Congratulations on the purchase of your new appliance. With this purchase, you have chosen all the advantages of the latest refrigeration technology, guaranteeing you a high-quality appliance with a long life span and high operating safety.

The equipment of your appliance gives you the highest level of day-to-day ease of operation.

Together we are making an active contribution to the conservation of our environment by purchasing this appliance which is manufactured in an environmentally friendly process with the use of recyclable materials.

We hope you enjoy your new appliance.

These operating instructions apply to:

- UBCgb3730

## 1 General safety instructions

Please keep these operating instructions in a safe place so you can refer back to them at any time.

If you pass the appliance on, please hand these operating instructions to the new owner.

Read and follow these instructions. They contain safety information which is important for safe and problem-free installation and operation. Always read and follow the safety information.

## Dangers for the user:

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance. Cleaning and user maintenance must not be performed by children unless they are supervised. Children between the ages of 3 and 8 may load and unload the appliance. Children under the age of 3 must be kept away from the appliance unless they are constantly supervised.
- **IMPORTANT:** The power plug must be easily accessible so that the appliance can be disconnected from the mains quickly in an emergency. It must not be behind the back of the appliance.
- The socket must be easily accessible so that the appliance can be disconnected quickly from the electricity in an emergency. It must not be located in the area behind the appliance.
- Always hold the appliance at the plug when disconnecting it from the household power. Do not pull on the cable.
- Disconnect the power plug or fuse if there is a malfunction.
- Do not damage the power cable. Do not operate the appliance with a faulty power cable. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard. For Plug and Play connections, the change may be carried out by the customer.
- Repairs and work on the appliance may only be carried out by Customer Service or other specifically trained qualified personnel.
- Only install, connect and dispose of the appliance in accordance with the instructions.
- Only operate the appliance after it has been installed.

## Risk of fire:

- The refrigerant contained within the appliance (specifications on the identification plate) is environmentally friendly, but flammable. Leaking refrigerant can ignite.
  - **WARNING:** Do not damage the refrigerant circuit.
  - Do not handle ignition sources inside the appliance.
  - **WARNING:** Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer (e.g. steam cleaning appliances, heating appliances, ice cream makers).
  - If refrigerant leaks: Remove naked flames or ignition sources located near the area of the leak. Ventilate the room well. Contact Customer Service.
- Do not operate the appliance near explosive gases.

- Do not store or use gasoline or other flammable gases and liquids near the appliance.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance. You can recognize such spray cans by the printed list of contents or by a flame symbol. Any leaking gases can be ignited by electrical components.
- Alcoholic beverages or other containers holding alcohol must always be tightly sealed for storage purposes. Any leaking alcohol can be ignited by electrical components.

## Risk of falling or toppling over:

- **WARNING:** To avoid a hazard due to instability of the appliance, it must be fixed in accordance with the instructions.
- Do not stand on the base, drawers, doors etc. or use them as improper supports. This applies in particular to children.

## Danger of poisoning:

- Do not consume spoiled food.

## Danger of frostbite, feeling of numbness and pain:

- Avoid prolonged skin contact with cold surfaces or chilled/frozen food or take protective measures, e.g. wear gloves.

## Risk of injury and damage:

- Hot steam may cause injuries. Do not use any electrical heating or steam cleaning equipment, naked flames or defrosting sprays for defrosting measures.
- **WARNING:** Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- Do not remove ice using sharp objects.
- **WARNING:** Keep clear of obstruction all ventilation openings in the appliance enclosure or in the structure for building-in.
- **WARNING:** Risk of child entrapment. Before you throw away your old refrigerator or freezer:
  - Take off the doors.
  - Leave the shelves in place so that children may not easily climb inside.

## Risk of crushing:

- Do not hold onto the hinge when opening and closing the door. Fingers may become trapped.

## California Proposition 65

- **WARNING:** This product can expose you to chemicals including Diisononyl Phthalate (DINP), which is known to the State of California to cause cancer, and Di-isodecyl Phthalate (DIDP), which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Symbols on the device:

## The appliance at a glance

The symbol may be located on the compressor. It refers to the oil in the compressor and refers to the following danger: Can be fatal if swallowed or inhaled. This notice only applies for recycling. There is no danger during normal operation.

**WARNING:** Risk of fire / flammable materials. The symbol is located on the compressor and indicates the danger from flammable materials. Do not remove the label.

This label or a similar one may be located on the rear of the appliance. This label indicates that there are vacuum insulation panels (VIP) or perlite panels in the door and/or housing. This notice only applies for recycling. Do not remove the label.

**Observe the warning messages and other detailed information in the other sections:**

	DANGER	Indicates an immediately hazardous situation, which if not avoided, will result in death or serious injury.
	WARNING	Indicates a hazardous situation, which if not avoided, could result in death or serious injury.
	CAUTION	Indicates a hazardous situation, which if not avoided, could result in minor or moderate injury.
	NOTICE	Indicates a hazardous situation, which if not avoided, could result in damage to property.
	Note	Indicates useful advice and tips.

## 2 The appliance at a glance

### 2.1 Overview of appliances and equipment

Fig. 1 Example illustration

#### Equipment

- |                     |   |
|---------------------|---|
| (1) Type plate      | (5) Fan with FreshAir activated charcoal filter |
| (2) Glass plate     | (6) Operating elements and temperature display  |
| (3) Support rack    | (7) Defrost water drain                         |
| (4) Adjustable feet |   |

### 2.2 Range of appliance use

#### Normal use

- staff kitchen areas in shops, offices and other working environments;
- farm houses and by clients in hotels, motels and other residential type environments;
- bed and breakfast type environments;
- catering and similar non-retail applications.

