d Backup Keys

Assembly & Setup Guide

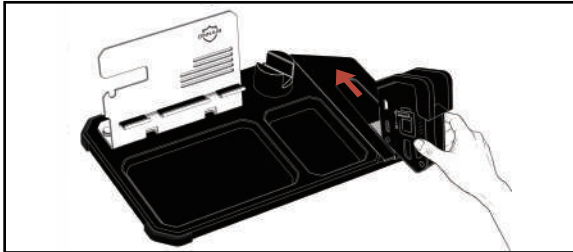

Step 1: Install the EDC Rack & Place the Knife Holder

Secure the EDC rack to the tray using the included screws. Then place the knife holder into its designated slot.

Step 2: Insert Gun Lock

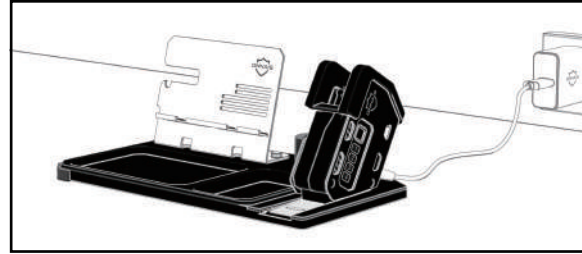

Push the gun lock into the slot in the direction indicated by the arrow until it clicks into place.

Step 3: Charge the Gun Lock

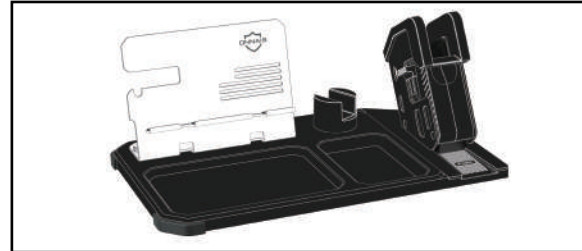

Charge the gun lock using the included Type-C cable.

Note: Charge the gun lock for at least 4 hours before first use.

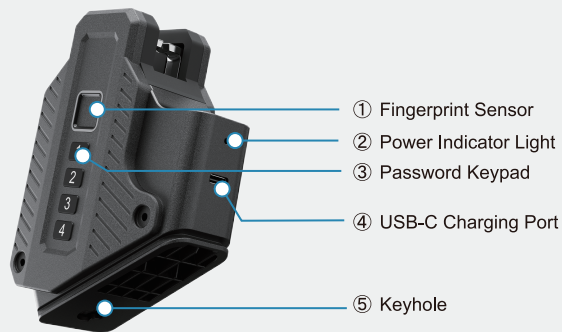

Step 4: Setup & Ready to Use

Please refer to page 4 to set up your master password and register your fingerprints. Once completed, your EDC rack is ready to use. Start organizing your everyday carry gear right away!

Gun Lock Overview

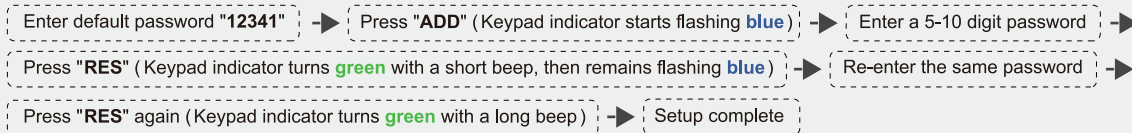

Charging & Battery Guide :

1. Charge with the included Type-C cable. Charge for at least 4 hours before first use. The power indicator light turns **green** when fully charged.
2. Battery life: A full charge lasts for at least 2 months (based on 1 use per day). A certified charger with a 3A output is recommended.
3. Low battery warning: Beeps 6 times and the indicator light flashes red 6 times. Please recharge promptly.

Gun Lock Quick Setup

Password Setting

Note: If the indicator turns red, setup has failed. Please restart the setup process from the beginning.

⚠ To change the password, the gun lock must first be reset. See page 5 for instructions.

Fingerprint Setting

Note: If the indicator turns red, setup has failed. Please restart the fingerprint entry process.

⚠ To add more fingerprints, repeat the steps above. Up to 80 fingerprints can be enrolled.

Toggle Silent Mode

Locking & Unlocking the Gun Lock

To Unlock: Enter your password, scan a registered fingerprint, or use the mechanical key.

✓ Success: Indicator turns **green** with a short beep → Locking switch release

✗ Failure: Indicator turns **red** with two short beeps → Check and try again

To Lock:

Push the switch downward following the arrow direction → Switch locks and stays down

Reset the Gun Lock

Ensure device is unlocked → Quickly press the "RES" button 3 times (Indicator turns **green** with a long beep) → Factory reset complete →

To set up a new password or fingerprint, please refer to the instructions on page 4

Delete Fingerprint

Ensure device is unlocked → Press and hold "ADD" for 3 seconds (Fingerprint indicator turns **red** with a short beep) →

Place the finger to be deleted on the sensor (Fingerprint indicator turns **green** with a short beep) → Fingerprint deletion complete

Note: A flashing red power indicator light means deletion failed. Please try again.

Q & A

Q: Can the gun lock and tray be used separately?

A: Yes, the gun lock has a built-in rechargeable battery and can be used independently once fully charged.

Q: Why can't I unlock the gun lock with the password or fingerprint?

A: The battery may be depleted. Charge the gun lock for several hours and try again. Regular charging is recommended to ensure reliable operation.

Q: What should I do if I lose my key?

A: For security reasons, replacement keys are not available. Please store your keys in a safe and secure location.
