- ①  Volume down / Previous track / Auto answer calls
- ②  Volume up / Next track / RGB light mode switch
- ③  RGB light mode switch / Voice assistant
- ④  Type-C charging port
- ⑤  Power on/off/ Answer/hang up calls / Play/pause
- ⑥  Type-C headphone jack

Specifications

Bluetooth Name: X6

Charging Time: 1~2h

Bluetooth Version: 6.0

Charging Port: Type-C

Battery Capacity: 1000mAh

Charging Voltage: 5V 1A/2A

Working Time: ~35h

Standby Time: ~300h

Waterproof Grade: IP67

Battery Type: Lithium-polymer 3.7v

Status Indicator Light

Bluetooth waiting

— + M Blue fast flash

Bluetooth connected

— + M Blue slow flash

Incoming call

— + M Blue fast flash

On call

— + M Blue slow flash

Charging (auto off)

M → M Red steady, full turns blue

Operation Instructions

Power on/off

Press and hold "X" for 3s to turn on/off (with power-on/off prompt).
(The current battery level is announced automatically on power-on;
status light flashes rapidly. Status light turns off when powered off)
Press and hold "X" for 10s to restart the device.
(*Auto power-off if Bluetooth unconnected for 5 mins after startup)

Bluetooth Connection

After powering on, enable phone Bluetooth, search for and select the device named "X6" to connect. A slow blue flash of the status light indicates successful connection.

Song switching / Volume adjustment

Song switch: Hold "—" for previous track, hold "+" for next track.
Volume adjust: Short press "—" to turn volume down,
short press "+" to turn volume up.
Play/Pause: Short press button "X".

Incoming Call

Press and hold "X" for 2s to reject the call;
Short press "X" to answer/end the call;
Double click "X" to call back the last dialed contact.

Auto Answer for Incoming Calls

Default on after power-on; double press button "—" to toggle;
prompt "Auto answer on/off".

Connect to Two Phones Simultaneously

After powering on: Connect to the first phone's Bluetooth then disconnect it, connect to the second phone's Bluetooth (no need to disconnect), then re-enable Bluetooth on the first phone and connect it to complete the setup.

Activate AI Voice Assistant

After powering on and connecting Bluetooth, hold the "**M**" key to launch the phone voice assistant. (When using the voice assistant for the first time, you must allow access to your phone's content; ignore this if no prompt appears.)

RGB Light Effect Switch & Off (Default Open)

Short press "**M**" or double tap "**+**" to switch light effects.

Cycle order: Flowing RGB light – Solid red – Solid blue – Solid green – Off

Prompt Language Switch

After power on, when Bluetooth is not connected, double tap the "**X**" key to switch prompt language.

Factory Reset

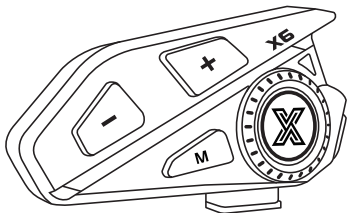

Under power-on state, quickly press the "**X**" key five times to restore factory settings.

Warnings & Precautions

1. Do not expose to high temperatures (contains a lithium battery).
2. Charge using a rated-voltage power source.
3. Secure the main unit to prevent damage from dropping.
4. Keep the waterproof/dustproof cover closed.
5. Do not disassemble/modify (no serviceable components).
6. Long storage: Dry, monthly charge, no extreme temp/dust.

Tras encender, si el Bluetooth no está conectado, haz doble toque en la tecla "X" para cambiar el idioma de los avisos.

Reset de fábrica

Con el dispositivo encendido, pulsa rápidamente cinco veces la tecla "X" para restablecer la configuración original.

Advertencias y Precauciones

1. No exponer a altas temperaturas (contiene batería de litio)
2. Cargar con fuente de voltaje nominal
3. Asegurar unidad principal para evitar caídas
4. Mantener tapa impermeable/antipolvo cerrada
5. No desmontar/modificar
6. Almacenamiento a largo plazo: Mantener seco, carga mensual, evitar ambientes extremos.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
