CHILDREN VIDEO WALKIE-TALKIE

Product User Manual

3+ Ages

●1.Product Appearance and Function Description

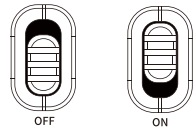

1. Volume +
2. Volume -
3. Slide up to turn on product; slide down to turn off
4. Type-C charging port
5. Red light on during charging

6. Thread it through the watch strap, and it becomes a walkie-talkie in the style of a watch.
7. 1.54-inch display screen
8. Microphone
9. Speaker
10. Press and hold for intercom
11. Short press to switch voice effects / Long press to switch screens

01

●2. Power On/Off:

- 2.1. The power switch is set to the "OFF" position when the product leaves the factory.
- 2.2. Switch to the "ON" position will start the product; the display area will show the image captured by the built-in camera. An image from the other device will appear in the display area only when that paired device is powered on.
- 2.3. Please fully charge the battery before using the product for the first time.

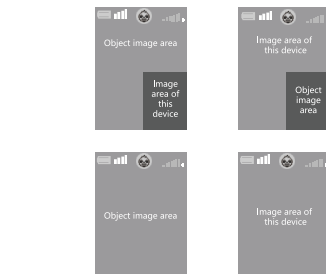

●3.Indicator Light

Connect the provided charging cable to the charger; the red power indicator will light up. The indicator will automatically turn off once the device is fully charged.

●4. Function Description

- 4.1. Turn the power switch to the "ON" position; the device will start automatically and display the image captured by camera. When the other party's intercom is powered on, the two units will automatically connect and display each other's video feeds.
- 4.2. Press and hold the intercom button to speak. Audio transmission is one-way; the other party can only transmit audio after the speaker releases the button.
- 4.3. Long press the Mode button to switch display modes; the device offers four screen display modes.

02

●5. Volume adjustment:

Short press the "+" button to increase the volume. Short press the "-" button to decrease the volume.

●6. Fun voice-changing and video-switching functions:

- 6.1. Voice-changing function: Short press the Mode button to switch voice modes. The voice mode will revert to the default setting after the device is turned off.
- 6.2. Video-switching function: Press and hold the Mode button for 3 seconds, then release it to switch video modes.

●7. Power On/Off and Automatic Shutdown

The product enters operational mode immediately upon being turned on; it remains active regardless of whether it is currently in use. The device will shut down automatically when the battery level is low. Please switch the power to "OFF" when you are finished using it. To restart the product, turn the power switch to "OFF" and then to "ON" to boot it up normally.

03

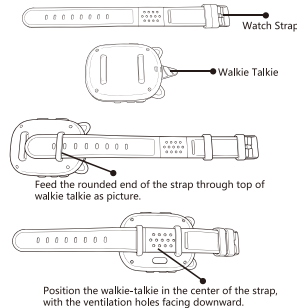

●8. Pairing and Connection:

This product utilizes 2.4GHz Wi-Fi for transmission and connection; each set includes two pre-paired intercom units. These units cannot be connected to other devices. If purchasing multiple sets, connections are limited to the specific pairs within each set; they cannot connect to multiple units simultaneously.

●9. Precautions:

- a. This product is suitable for outdoor use.
- b. This product is not waterproof.
- c. Indoor operating range is determined by the condition that the video feed remains smooth and free of stuttering.

●10. Watch strap usage:

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