The appliance is suitable for integrated under worktop use

All other types of uses are not permitted.

#### Foreseeable misuse

The following uses are specifically prohibited:

- Storage and cooling of medication, blood plasma, laboratory preparations or similar substances and products in accordance with the CMDCAS and FDA 510(k)
- Use outdoors
- Use in moist areas exposed to the rain
- Use in areas at risk of explosion

# Functionality of the Touch display

Incorrect appliance use can cause damage to the stored products or cause them to spoil.

## Climate ratings

The appliance is set to operate within specific ambient temperature limits according to its climate rating. The climate rating for your appliance is printed on the rating plate.

### Note

► To guarantee trouble-free operation, comply with the indicated ambient temperatures.

Climate rating	for ambient temperatures from
SN	10 °C (50 °F) to 32 °C (90 °F)
N	16 °C (61 °F) to 32 °C (90 °F)
ST	16 °C (61 °F) to 38 °C (100 °F)
T	16 °C (61 °F) to 43 °C (109 °F)
SN-ST	10 °C (50 °F) to 38 °C (100 °F)
SN-T	10 °C (50 °F) to 43 °C (109 °F)

## 2.3 Conformity

The refrigerant circuit has been tested for leaks. When installed, the appliance complies with the applicable safety regulations and with the corresponding directives.

## 2.4 Spare parts

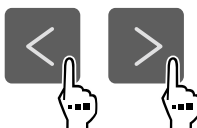

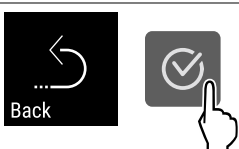

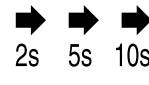

Spare parts for functional and storable parts of the equipment are available for 15 years.

# 3 Functionality of the Touch display

You operate your appliance using the Touch display. You select appliance functions in the Touch display (hereafter referred to as display) by tapping them. If you do not perform any action on the display for 10 seconds, the display either jumps back to the higher-level menu or directly to the status display.

## 3.1 Navigation and symbol explanation

In the illustrations, different symbols are used to navigate the display. The following table describes these symbols.

Symbol	Description
	<b>Press the Next navigation arrow:</b> Navigates to the next option in the menu.
	<b>Press the Back navigation arrow:</b> Jumps back one option in the menu.
	<b>Press and hold the Back navigation arrow for 3 seconds:</b> Jumps back to the status display in the main menu or from the Settings menu.
	<b>Press the navigation arrow several times in succession:</b> Navigates in the menu to the desired function.
	<b>Press the Confirm symbol:</b> Activates/deactivates function. Opens submenu.
	<b>Press the Confirm symbol together with the back icon:</b> Jumps back one menu level.
	<b>Arrow with clock:</b> It takes more than 10 seconds for the following message to appear in the display.
	<b>Arrow with a time indication:</b> It takes the specified amount of time until the following message appears in the display.
	<b>“Open Settings menu” symbol:</b> Navigates to the Settings menu and opens the settings menu.  If necessary: Navigate to the desired function in the Settings menu. (see 3.2.1 Opening the Settings menu)

# Start-up

Symbol	Description
No action for 10 seconds	If you do not perform any action on the display for 10 seconds, the display either jumps back to the higher-level menu or directly to the status display.
Opening door and closing it again	If you open the door and immediately close it again, the display jumps directly back to the status display.

Note: Illustrations of the display are shown in the English version.

## 3.2 Menus

The appliance functions can be found in various menus.

Menu	Description
Main menu	When you switch the appliance on, you are automatically in the main menu. From here you can navigate to the most important appliance functions, to the Settings menu and to the Advanced menu.
 Settings menu	The Settings menu contains additional appliance functions for setting up your appliance. (see 3.2.1 Opening the Settings menu)

### 3.2.1 Opening the Settings menu

Fig. 2 Example illustration

- ▶ Carry out action steps according to the illustration.
- ▶ Settings menu is open.
- ▶ If necessary: Navigate to the desired function.

## 3.3 Sleep mode

If you do not touch the display for 1 minute, the display switches to sleep mode. In sleep mode, the display brightness is dimmed.

### 3.3.1 Ending sleep mode

- ▶ Press any navigation key.
- ▶ Sleep mode is ended.

## 4 Start-up

### 4.1 Switching on appliance (first use)

Make sure that the following requirements are fulfilled:

- ❑ The appliance is properly installed and connected according to the installation instructions.
- ❑ All adhesive strips, adhesive and protective films and transport locks are removed from inside and on the appliance.
- ❑ All marketing leaflets are removed from the drawers.
- ❑ You are familiar with the functionality of the Touch display. (see 3 Functionality of the Touch display)

#### Switch on the appliance using the Touch display.

- ▶ If the display is in sleep mode: Press the Confirm symbol.
- ▶ Carry out action steps according to the illustration.

Fig. 3 Example illustration

- ▶ The appliance cools to the temperature set at the factory.
- ▶ The appliance starts in demo mode (status display with DEMO appears): If the appliance starts in demo mode, you can deactivate demo mode within the next 5 minutes. (see Demo mode)

#### More information:

- Start the SmartDevice for the first time. and (see WiFi)

#### Note

The manufacturer recommends:

- ▶ Observe the notes on storing food. (see 5.1 Information regarding storage)

#### Note

Accessories can be purchased from the Liebherr Service Center. The address for your respective country can be found on the back of the instructions.

