PRECAUTIONS

DO NOT use this product in environments with oil, moisture, steam, humidity, dust, high heat, and extreme cold.

DO NOT use non-original charging accessories, please ensure that the earphones have sufficient battery.

DO NOT exceed 60 decibels when used for a long time to avoid hearing damage.

DO NOT disassemble yourself. Do not clean with harsh chemicals.

Recycle responsibly once the product has reached the end of its life.

GENERAL SAFETY

The product contains a built-in battery and should not be exposed to high temperatures. Exposure to the sun may damage wireless performance.

DO NOT immerse in liquids. Follow local rules about using your earbuds while driving. Prolonged exposure to high volume may damage your hearing.

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
