Please download the free app before use. Search for "InkSwap" in the app store and look for the app icon shown above

How to set up the tattoo printer

Step 1 – Turn on your tattoo printer by holding the power button.

Step 2 – Open App. Grant the necessary permissions, then connect your phone to the device wirelessly.

Step 3 – Insert Paper. Insert one sheet of tattoo printer paper into printer.

NOTE

Place the side marked "Place this side up" face up, with the arrow and enter the printer first. Hold and gently push the paper in for a few seconds until the printer starts feeding it.

Step 4 – Create your tattoo! Choose an image from the gallery, or use photos or take pictures to generate the tattoo design you want

Step 5 – Color It. Use Markers to color your tattoo.

Hot Tip: Try to color within the lines so the black doesn't smudge! For best results use the light colors first!

Step 6 – Apply the transfer film

Remove backing, and apply it sticky side (transparent and adhesive side) down to the printed & colored art.

Step 7 – Press the artwork & Cut

Press firmly on the artwork 3 times, then use scissors to cut around the artwork.

Step 8 – Peel and Apply!

Peel clear top sheet again and apply paper sticky side down to your skin. Use a damp sponge or cloth to wet the tattoo paper. Wait 60 seconds remove and discard paper and pat tattoo dry

Hot Tip: Before peeling off the clear top sheet, use scissors to cut around your artwork.

How to Remove Temporary Tattoos:

1. Your Temporary tattoo should come off within 24-48 hours naturally
2. If you should want to remove them sooner, use your favorite gentle cleanser and warm water(baby oil works great too!) We recommend you wait a few minutes before scrubbing.

NOTE: Ensure tattoo paper and transfer film are stored in a cool/dry place

Important Information

- Cosmetic grade – FDA Compliant
- For External Use Only – Not to be Eaten
- Not Tested on Sensitive Skin
- If you experience redness or irritation, discontinue use and remove tattoo immediately
- Use only as directed. Parental supervision advised

WARNING: DO NOT APPLY TATTOOS TO FACE

TEMPORARY TATTOO PAPER: Calcium Carbonate, Acrylic Acid, 2-Anilino-3-Methyl-5-(Diethylamino)fluoran, Bisphenol S Monocetyl Ether, Polyvinyl Alcohol, Zinc Stearate, 1,2-Diphenoxysthane, Acetylenic Diol.

MARKERS: Water, Carbon Black (CI 77268), Brown FK (CI Food Brown 1), Glycerol, Pigment Red 81:3 (CI 45160:3), Acid Blue 9 (CI 42090), Polysorbate 20, C.I. Leuco Sulphur Blue 7 (CI 53440), Acid Red 52 (CI 45100), Acid Yellow 23 (CI 19140).

FCC STATEMENT

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 10cm between the radiator and your body.