## 5 Storage

### 5.1 Information regarding storage

#### WARNING

Risk of fire from electrical appliances!

If you use electrical devices in the food area of your appliance, they may cause a fire.

- ▶ Do not use electrical devices in the food area of the appliance if they have not been recommended by the manufacturer.

#### Note

Insufficient ventilation results in an increase in energy consumption and reduction of the refrigerating performance

- ▶ Always keep the air slots unobstructed.

Observe the following specifications for storage:

- Keep the air vents on the fan free.
- Package or cover foods that readily take on or give off odors or taste in closed containers.
- Package raw meat or fish in clean, closed containers. This will prevent meat or fish from touching or dripping onto other food.
- Keep liquids in closed containers.
- Leave space between goods to ensure good air circulation.
- Store food according to the instructions on the packaging.
- Always observe the best-before date indicated on the packaging.

#### Note

Failure to follow these guidelines can lead to food-stuffs spoiling.

### 5.2 Arranging your food properly

Fig. 4 Example illustration

- ▶ Top area Fig. 4 (1): Store butter, cheese, canned food, and tubes.
- ▶ Middle area Fig. 4 (2): Store packaged fruit and vegetables, baked goods, and cakes.
- ▶ Bottom area Fig. 4 (3): Store perishable food, such as pre-cooked meals, fish, fresh meat and lunch meat.
- ▶ Beverage shelf Fig. 4 (4): Store cans, smaller bottles.

### 5.3 Storage times

The storage times given are guidelines

Food with a “use by” date must still be consumed by the date indicated on the package

## 6 Energy saving

- Always ensure good ventilation. Keep clear of obstruction all ventilation openings in the appliance enclosure or in the structure for building-in.
- Never block air slits in the fan.
- Do not install the appliance in an area with direct sunlight, next to a heating unit or similar.
- If you install the appliance directly next to an oven, its energy consumption may increase slightly. This depends on the service life and how often the oven is used.
- Energy consumption depends on installation conditions such as the ambient temperature (see 2.2 Range of appliance use). A warmer ambient temperature can increase the energy consumption.
- Avoid opening the appliance door for any longer than necessary
- The lower the temperature is set the higher the energy consumption.
- For longer periods of absence, use HolidayMode (see HolidayMode).

## 7 Use

### 7.1 Controls and displays

#### 7.1.1 Status display

Fig. 5

- (1) Fridge compartment temperature display

The Status display shows the set temperatures and is the home display. From there, you can navigate to the options and settings.

# Use

## 7.1.2 Display symbols

The display symbols provide information about the current appliance status.

Symbol	Appliance status
	<b>Standby</b> The appliance or temperature zone is turned off.
	<b>Flashing number</b> Appliance is working. Temperature flashes, until the set value is reached.
	<b>Flashing symbol</b> Appliance is working. Setting is made.
	<b>Bar grows steadily</b> Function is activated.

## 7.2 Appliance functions

### 7.2.1 Notes on the appliance functions

The appliance functions are set at the factory so that your appliance is fully functional.

Before you alter, activate or deactivate the appliance functions, make sure that the following requirements are met:

- You have read and understood the descriptions of how the display works. (see 3 Functionality of the Touch display)
- You have familiarized yourself with the operating and display elements of your appliance.

### Switching appliance off and on

This function switches the entire appliance on and off.

#### Switching off the appliance

If you switch off the appliance, the settings that were made before remain stored.

Make sure that the following requirements are fulfilled:

- Handling instructions (see 10 Decommissioning) have been completed.

Fig. 6

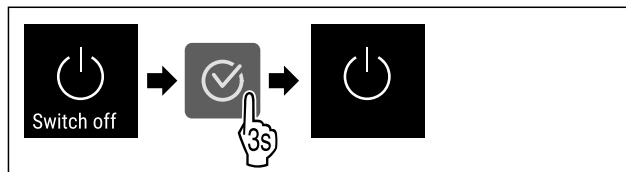

Fig. 7

- ▶ Carry out action steps according to the illustration.
- ▶ Appliance is switched off.
- ▶ Standby symbol appears in the display.
- ▶ Display turns black.

#### Switching on the appliance

If the display is in sleep mode:

- ▶ Press any navigation key.

Fig. 8 Example illustration

- ▶ Carry out action steps according to the illustration.
- If the appliance starts in demo mode:
  - ▶ Deactivate demo mode. (see Deactivating demo mode)
  - ▶ Appliance is switched on.
  - ▶ Previously made settings are re-established.
  - ▶ The appliance cools to the set target temperature.

### WiFi

Use this function to connect your appliance to WiFi. You can then operate it via the SmartDevice app on a mobile device. You can also use this function to disconnect or reset the WiFi connection.

To connect your device to WiFi, you need the SmartDeviceBox.

More information on the SmartDevice:

#### Note

The SmartDevice function is not available in the following countries: Russia, Belarus, Kazakhstan.

You cannot use the SmartDeviceBox.

#### Establishing the WiFi connection for the first time

Make sure that the following requirements are fulfilled:

- You have purchased and inserted a SmartDeviceBox.
- You have installed the SmartDevice app (see [apps.home.liebherr.com](https://apps.home.liebherr.com)).
- Registration in the SmartDevice app is completed.

