HAVIT  GT-HKT340 5000mAh Power Bank with Wireless Charger and Holder User Manual	Packing List  Power Bank*1  USB-C to USB-C Cable*1  User Manual*1 1	Product Structure  2 3	Specifications Model: GT-HKT340 Material: ABS+PC Capacity: 5000mAh/3.7V/18.5Wh Input: USB-C: 5V = 3A, 9V = 2A, 12V = 1.5A (18W) Lightning: 5V = 2.1A (10.5W) Output: USB-C: 5V = 3A, 9V = 2.22A, 12V = 1.66A (PD20W) Wireless Output: 15W (compatible with 10W, 7.5W and 5W) Size: 95.5*63.5*16mm Weight: 132g±5g
Product Features 5000mAh large capacity, enough to meet the needs of daily use. - The power bank has PD20W fast charge output and 18W fast charge input, bringing you an ultra-fast charging experience. - The power bank also has a wireless charging function, and the fixed-frequency voltage regulation scheme will support 5W/7.5W/10W/15W fast charging according to different devices, making charging more convenient. - Built-in powerful N52 magnet, closely fits the phone and is not easy to fall off. - Comes with a stand, more convenient to use. Warning: - Please do not disassemble the product yourself. - Please do not place this product near heat sources. - Please do not place the product close to water or in damp places. 4	FCC WARNING Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 5	— Reorient or relocate the receiving antenna. — Increase the separation between the equipment and receiver. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help.
