BUILD BIGGER KIDS FORTS!

Create larger, more elaborate play forts with more rods and connectors. Refer to this instruction manual for some creative ways to design your very own kids forts.

4+ ages

The connecting rod adopts oval structure design, easy to plug.

WARNING: PLEASE READ BEFORE USING YOUR PRODUCT. Do not allow children to climb on the constructed structure. Teach your child to use this toy responsibly and supervise them while playing. Inspect the product before playing and discard any item that appears damaged. Do not place the product near an open flame or other heat-emitting electrical devices (e.g. lamps, space heaters). Do not place heat-emitting hazards inside the fort structure. Do not cover the structure with foil or any air-impermeable material (danger of suffocation). Do not climb on the constructed structure as this may result in injury due to collapse.

We continue to be committed to provide you tools with competitive price. "Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

YAOSHUN140PCS	96	44
YAOSHUN180PCS	120	60

Fig.2

Etched Ring

this portion of the connector spheres should always be facing up.

BUILDING FUNDAMENTALS

Always build your structures with the etched ring facing up.

Ensure that the poles are twisted into the connector holes for maximum stability.

As long as the etched ring remains facing up, you can make big and elaborate fort designs.

Insert the rods to create angles in increments of 45°.

If angles aren't matching up with your structure, simply rotate the ball to find the correct angle.

Twist and pull the stick out of the connector holes to disassemble.