Fig. 9

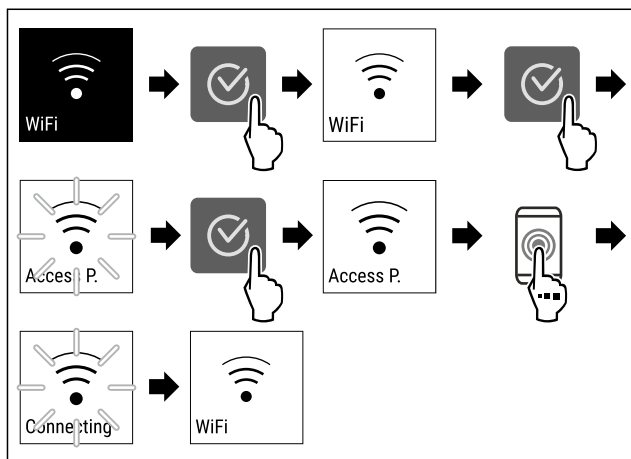

Fig. 10

- ▶ Carry out action steps according to the illustration.
- ▶ Connection is established.

**Disconnecting from the WiFi**

Fig. 11

Fig. 12

- ▶ Carry out action steps according to the illustration.
- ▶ There is no connection.

**Resetting the WiFi connection**

Fig. 13

Fig. 14

- ▶ Carry out action steps according to the illustration.
- ▶ WiFi connection and other WiFi settings are reset to factory settings.

**Showing information about the WiFi connection**

Fig. 15

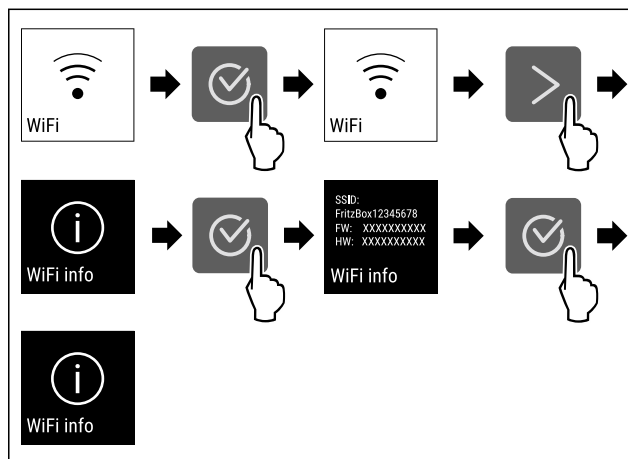

Fig. 16

- ▶ Carry out action steps according to the illustration.

**5 °C Temperature**

Use this function to set the temperature.

The temperature depends on the following factors:

- How often the door is opened
- How long the door is open
- The room temperature of the installation site
- Type, temperature and amount of food

## Use

	Factory-set temperature	Recommended setting
<b>5 °C</b> Fridge section	4 °C (39 °F)	4 °C (39 °F)

### Setting the temperature

Fig. 17 Example illustration

- ▶ Carry out action steps according to the illustration.
- ▷ Temperature is set.

### Temperature unit

Use this function to set the temperature unit. You can set the temperature unit in either degrees Celsius or degrees Fahrenheit.

#### Setting the temperature unit

Fig. 18

Fig. 19 Example illustration: Switching between degrees Celsius or degrees Fahrenheit.

- ▶ Carry out action steps according to the illustration.
- ▷ Temperature unit is set.

### SuperCool

This function activates or deactivates SuperCool. If you activate SuperCool the appliance increases the cooling capacity. This allows you to achieve lower cooling temperatures. You can activate SuperCool if you want to quickly cool large volumes of food.

If the function is active, the appliance operates at a higher output. As a result, the operating noise of the appliance may be temporarily louder, while energy consumption increases.

#### Activating SuperCool

Time for activating the function:

- If you want to store fresh food in the fridge section: Activate the function when storing food.

Fig. 20

Fig. 21

- ▶ Carry out action steps according to the illustration.
- ▷ SuperCool is activated.

#### Deactivating SuperCool

SuperCool is automatically deactivated after 18 hours. However, you can also manually deactivate SuperCool at any time:

Fig. 22

Fig. 23

- ▶ Carry out action steps according to the illustration.
- ▷ SuperCool is deactivated.
- ▷ Appliance continues to run in normal operation.
- ▷ The appliance first cools to the set temperature.

## PartyMode

This function activates and deactivates PartyMode. PartyMode activates different functions that are useful for a party.

PartyMode activates the following functions:

- SuperCool (see SuperCool)

You can set all listed functions individually and flexibly. By deactivating PartyMode all changes are discarded.

If the function is active, the appliance operates at a higher output. As a result, the operating noise of the appliance may be temporarily louder, while energy consumption increases.

### Activating PartyMode

Fig. 24

Fig. 25

- ▶ Carry out action steps according to the illustration.
- ▶ PartyMode and the corresponding functions are activated.
- ▶ The current temperature flashes until the target temperature is reached.

### Deactivating PartyMode

PartyMode is automatically deactivated after 24 hours. However, you can also manually deactivate PartyMode at any time:

Fig. 26

Fig. 27

- ▶ Carry out action steps according to the illustration.
- ▶ PartyMode is deactivated.

- ▶ The appliance first cools to the set temperature: The current temperature flashes until the target temperature is reached.

## HolidayMode

Use this function to activate or deactivate HolidayMode. If you activate HolidayMode the fridge section is set to 15 °C (59 °F). This helps you save energy if you are away for a longer period of time and avoid bad smells and mold formation.

Appliance status with active HolidayMode
Fridge section cools to 15 °C (59 °F).
PartyMode is deactivated.
SuperCool is deactivated.

### Activating HolidayMode

- ▶ Empty the fridge section completely.

