Power on and pair with the transmitter

1. In the powered-off state, press and hold the power button for 5 seconds. The speaker will automatically power on and enter pairing mode, and the LED indicator will flash red and blue rapidly.

2. Plug the transmitter into the USB port of your computer. The transmitter will automatically power on and enter pairing mode, and the LED indicator will flash red and blue rapidly. If it does not enter pairing mode, press and hold the MFB (Multi-Function Button) for 2 seconds.

3. Place the speaker close to the transmitter and wait for the pairing to complete. The LED will stop flashing once pairing is successful.

Power on and connect to the phone

1. Press and hold the power button for 5 seconds; the speaker will automatically power on and enter pairing mode, with the LED indicator flashing rapidly in red and blue.

2. Enable Bluetooth on your smartphone, search for "Atlas Headrest", select it from the device list, and click to pair.

3. Bring the speaker close to the phone and wait for pairing to complete; the LED will stop flashing once connected.

FCC warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

Disposal

Always dispose of the used appliance at a recycling centre.

Do not dispose the used appliance together with household waste.
