

User Manual

Product Parameters:

Product Name: Wireless Microphone

Transmission frequency band: 2.4GHz

Transmission delay: less than 12ms

Sensitivity: -45dB

Frequency response: 20-20KHz

Connector: 3.5mm/6.35mm

Charging port: Type-c charging port

Battery: Polymer lithium battery 300mAH

Transmission distance: 20-40 meters

A: 3.5mm plug with 6.35MM single tone adapter, receiver connected to speaker or mixing console,

B: Press and hold for 2 seconds to turn on the device. After turning on, the device will automatically connect and the green light will remain on, C: Indicator light, red indicator light when charging, fully charged light turns off

D: Type-C charging port The charging cable provided with this product is a dual Type-C charging port,

E: Press and hold the volume up/down button to adjust the volume up/down.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
