

EN TDBU 25 WF Zigbee HP

Short installation guide

Original instructions

Complete instruction guide available online on www.somfy.info

⚠ Do not unplug the battery when the motor works.

For additional help, use the "Help me by Somfy" application (available on the App Store and Google Play.)

At the product selection stage, scan this QR code

1 Start Up

To set the drive, download "TaHoma pro" application available on stores

2 Drive setting

Once the "TaHoma pro" application is downloaded, open the app and follow the instructions to set the drive.

3 Use

This drive does not require any maintenance operation.

4 Drive resetting

⚠ This reset deletes all programmed control points, all sensors, all end limit settings and resets the favourite (my) position for the drive.

INSTRUCTIONS TO BE RESPECTED

These instructions apply to all TDBU 25 WF Zigbee HP drives, the different versions of which are available in the current catalogue.

FIELD OF APPLICATION

The TDBU drives are designed to motorise all types of:

- Interior vertical blinds which front rail moves solely by gravity with a mass less than 15 kg.

5182716A

somfy®

LIABILITY

Please read these instructions carefully before installing and using the drive. In addition to following the instructions given in this guide, the instructions detailed in the attached **Safety instructions** document must also be observed. The drive must be installed by a motorisation and home automation professional, according to instructions from Somfy and the regulations applicable in the country in which it is commissioned.

It is prohibited to use the drive outside the field of application described above. Such use, and any failure to comply with the instructions given in this guide and in the attached **Safety instructions** document, absolves Somfy of any liability and invalidates the warranty.

The installer must inform its customers of the operating and maintenance conditions for the drive and must provide them with the instructions for use and maintenance, and the attached **Safety instructions** document, after installing the drive. Any After-Sales Service operation on the drive must be performed by a motorisation and home automation professional. If in doubt when installing the drive, or to obtain additional information, contact a Somfy adviser or go to the website www.somfy.com.

SAFETY INSTRUCTIONS FOR WIRING

-  Cables which pass through a metal wall must be protected and isolated using a sheath or sleeve.
-  Attach cables to prevent any contact with moving parts.
-  If the drive is used outdoors, and if the power supply cable is a type H05VV-F cable, the cable should be installed in a UV-resistant duct, e.g. under a gland.
-  Leave the drive power supply cable accessible: the product must be easily replaceable.
-  Always make a loop in the power supply cable to prevent water entering the drive.

WARNING

To ensure electrical safety, this Class III drive must be powered by a «SELV» voltage source (Safety Extra Low Voltage).

The drive must be installed by a motorisation and home automation professional (for example electrical specialist according to DIN VDE 0100-100 for Germany), according to instructions from Somfy and the regulations applicable in the country in which it is commissioned.

Using this drive with any products which are not listed in the attached «Compatibility matrix» document shall also render invalid any Somfy warranty and release Somfy from any liability.

For the purposes of recharging the battery, only use the detachable supply unit provided with this appliance.

Improper use of battery pack may cause overheating, fire, explosion, resulting in serious injury or death.

Do not expose the drive or battery to excessive temperatures.

There is a risk if terminals of the battery-operated drive or battery being short circuited by metal objects.

Ensure battery is fully charged prior to installation on site.

Frequency bands and Maximum power used

2.4 GHz - 2.4835 GHz e.r.p. <63mW [USA, Australia, Canada]

Power supply

12 V DC class 2 power supply SELV

Charging temperature

0° to 40°C