Fig. 28

Fig. 29

- ▶ Carry out action steps according to the illustration.
- ▶ HolidayMode is activated.
- ▶ Temperature display shows the HolidayMode symbol.

### Deactivating HolidayMode

Fig. 30

Fig. 31

- ▶ Carry out action steps according to the illustration.
- ▶ HolidayMode is deactivated.
- ▶ The appliance first cools to the set temperature.

# Use

## SabbathMode

This function activates and deactivates SabbathMode. If you activate this function, some electronic functions are switched off. Your appliance thereby meets the religious requirements of Jewish holidays such as the Sabbath and complies with STAR-K Kosher certification.

Appliance status with active SabbathMode
The status display continuously shows SabbathMode.
All functions in the display except the <b>Deactivating SabbathMode function</b> are disabled.
Active functions remain active.
The display remains bright when you close the door.
The interior lighting is deactivated.
Memories are not listed. The set time interval is stopped.
Memories and warnings are not displayed.
There is no door alarm.
There is no temperature alarm.
After a power failure, the device returns to SabbathMode.

*Appliance status*

### Note

This appliance has certification from the “Institute for Science and Halacha”. ([www.machonhalacha.co.il](http://www.machonhalacha.co.il))

You can find a list of STAR-K-certified appliances at [www.star-k.org/appliances](http://www.star-k.org/appliances).

### Activating SabbathMode

#### WARNING

Danger of poisoning from spoiled food!

If you have SabbathMode activated and a power failure occurs, no message appears in the status display about the power failure. Once the power is restored, the appliance continues to operate in SabbathMode. The power failure may mean that food spoils and the consumption of this food could lead to food poisoning. After a power failure:

- ▶ Do not consume food that has been frozen and thawed.

Fig. 32

Fig. 33

- ▶ Carry out action steps according to the illustration.
- ▶ SabbathMode is activated.
- ▶ Status display continuously shows SabbathMode.

### Deactivating SabbathMode

SabbathMode is automatically deactivated after 80 hours. However, you can also manually deactivate SabbathMode at any time:

Fig. 34

- ▶ Carry out action steps according to the illustration.
- ▶ SabbathMode is deactivated.

## E-Saver

Use this function to activate or deactivate energy saving mode. If you activate energy saving mode, energy consumption drops and the temperature in the appliance increases. Food remains fresh, but shelf life is reduced.

Temperature zone	Recommended setting (see Setting the temperature)	Temperature while E-Saver is active
<b>5 °C</b> Fridge section	4 °C (39 °F)	7 °C (45 °F)

*Temperatures*

### Activating E-Saver

Fig. 35

Fig. 36

- ▶ Carry out action steps according to the illustration.
- ▶ Energy saving mode is activated.

### Deactivating E-Saver

Fig. 37

Fig. 38

- ▶ Carry out action steps according to the illustration.
- ▶ Energy saving mode is deactivated.

### CleaningMode

This function activates and deactivates CleaningMode. CleaningMode enables you to comfortably clean the appliance.

This setting relates to the fridge compartment.

Application:

- Clean the fridge compartment. (see 8.3 Cleaning the appliance)

Appliance status with active CleaningMode
The status display continuously shows CleaningMode.
The fridge section is switched off.
The interior lighting is activated.
Reminders and warnings are not displayed. No signal tone is sounded.

Appliance status

### Activating CleaningMode

Fig. 39

Fig. 40

- ▶ Carry out action steps according to the illustration.
- ▶ CleaningMode is activated.

- ▶ Status display continuously shows CleaningMode.

### Deactivating CleaningMode

CleaningMode is automatically deactivated after 60 minutes. However, you can also manually deactivate CleaningMode at any time:

Fig. 41

- ▶ Carry out action steps according to the illustration.
- ▶ CleaningMode is deactivated.
- ▶ The appliance first cools to the set temperature.

### Lighting intensity

This setting allows the interior brightness to be adjusted incrementally.

The following brightness values can be set:

- Off
- 20%
- 40%
- 60%
- 80%
- 100% (default)

### Setting lighting intensity

Fig. 42

Fig. 43

- ▶ Carry out action steps according to the illustration.
- ▶ The lighting intensity increases or decreases accordingly.

### Display Brightness

Use this function to set the brightness of the display gradually.

# Use

You can set the following brightness levels:

- 40 %
- 60 %
- 80 %
- 100% (default setting)

## Setting the brightness

Fig. 44

Fig. 45 Example illustration: Switching from 80% to 60%.

- ▶ Carry out action steps according to the illustration.
- ▶ Brightness is set.

## Door alarm

Use this function to activate or deactivate the door alarm. The door alarm sounds if the door is open for too long. The door alarm is activated upon delivery. You can set how long the door can remain open until the door alarm sounds.

## Setting the door alarm

Fig. 46

Fig. 47 Example illustration: Changing the door alarm from 1 minute to 3 minutes.

- ▶ Carry out action steps according to the illustration.
- ▶ Door alarm is set.

## Deactivating door alarm

Fig. 48

Fig. 49

- ▶ Carry out action steps according to the illustration.
- ▶ Door alarm is deactivated.

## Child lock

Use this function to activate and deactivate the child lock. The child lock prevents the appliance from being operated accidentally, e. g. by children.

Application:

- Prevent unintentional changes of functions.
- Prevent switching off of the appliance.
- Prevent unintentional temperature setting.

## Activating child lock

If you activate the child lock, you can continue to navigate in the menus, however you cannot select or modify other functions.

