Storage Options

The Foundit Passport keeps your travel document secure in its main pocket, features an additional pocket for boarding passes, plus two card storage slots for airline and hotel loyalty cards (Fig. 1, Pg. 2).

Apple Users

To add FOUNDIT™ PASSPORT to your Find My® network:

- Ensure Bluetooth, Location Services are enabled.
 - To enable discovery, press the button on the Foundit Passport (Fig. 2, pg. 2). A confirmation sound will play.
 - Open the Find My app on your Apple device.
 - Select "Items" at the bottom of the screen, then "+" , then "Add other item."
 - Foundit Passport should appear on your screen.
 - Select it and assign a name to your item (this can be changed anytime)
 - Select an icon, this will represent the Foundit Passport on the map screen (the icon can be changed anytime)
 - Select finish.
 - The Foundit PASSPORT can now be located using the Find My app
- Select FOUNDIT™ PASSPORT in the Find My® App to:
- See last known location on the map or current location if nearby.
 - Find by playing a sound once it is in range.
 - Share location with others.
 - Check battery status.
 - Change the device name.
- OR
- visit icloud.com/find

IF FOUNDIT™ PASSPORT IS NOT DISCOVERABLE ON YOUR DEVICE
DURING SETUP, TRY THE FOLLOWING:
1. Use the Reset procedure.
2. Restart your Device.
(refer to page 4 for details)

Android™ Users

To add FOUNDIT™ PASSPORT to the Find Hub App:

- If Find Hub is not pre-installed on your device, download the app on Google Play.
 - Ensure Bluetooth and Location Services are enabled.
 - To enable discovery, press the button on the Foundit Passport (Fig. 2, pg. 2). A confirmation sound will play.
 - The Foundit Passport will automatically pop up on your device screen.
 - Follow the prompts to add to your Find Hub items list.
 - The Foundit Passport can now be located using the Find Hub app
- Select FOUNDIT™ PASSPORT in the Find Hub app to:
- See last known location on the map or current location if nearby.
 - Find by using the hints feature or playing a sound if it is in range.
 - Share location with others.
 - Check battery status.
 - Change the device name.
- OR
- visit android.com/find

IF FOUNDIT™ PASSPORT IS NOT DISCOVERABLE ON YOUR DEVICE
DURING SETUP, TRY THE FOLLOWING:

1. Use the Reset procedure.
2. Restart your Device.
(see below)

Turn off or Reset Procedure

To turn off/disable without resetting:

- Press and hold the button for 15 seconds until a confirmation sound is heard (Fig. 2, Pg. 2). Foundit Passport is now disabled and cannot be found until the button is pressed again to re-enable it.

To reset to original factory settings:

- Short press the button once, then press and hold for 5 seconds until you hear 4 beeps (Fig. 2, Pg. 2).
- Remove from your network using the Find My app (Apple devices) or the Find Hub app (Android devices).
- The Foundit Passport is reset to its original state. It can no longer be found and can now be paired with any device.

Charging the Battery

The Foundit Passport can be recharged using any Qi compatible wireless charger. Place the charging symbol on the back of the housing against the charging surface (Fig. 3, Pg. 2). An orange light indicates charging, a green light indicates charging is complete (Fig. 4, Pg. 2).

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Canadian Compliance Statement

This device complies with Industry Canada's license-exempt RSS. Operation is subject to the following two conditions: (1) this device may not cause interference and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class (B) digital apparatus complies with Canadian ICES 003, RSS Gen and RSS 210.

To use the Apple Find My app to locate this item, the latest version of iOS, iPadOS, or macOS is recommended. The Find Items app on Apple Watch requires the latest version of watchOS.

Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product, or its compliance with safety and regulatory standards.

Google's Find Hub helps you find and connect to what matters in a single secure place. Find Hub network requires location services and Bluetooth to be turned on. Requires cell service or internet connection. Works on Android/iOS on select devices and in certain countries for age-eligible users. Google, Android, Google Play and Find Hub are trademarks of Google LLC.

Options de rangement

L'étui Foundit Passport garde vos documents de voyage sécurisés dans sa pochette principale, et offre une pochette supplémentaire pour les cartes d'embarquement, en plus de deux tentes de rangement pour les cartes de fidélité des hôtels et des compagnies aériennes. (Fig. 1, page 2).

Utilisateurs Apple

Pour ajouter le chargeur FOUNDIT™ PASSPORT sur votre réseau Find My® :

- S'assurer que les services Bluetooth, localisation sont activés et autorisation à deux facteurs.
 - Pour activer Discovery, appuyer sur le bouton de Foundit Passport (Fig. 2, page 2). Un timbre de confirmation va retentir.
 - Lancer l'appli « Find My » sur votre appareil Apple.
 - Sélectionner les « Items (articles) » au bas de l'écran, puis « + », puis « Add other items (ajouter un autre article) ».
 - Le Foundit Passport devrait apparaître sur votre écran.
 - Sélectionner l'article, et lui assigner un nom (ce nom pourra être modifié en tout temps).
 - Sélectionner une icône, celle représentera votre localisateur sur la page de la carte (peut être modifiée en tout temps).
 - Sélectionner « Finish (terminé) ».
 - Le Foundit Passport peut maintenant être localisé en utilisant votre appli Find My.
- Sélectionner FOUNDIT™ PASSPORT dans l'appli Find My® pour :
- Voir le dernier emplacement connu sur la carte, ou un emplacement actuel si à proximité.
 - Faire retentir un timbre de confirmation pour indiquer qu'il est à portée.
 - Partager l'emplacement avec les autres.
 - Vérifier l'état de la pile.
 - Changer le nom de l'appareil.
- OU
- visiter l'adresse : icloud.com/find

SI LE CHARGEUR FOUNDIT™ PASSPORT DISPONIBLE SUR VOTRE APPAREIL
LORS DE LA CONFIGURATION, ESSAYER CE QUI SUIT :
1. Réinitialiser la procédure de réinitialisation.
2. Redémarrer votre appareil.
(référer à la page 8 pour plus de détails)
