Quick Start Guide

Model PDI4000Z

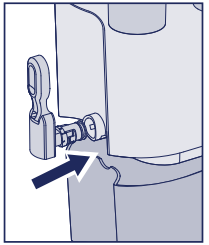

Getting Started

1

Remove reservoir and stand from body of dispenser. **Locate lid** along side of box.

2

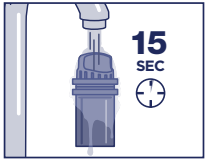

Attach spigot until it snaps in place.

For dishwashing instructions, see reverse. Spigot must be removed before dishwashing.

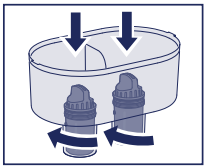

After dishwashing, **reinsert** spigot.

3

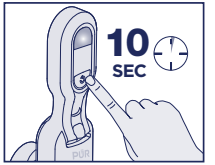

Rinse each filter for 15 seconds.

4

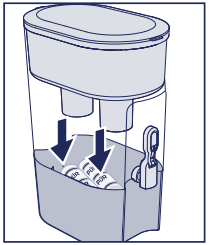

Install filters then **twist** and **lock** to align with lines on reservoir. Replace reservoir in dispenser.

5

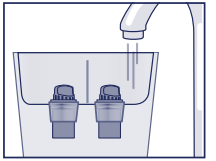

Hold reset button for 10 seconds until it blinks **green**.

6

Optional: Place dispenser on stand. Extra filters may be stored in stand.

7

Fill reservoir with cool tap water and **enjoy!**

PUR

Filter light flashes **green** with every pour.

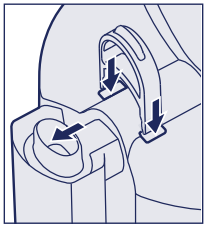

Replace filter when light flashes **red**.

Reset after every **filter change**.

Dishwashing instructions

Dispenser is dishwasher safe **EXCEPT** spigot and filters. To remove spigot, use horseshoe shape tool from underside of dispenser. Insert tool into slots on under side of spigot and pull spigot out.

PUR Genuine Filter

Independently Certified

System Tested and Certified by WQA against NSF/ANSI Standards 42, 53 and 401 for the reduction of the claims specified on the Performance Data Sheet.

System Tested and Certified by NSF International against NSF/ANSI Standards 42, 53 and 401 for the reduction of the claims specified on the Performance Data Sheet.

ADA Accepted — Effective water filter that does not remove fluoride from water

NSF Standard 401 has been deemed as "incidental contaminants/emerging compounds." Incidental contaminants are those compounds that have been detected in drinking water supplies at trace levels. While occurring at only trace levels, these compounds can affect the public acceptance/perception of drinking water quality.