Fig. 50

Fig. 51

- ▶ Carry out action steps according to the illustration.
- ▶ Child lock is activated.

## Deactivating child lock

Fig. 52

Fig. 53

- ▶ Carry out action steps according to the illustration.
- ▶ Child lock is deactivated.

### Appliance and software information

Use this function to display the model name, index, serial number and service number of your appliance. You will need the appliance information when you contact customer service. (see 9.4 Customer Service)

You also use this function to open the expanded menu. (see 3 Functionality of the Touch display)

#### Display appliance information

Fig. 54

Fig. 55

- ▶ Carry out action steps according to the illustration.
- ▶ Display shows the appliance information.

#### Display software information

Fig. 56

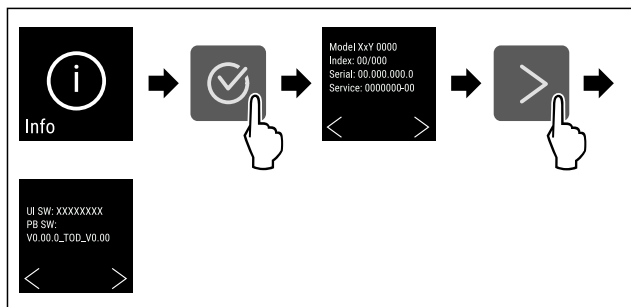

Fig. 57

- ▶ Carry out action steps according to the illustration.
- ▶ Display shows the software information.

### Demo mode

Demo mode is a special feature for dealers who want to demonstrate appliance features. If you activate demo mode, all refrigeration functions are deactivated.

If you activate and then deactivate demo mode, the appliance will be reset to factory defaults. (see Resetting to factory settings)

#### Activating demo mode

Fig. 58

Fig. 59

- ▶ Carry out action steps according to the illustration.
- ▶ Demo mode is activated.
- ▶ Appliance is switched off.
- ▶ Switch on the appliance. (see 4.1 Switching on appliance (first use))

#### Deactivating demo mode

Fig. 60

Fig. 61

- ▶ Carry out action steps according to the illustration.
- ▶ Demo mode is deactivated.
- ▶ Appliance is switched off.
- ▶ Restart the appliance. (see 4.1 Switching on appliance (first use))
- ▶ Appliance is reset to factory settings.

### Resetting to factory settings

Use this function to reset all settings to factory settings. All settings you have made so far are reset to their original settings.

#### Performing a reset

Fig. 62

Fig. 63

- ▶ Carry out action steps according to the illustration.

- ▶ Appliance is reset.
- ▶ Appliance is switched off.
- ▶ Restart the appliance. (see 4.1 Switching on appliance (first use))

## 7.3 Messages

There are two categories of messages:

Category	Meaning
Warning	You can easily end warnings yourself. For any major malfunction, you must contact Customer Service. (see 9.4 Customer Service)
Reminder	Reminders remind you of general processes. You can perform these processes and end the message doing so.

### 7.3.1 Overview of warnings

The appliance's behavior in the event of a warning:

- Alarm sounds in increasing volume.
- For some warnings the interior lighting pulses.

Message	Cause	Ending the message
<b>Error</b>	This message appears if there is an appliance error. An appliance module indicates an error.	Carry out action steps (see Error) .

### 7.3.2 Ending warnings

#### Power failure alarm

This message is displayed for each temperature zone of your appliance. Once the power failure has ended, the appliance automatically cools to the target temperature set earlier without you having to confirm the message. You must confirm it in order for the message to disappear on the display.

Fig. 64 Example illustration

- ▶ Press the Confirm symbol.
- ▶ The warmest freezing temperature is displayed.
- ▶ If the freezing temperature was below -9 °C (16 °F): Food can still be eaten.
- ▶ If the freezing temperature exceeded -9 °C (16 °F): Check the food.

- ▶ Press the Confirm symbol.
- ▶ Display skips to status display: The current temperature and target temperature are displayed.

## Temperature alarm

This message is displayed for each temperature zone of your appliance. You must confirm it in order for the message to disappear on the display.

Causes for the temperature differences may be:

- You have put in warm, fresh food.
  - Too much warm room air has flowed in during the rearrangement and removal of food.
  - The power has been out for a longer period of time.
  - The appliance is defective.
- ▶ Remedy the cause.
- ▶ The appliance cools to the target temperature set earlier.

Fig. 65 Example illustration

- ▶ Press the Confirm symbol.
- ▶ The warmest freezing temperature is displayed.
- ▶ If the freezing temperature was below -9 °C (16 °F): Food can still be eaten.
- ▶ If the freezing temperature exceeded -9 °C (16 °F):
- ▶ Check the food.
- ▶ Press the Confirm symbol.
- ▶ Display skips to status display: The current temperature and target temperature are displayed.

## Error

Fig. 66 Example illustration

- ▶ Press the Confirm symbol.
- ▶ Error code is displayed.
- ▶ Make a note of the error code.
- ▶ Press the Confirm symbol.
- ▶ Display skips to status display.
- ▶ Contact Customer Service. (see 9.4 Customer Service)

## 7.3.3 Overview of reminders

The appliance's behavior in the event of a reminders:

- Alarm tone sounds.
- For some reminders the interior lighting pulses.

You can deactivate the following reminders :

Message	Cause	Ending the message
 <b>Replace FreshAir activated charcoal filter</b>	This message appears if you have to replace the FreshAir activated charcoal filter.	Carry out action steps (see Replace FreshAir activated charcoal filter).

