2AI6I-GT-89BT FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.

Safety Tips

1. Please follow the instruction to operate the product.
2. Please store or use the product in a normal temperature environment.
3. Please keep the product from heat source, such as radiators, hot air regulators, stoves, or other heat generating instruments as it is not anti-high temperature.
4. Do not jam the ports of the product, such as charger port, LED port and TF card port.
5. In order to protect your hearing and extend the product lifetime, it is not recommended to adjust the volume to the maximum level for a long time.

Batteries:

A warning that batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the light.

- 1.Replacement of a battery with an incorrect type that can defeat a safeguard.
- 2.Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- 3.Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
- 4.A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.
