

USER GUIDE

GoFree 2s
Wireless Headphones

● Bluetooth Pairing

1. With the earbuds inside the charging case, open the case lid. The earbuds will power on automatically. Close the lid, and they will power off automatically.
2. After the earbuds are powered on, search for and select the Bluetooth device name **SOUNDPEATS GoFree 2s** on your phone to complete the connection.

Control

x1: Single tap
1.5s: Long press for 1.5s

● Reset

With the earbuds inside the charging case, long press the touch control areas on both earbuds for 10 seconds. The charging case light will flash red and white alternately twice, indicating a successful reset.

● Wearing

L

R

1. Identify the left and right earbuds.
2. Adjust the earbuds to find the most comfortable position.

● Charging Case Charging Light Indicators

⚙️ The Green light flashes slowly

● The Green light stays on

● Dual Device Connection (Multi-Point)

Follow these steps:

1. Pair the earbuds with Device A first. After successful pairing, turn off Bluetooth on Device A.
2. Repeat the pairing process to connect the earbuds with Device B. Keep the connection with Device B active.
3. Turn on Bluetooth on Device A again.

* After completing the dual device connection setup for the first time, the earbuds will automatically reconnect to both devices in subsequent use.

* Dual device connection cannot be used simultaneously with LDAC.

* Dual device connection is disabled by default. To enable it, turn on the dual device connection option in the app.

● How to Charge the Charging Case?

1. Connect a Type-C charging adapter to charge the case (charging current should not exceed 1A).
2. If not using the product for an extended period, charge it at least once every three months.

● FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

The distance between user and products should be no less than 20cm

The EUT is In door use only

● ISED Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

AVERTENCIA IC Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes : (1) Cet appareil ne doit pas causer d'interférences. (2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.

This device complies with ISED RF radiation exposure limits set forth for an uncontrolled environment.

The power delivered by the charger must be between min [2] Watts required by the radio equipment, and max [5] Watts in order to achieve the maximum charging speed.