## 7.3.4 Ending reminders

### Replace FreshAir activated charcoal filter

Liebherr recommends: Replace the FreshAir activated charcoal filter every 6 months.

#### Note

FreshAir activated charcoal filters can be purchased from the Liebherr Service Center. The address for your respective country can be found on the back of the instructions.

Fig. 67 Example illustration

- ▶ Replace activated charcoal filter. (see 8.1 FreshAir carbon filter)
  - ▶ The activated charcoal filter ensures optimum air quality in the refrigerator.
  - ▶ Reminder appears again after 6 months.
- If you no longer want to keep this reminder, you can deactivate the reminder.

# 8 Maintenance

## 8.1 FreshAir carbon filter

The FreshAir carbon filter is located in the compartment above the fan.

It guarantees the best air quality.

- Change the carbon filter every 6 months.
  - ▶ When the reminder is set, a message on the display prompts you to change it.
- You can dispose of the carbon filter with the regular household waste.

# Maintenance

## Note

FreshAir activated charcoal filters can be purchased from the Liebherr Service Center. The address for your respective country can be found on the back of the instructions.

### 8.1.1 Removing the FreshAir carbon filter

Fig. 68

- ▶ Pull out the compartment Fig. 68 (1).
- ▶ Remove the carbon filter Fig. 68 (2).

### 8.1.2 Inserting the FreshAir carbon filter

Fig. 69

- ▶ Insert the carbon filter as shown in the diagram Fig. 69 (1).
- ▶ The carbon filter clicks into place.  
If the carbon filter is pointing downwards:
  - ▶ Push the compartment in Fig. 69 (2).
  - ▶ The carbon filter is now ready for use.

## 8.2 Defrosting the appliance

### WARNING

Appliance incorrectly defrosted!  
Injuries and damage.

- ▶ Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- ▶ Do not use any electrical heating or steam cleaning equipment, naked flames or defrosting sprays.
- ▶ Do not remove ice with sharp objects.

Defrosting is performed automatically. The water from the thawing process runs out via the drain opening and is evaporated.

Water droplets or a thin layer of frost or ice can form on the rear wall; this is a completely normal part of the appliance's function. You do not have to remove them.

- ▶ Clean the drain hole regularly. (see 8.3 Cleaning the appliance)

## 8.3 Cleaning the appliance

### 8.3.1 Preparation

### WARNING

Danger of electric shock.

- ▶ Unplug refrigerator or disconnect power.

### WARNING

Danger of fire

- ▶ Do not damage the refrigerant circuit.

- ▶ Empty appliance.
- ▶ Pull out the power plug.

-or-

- ▶ Activate CleaningMode. (see CleaningMode)

### 8.3.2 Cleaning the interior

#### NOTICE

Improper cleaning!

Damage to the appliance.

- ▶ Only use soft cleaning cloths and ph-neutral all-purpose cleaners.
- ▶ Do not use steel wool or sponges that scour or scratch.
- ▶ Do not use caustic or abrasive cleaning materials or those containing sand, chloride, or acids.
- ▶ Plastic surfaces: clean by hand with a soft clean cloth, lukewarm water and a little detergent.
- ▶ Metal surfaces: clean by hand with a soft clean cloth, lukewarm water and a little detergent.
- ▶ Drain hole: remove any deposits with a thin item such as a cotton bud.

### 8.3.3 Cleaning the equipment

#### NOTICE

Improper cleaning!

Damage to the appliance.

- ▶ Only use soft cleaning cloths and ph-neutral all-purpose cleaners.
- ▶ Do not use steel wool or sponges that scour or scratch.
- ▶ Do not use caustic or abrasive cleaning materials or those containing sand, chloride, or acids.

**Clean with a soft, clean cloth, lukewarm water and a little washing up liquid:**

- Shelf
- ▶ Disassemble the equipment: see the relevant section.
- ▶ Clean the equipment.

### 8.3.4 After cleaning

- ▶ Wipe dry the appliance and items of equipment
- ▶ Connect and switch on the appliance.
- ▶ Repeat cleaning regularly.

## 9 Customer support

### 9.1 Technical specifications

Temperature zone	
Cool:	2 °C (36 °F) to 10 °C (50 °F)

Equipment	Maximum loading weight
Top area (per shelf)	15 kg 33.07 lb
Middle area	40 kg (88.18 lb)
Bottom area	40 kg (88.18 lb)
Beverage shelf	30 kg (66.14 lb)

Usable content
See usable content on the type plate. (see 2.1 Overview of appliances and equipment)

### 9.2 Operating noises

The appliance makes noises while in operation.

- At **less cooling output** the appliance saves energy but takes longer to cool items. The volume is **lower**.
- At **a higher cooling output** the food cools more quickly. The volume is **higher**.

Examples:

- Activated functions (see 7.2 Appliance functions)
- Running fan
- Freshly sorted food
- High ambient temperature
- Door opened for long periods

Noise	Possible cause	Type of noise
Bubbling and splashing	Coolant is flowing into the cooling circuit.	Normal noise
Spitting and hissing	Coolant is spraying into the cooling circuit.	Normal noise
Humming	The appliance cools. The volume depends on the cooling output.	Normal noise
Whirring and murmuring	The fan is running.	Normal operating noise
Clicking	Components are being switched on and off.	Normal switching noise
Rattling or humming	Valves are active.	Normal switching noise

Noise	Possible cause	Type of noise	How to resolve
Vibration	Unsuitable installation	Error noise	Check installation. Set up the appliance.
Clattering	Equipment, Objects inside the appliance	Error noise	Secure equipment parts. Leave a gap between items.

