Essential Technical Specifications

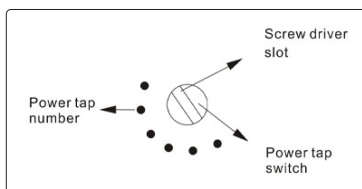

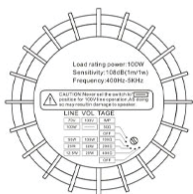

Model	Power Rating	Impedance	Transformer Taps
PHSP12	60W	16 ohms	30 / 15 / 7.5W @ 100V
PHSP16	80W	16 ohms	60 / 30 / 22.5 / 15W @ 100V
PHSP20	100W	16 ohms	100 / 50 / 25 / 12.5W @ 100V

Quick Installation Tips

- Match Polarity:** When connecting multiple speakers, ensure the same polarity wiring (e.g., + to +, - to -) to avoid sound quality loss.
- Use Matching Transformer for Long Distances:** For wiring over 164 ft (50m), use a matching transformer to reduce power loss.
- Impedance Matching:** Ensure total speaker impedance matches the amplifier's output impedance to avoid damage.
- Power Rating:** Do not exceed the amplifier's rated output power per speaker.

Adjusting Power Tap (Impedance Settings)

Refer to the horn label for wattage options. Use a screwdriver to rotate the tap switch and align with the desired power tap number.

Note: Power tap settings affect output volume and load distribution in 70V/100V systems.

California Prop 65 Warning

WARNING:

This product may expose you to chemicals, which is known to the state of California to cause cancer, birth defects and other reproductive harm. Do not ingest.

Speaker & Bracket Dimensions

Speaker and mounting bracket dimensions are shown below for reference.

Use appropriate hardware and ensure secure installation.

Care & Maintenance

Cleaning

- Wipe speaker with a dry or slightly damp cloth.
- Do not allow water to enter the speaker or use harsh cleaners.

Maintenance

- Inspect cables and mounting hardware regularly.
- Replace damaged parts before use.

Storage

- Store in a cool, dry place away from direct sunlight.
- Unplug when not in use for extended periods.

Register Product

Thank you for choosing PyleUSA. By registering your product, you ensure that you receive the full benefits of our exclusive warranty and personalized customer support.

Complete the form to access expert support and to keep your PyleUSA purchase in perfect condition.
