3. CHARGING

Charging interface

Charging Instructions for Your Smartwatch (Magnetic Charging)

- Connect the charger. Plug the magnetic charging cable into a USB port (e.g., power adapter, computer, or power bank).
- Attach to the watch: Bring the magnetic charging puck near the back of the smartwatch. The magnet will automatically snap into place when aligned with the watch's charging contacts.
- Check charging status: Once attached, the watch screen will display a charging icon. Leave the watch stationary during charging to maintain a stable connection.
- Avoid overcharging: the watch will automatically stop drawing power once fully charged.

Safety tips:

- Keep the charging contacts on both the watch and cable clean and dry.
- Do not use damaged cables or chargers.
- Disconnect the magnetic charger by gently pulling it off – do not yank the cable.
- Disconnect: Once charged, remove the magnetic puck and store the cable in a cool, dry place.

6. APP INSTALLATION

1. Scan the QR code to download and install the "HryFine" APP (the code can be scanned by browser, WeChat, etc.)

2 APP connection method

After the watch is turned on, open Settings--General--About this device and check the Bluetooth address.

Turn on Bluetooth on your phone, enter the APP and click to add a device, scan to the corresponding device and click directly to connect.

3 Audio connection method

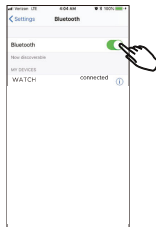

Open Settings--General--Bluetooth (turn on the switch), enter the Bluetooth system of the mobile phone, search for the Bluetooth name corresponding to the bracelet and bind it (after the connection is successful, the Bluetooth icon will be colored).

Note: When the watch is connected to the APP, the watch data will synchronize some data with the phone through Bluetooth, such as: information, weather, contacts, step counting, sleep, etc. After disconnecting or unbinding, data will not be synchronized.

7. BLUETOOTH SETUP

To use your smart watch with your smartphone, you will first need to setup a Bluetooth connection between both devices.
To do so, follow the steps below:

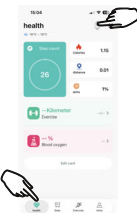

1. After the watch is turned on, open Settings—General, and turn on Bluetooth icon.

2. Go to your phone's Bluetooth settings menu. Make sure that Bluetooth is turned ON. Connect to the device listed as "WATCH".

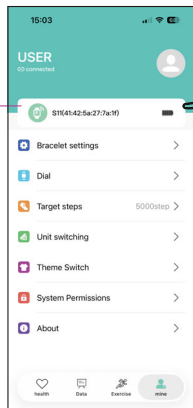

3. Open the VILive software application on your phone.

4. Press Health icon in the HyFine APP home page to access Bluetooth pairing option.

8. BLUETOOTH SETUP

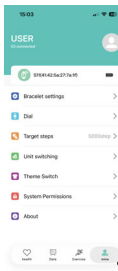

In the device menu, you will see the device connection status.

Connection: View if your smartphone is paired with your smart watch. If not, press here to connect.

9. USER SETUP

In order to get the best possible results when using the HyFine App, enter your personal data before using. To do so, follow the steps below.

1. Press the "Mine" icon located at the lower right-hand corner of the screen.

2. In the user settings menu you can explore the following settings:

Personal Information:

Tag up-right corner icon to Tag up-right corner icon to input your Nickname, Gender, age, height, body weight, account name, change password, and Link your account to Apple, WeChat, QQ and email.

Bracelet Settings:

Various setting options against your bracelet to support your daily usage.

Dial:

Enable to change the dial of smartwatch.

Target steps:

Input daily step goals.

Unit switching:

Enable unit switching between metric and Imperial system.

Theme Switch:

Enable two different Themes of HyFine APP.

System Permissions:

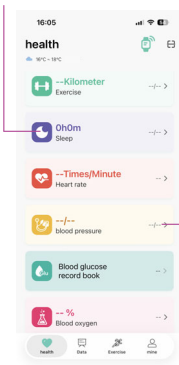

Centrally manage the system permissions of the Hyfine.

About:

See what version of your app you have installed.

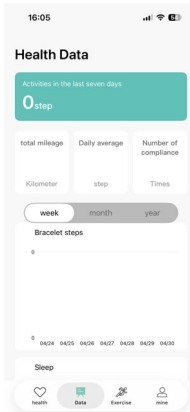

10. ACTIVITY

When you open the HyFine software application, the Health panel will appear, showing your Exercise, Sleep, Heart rate, Blood pressure, Blood glucose record book and Blood oxygen for the day.

Press the corresponding icon to get more detailed information.

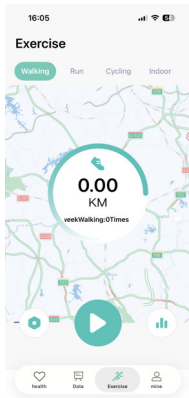

11. ACTIVITY

The Data page allows you to review your past health data, with the option to display it by week, month, or year

12. ACTIVITY

For additional settings, press the "Device" icon.

On the Exercise page, you can view your workout route. It offers four activity modes: walking, running, cycling, and indoor

13. FCC STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 1cm between the radiator and your body.

14. WARRANTY CARD

This warranty covers the original consumer purchaser only and is not transferable.

This warranty covers products that fail to function properly UNDER NORMAL USAGE, due to defects in material or workmanship. Your product will be repaired or replaced at no charge for parts or labor for a period of one year.

What Is Not Covered by Warranty:

Damages or malfunctions not resulting from defects in material or workmanship and damages or malfunctions from other than normal use, including but limited to, repair by unauthorized parties, tampering, modification or accident.

To Obtain Warranty Service and Troubleshooting Information:
Call 1-800-592-9541 or Visit our website at www.vivitar.com.

To receive Warranty service along with the name and address of an authorized product service center, the original consumer purchaser must contact us for problem determination and service procedures. Proof of purchase in the form of a bill of sale or receipted invoice, evidencing that the Product is within the applicable Warranty period(s), MUST be presented in order to obtain the requested service. It is your responsibility to properly package and send any defective products along with a dated copy of proof of purchase, a written explanation of the problem, and a valid return address to the authorized service center at your expense. Do not include any other items or accessories with the defective product. Any products received by the authorized service center that are not covered by warranty will be returned unpaired.