### 9.3 Technical faults

Your appliance is designed and manufactured for reliable operation and a long service life. If a malfunction nonetheless occurs during operation, please check whether the malfunction is due to an operating error. In this case, you will have to be charged for the costs incurred, even during the warranty period.

You may be able to rectify the following faults yourself.

#### 9.3.1 Appliance function

Defect	Cause	Remedy
<b>The appliance does not work.</b>	The appliance is not switched on.	▶ Switch on the appliance.
	The power plug is not properly inserted in the wall socket.	▶ Check the power plug.

## Customer support

Defect	Cause	Remedy
	The powerfuse in the wall socket is not OK.	▶ Check the fuse.
	Power failure.	▶ Keep the appliance closed.
	The IEC socket is not correctly plugged into the appliance.	▶ Check the IEC socket.
<b>The temperature is not cold enough</b>	This means that the door of the appliance is not closed properly	▶ Close the appliance door
	Insufficient ventilation	▶ Clear and clean the ventilation grille.
	The ambient temperature is too high	▶ Problem solution: (see 2.2 Range of appliance use)
	The appliance was opened too frequently or for too long	▶ Wait to see if the required temperature corrects itself. If not, contact Customer Service. (see 9.4 Customer Service)
	The appliance is too near to a heat source (stove, heater etc).	▶ Change location of appliance or the heat source.
	The appliance was not properly installed in the recess.	▶ Make sure the appliance was installed correctly and the door closes properly.
<b>The door seal is defective or should be replaced for other reasons.</b>	The door seal is interchangeable. You can replace it without the use of any special tools.	▶ Contact Customer Service. (see 9.4 Customer Service)
<b>The appliance is iced up or condensation is building.</b>	The door seal may have slipped out of its groove.	▶ Check the door seal is well placed in the groove.

### 9.3.2 Equipment

Defect	Cause	Remedy
<b>The interior light does not turn on.</b>	The appliance is not switched on.	▶ Switch on the appliance.
	The LED interior light is faulty or the lid is damaged.	▶ Contact Customer Service. (see 9.4 Customer Service)

## 9.4 Customer Service

First check whether you can rectify the fault yourself (see 9 Customer support) . If you cannot rectify the problem, contact Customer Service.

You can find the address in the enclosed brochure "Liebherr-Service" or at [home.liebherr.com/service](http://home.liebherr.com/service).

### WARNING

Unprofessional repair!  
Injuries.

- ▶ A damaged power cable may only be replaced by the manufacturer, the manufacturer's Customer Service or a similarly qualified person.
- ▶ For appliances with plug and play connection cables, the change can be made by the customer.

## 9.4.1 Contacting Customer Service

Make sure that the following appliance information is available:

- Appliance name (model and index)
- Service no. (service)
- Serial no. (S no.)
- ▶ Take note of the appliance information.
- ▶ Notify customer service: Report errors and the appliance information.
- ▶ This will help us give you fast and accurate support.
- ▶ Follow further instructions from Customer Service.

## 9.5 Rating plate

Fig. 70

- (1) Appliance name
- (2) Service no.
- (3) Serial no.

▶ Information from the nameplate.

## 10 Decommissioning

- ▶ Empty appliance.
- ▶ Switch off appliance. (see Switching appliance off and on)
- ▶ Pull the power plug from the outlet.
- ▶ If necessary, remove the IEC socket: Pull the IEC socket out of the appliance plug while turning it to the left and right at the same time.
- ▶ Clean appliance. (see 8.3 Cleaning the appliance)
- ▶ Leave the door open to prevent unpleasant odors.

## 11 Disposal

### 11.1 Preparing the appliance for disposal

#### WARNING

Risk of child entrapment!

Before you throw away your old refrigerator or freezer:

- ▶ Take off the doors.
- ▶ Leave the shelves in place so that children may not easily climb inside.

Li-Ion

Liebherr uses batteries in some of its appliances. You should remove these before disposal of the old appliance for environmental reasons. If your appliance contains batteries, a corresponding notice is attached to the appliance.

**Lamps** If you can remove the lamps yourself without destroying them, also remove these before disposal.

- ▶ Take the appliance out of operation.
- ▶ If possible: Remove lamps without destroying them.

### 11.2 Disposing of the appliance in an environmentally friendly manner

The appliance still contains valuable materials and must be collected separately from unsorted municipal waste so it can be recycled.

Li-Ion

Li-Ion

Dispose of batteries separately from the old appliance. Certain batteries should NOT go in household garbage or recycling bins. Waste batteries can always be recycled or taken to household hazardous waste collection points. To prevent fires from lithium-ion batteries, tape battery terminals and/or place batteries in separate plastic bags and never put these batteries in household garbage or recycling bins.

**Lamps**

Dispose of removed lamps via the respective collection systems.

For USA:

Check the Responsible Appliance Disposal (RAD) program to find a RAD partner near you.

For Canada:

Follow your local guidance about recycling and disposal capabilities near you.

# Disposal

---

## **WARNING**

Leaking refrigerant and oil!

Fire. The refrigerant contained within the appliance is environmentally friendly, but flammable. The oil contained within the appliance is flammable. Escaping refrigerant and oil can ignite if they are of high enough concentration and are exposed to an external heat source.

- ▶ Do not damage the pipelines of the coolant circuit and the compressor.
- 
- ▶ Observe the notes on appliance transport.
  - ▶ Transport the appliance away without damaging it.
  - ▶ Dispose of batteries, lamps, and the appliance according to the above specifications.
