## Installation Instructions

Install the screen in an area that is easily viewable from anywhere in the room. Ensure the position, angle, and location of the screen are correct before installation.

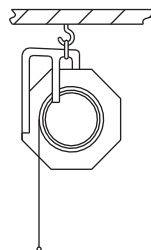

Proper placement will help prolong the product's lifespan.

This projector screen can be installed on a wall or ceiling (optional).

## Wall Installation

1. Place the projector screen against the wall and ensure it is level.
2. Mark the positions of the two hanging rings with a pencil.
3. Carefully hammer nails or install mounting hardware into the marked positions.
4. Hang the projector screen onto the mounting points.

## Ceiling Installation

When installing the screen on the ceiling, follow the same steps as for wall installation.

Ensure the ceiling material can support the weight of the projector screen before installation.

## Important Note

- Make sure the projector screen is installed with sufficient vertical clearance so it can be fully extended.
- Before use, inspect the fabric for dust or debris. If needed, clean gently with a soft brush.

## Operating Instructions

### 1. Open Screen

- This projector screen features a self-locking mechanism.
- Pull the screen down to your desired position and release it gently.
- The screen will slightly retract upward and lock into place. It is now ready for use.

### 2. Close Screen

- When ready to retract the screen, slowly pull it downward.
- You will hear or feel the locking mechanism release.
- While holding the screen, guide it gently upward until it fully retracts.

## Register Product
