-sediment and carbon block filter (F2)
- ⑮ Activated carbon filter (F1A)
- ⑯ Power adapter*1
- ⑰ Red 1/4" PE tubing *60" (Drain water tube)
- ⑱ Lock clip*6 (larger clip*4, smaller*2)
- ⑲ Teflon tape*2
- ⑩ Drain saddle*1
- ⑪ Product instruction manual
- ⑫ Specification
- ⑬ Reference sticker
- ⑭ Feed water adapter 3/8"-1/2"*1 and inlet water tubing*60"

Replacement filters and UV function

F1A Activated Carbon Filter for Waterdrop X series RO System

Provides up to **12 months** or 1,100 gallons of clean water.

F2 Pre-sediment and Carbon Block Filter for Waterdrop X series RO System

Provides up to **6 months** or 500 gallons of clean water.

F3 RO Membrane Filter for Waterdrop X14 RO System,1400GPD

Provides up to **24 months** or 2,200 gallons of clean water.

How does the faucet for this large-capacity undersink reverse osmosis water filter work?

The smart faucet comes with an LED indicator and touch controls, allowing you to achieve quantitative water intake without watchful waiting. It can also real-time monitor the TDS value and alert you when it's time to replace filters.

What impurities does this RO water filter reduce?

The filter is certified by SGS to reduce over 1,000 different impurities including TDS, PFOA, PFOS, Chlorine, Fluoride, Arsenic, Lead, and more, while the auto-sensing LED function ensures water safety.

Is there a warranty or customer support available for this RO filtration system?

Yes, we provide a 2-year warranty and robust customer support. You can also directly contact our customer service for assistance with any aspect of this RO system without any worries.

Does filtration reduce beneficial minerals in the water?

Common RO systems can reduce some beneficial minerals. This undersink reverse osmosis water filter features an alkaline remineralization function that reintroduces beneficial minerals to the water, ensuring a balanced pH for healthier hydration.

What is the water flow rate with this reverse osmosis water filtration system?

This 1400GPD large-capacity undersink RO system delivers a flow rate of about 1400 gallons per day, which is ideal for everyday use. Compared to the traditional tank RO, it achieves faster and more space-savings, while making sure that every drop of water you get is fresh and pure.
