Main Functions Live Streaming Mode  Headphone Wired Connection to Phone A  Headphone Bluetooth Connection to Phone B • Connect the headphone to Phone A via cable; the Bluetooth function will turn on automatically after connection. Then use Phone B to pair with the headphone' s Bluetooth ("K08"). After setup, you can start live streaming on Phone A, and use ie B to play music as background audio.	Main Functions Karaoke Mode • After short-pressing the "Karaoke Key" to switch to "Karaoke Mode", you can short-press the "Multi-Function Key" to toggle between ear monitor/reverb volume adjustment, then use the "Volume Key" to adjust the ear monitor/reverb. Once the reverb volume and ear monitor volume are set appropriately, start karaoke; • Long-press the "EQ Key" for 1 second to switch between dry audio recording/wet audio recording. Dry audio recording captures sound without effects; wet audio recording captures sound with reverb effects. Music Listening Mode • HD Music: Natural and realistic, balanced and transparent across three frequencies, with clear and bright vocals; • Dynamic Bass: Powerful bass, surging and strong rhythm, and a stunning listening experience. FCC Caution: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.	Product Parameters Model: K08 Speaker Impedance: 32Ω Interface Type: Type-C Speaker Size: 14.2mm Microphone Signal-to-Noise Ratio: 70dB Microphone Sensitivity: -40dB Frequency Range: 20Hz-20KHz Microphone Polar Pattern: Omnidirectional Microphone *The above data are obtained from laboratory environment tests and may vary slightly depending on the actual usage environment.	Frequently Asked Questions - On some phones, sound still plays through the phone after plugging in the headphone. - Please enable the OTG function in your phone settings; - Fully close the music playback app, reinsert the headphone, then reopen the music app. - On some phones, sound still plays through the phone (not the headphone) during calls. - Due to the system characteristics of some phones, you need to pick up the phone to answer calls. - The headphone cannot answer calls or wake up the voice assistant? - The headphone may be in Live Streaming/Karaoke Mode. Switch to HD Music/Dynamic Bass Mode to use call control and wake up the voice assistant normally. - No sound from the headphone/microphone after successful connection. - Ensure the headphone is properly plugged into the device; - Check that the volume of the device and headphone is not muted; - Phone cases or other objects may prevent the headphone plug from being fully inserted. - Abnormal ear monitor sound (double sound heard). - Disable the built-in ear monitor effect of some apps to avoid overlapping interference with the headphone' s ear monitor. - Why does the headphone' s wire control get slightly hot? - The sound card chip generates normal heat during operation. No need to worry—you can use it normally. - Why does the headphone suddenly stutter or disconnect? - Due to the nature of Bluetooth headphones, electromagnetic interference in the area may cause stuttering or disconnection. Try changing the usage location. - How to reset the headphone to factory settings? - Long-press the "Karaoke Key" and "EQ Key" simultaneously for 10 seconds to reset the headphone to factory settings.	Safety and Maintenance - Use the product in accordance with the user guide. Do not attempt to disassemble it, as this may render it unrepairable. - Children under 14 years old must use this product under adult supervision. - To ensure product safety, do not plug the product into high-power or high-voltage devices. - This product contains magnetic materials, which may cause: - Potential interference with implantable medical devices and air transport. Consult a doctor or relevant staff; - Damage to magnetic stripe cards (e.g., bank cards, phone cards). Do not keep it in prolonged contact with such cards; - Attachment of metal objects, which may cause injury. - If you experience skin discomfort while wearing the product (due to individual differences), stop using it and consult a doctor. - Use an appropriate volume to avoid hearing damage. - Do not use the product while driving, cycling, operating machinery, or in situations requiring awareness of ambient sounds, to prevent safety accidents. - To reduce fire and electric shock risks, do not use the device during thunderstorms. - It is recommended to use the product within a temperature range of 0-35° C. Do not use it near heat sources (e.g., radiators, heaters, stoves, or other heat-emitting devices), and avoid prolonged direct sunlight exposure. - Avoid dropping, impacting, strong vibration, or contact with sharp objects to prevent product damage. - Use and store the product in a dry, clean environment. Avoid humid conditions, and do not contact corrosive chemical solvents. Note: Our company continuously strives to improve product quality and performance. Technical specifications and design are subject to change without prior notice. We reserve the right to improve the product, and the actual product shall prevail for its functions!	Warranty Service - Any quality issues caused by the product itself are covered by the warranty service (the validity period shall comply with the "Three Guarantees" service stipulated by relevant national laws and regulations). - The warranty does not cover damage caused by human factors, cosmetic defects (e.g., scratches, breakage) due to human handling, or cases where valid purchase proof cannot be provided. - The company shall bear the repair costs incurred during the warranty period, but transportation costs are not covered. - Please keep this document properly for warranty service.
