Wearing

Put the "**MK-008A**" onto your ears and rotate to fit comfortably to get the best wearing and sound quality experience.

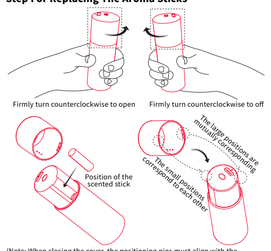

Pairing

Open the charging case cover, take out the earbuds. The earbuds will automatically turn on. For new device connection, turn on the bluetooth in your device and choose "**MK-008A**" fromthe bluetooth list to connect. You will hear system prompts after the earbuds are connected to the device. If the earbuds have been paired before, they will automatically reconnect to the previous device when turned on.

Factory Reset

To restore the earbuds to factory settings, when the earbuds are powered on and not connected, tap the left earbud 5 times in quick succession. The earbuds will then automatically power off.

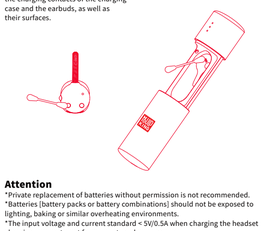

Step For Replacing The Aroma Sticks

(Note: When closing the cover, the positioning pins must align with the insertion, otherwise the charging port will be misaligned)

Product Cleaning

We recommend regularly cleaning the charging contacts of the charging case and the earbuds, as well as their surfaces.

Attention

*Private replacement of batteries without permission is not recommended.
*Batteries [battery packs or battery combinations] should not be exposed to lighting, baking or similar overheating environments.
*The input voltage and current standard < 5V/0.5A when charging the headset charging compartment from an external power source.

⚠ Safety Warnings And Precautions

To ensure your safety and extend the service life of this product, please strictly follow the warnings below:

1. Environmental Warnings

• Do not use this product in extremely high or low temperatures, or in dusty or humid environments.
• Avoid direct sunlight, fire exposure, or any overheating conditions.
• In environments with strong wireless signals or dense crowds (such as airports, stations, exhibitions, etc.), intermittent connection or interference may occur. This is within normal range. Please continue to use the device later or change the usage environment.

2. Operational Safety Warnings

• Do not drop, strike, or subject the product to strong vibration.
• Do not disassemble or modify this device without authorization, as doing so may cause danger or damage.
• To protect your hearing, do not listen at high volume for prolonged periods.
• Keep the product and its packaging out of the reach of children and pets to prevent accidents such as swallowing and suffocation.
• If any abnormality occurs, stop using the product immediately and contact your dealer.

3. Battery and Charging Warnings

• When the charging case indicator shows low battery, please recharge in time. If the product is not used for a long period, please recharge it at least once every 30 days.
• Use a power adapter that complies with local safety standards
• The earphones contain built-in batteries. Do not place them in high-temperature or flammable environments.
• If the charging port of the earbuds contains foreign objects or has poor contact, gently clean the charging port with a cotton swab dipped in alcohol. Regular cleaning is recommended to ensure proper charging and power-on/off functions.

4. Important Notes

• If there are updates or changes to product functions, please refer to the official website or the sales page for the latest information.
•Please keep this manual for future reference.

Warning Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
