IMPORTANT SAFETY INSTRUCTIONS

When using your appliance, basic precautions should always be followed, including the following:

1. Read all instructions.
2. To reduce the risk of contact with hot water emitting from steam vents, check appliance before each use by holding it away from body and operating steam button.
3. Use appliance only for its intended use.
4. To reduce the risk of electric shock, do not immerse the appliance in water or other liquids.
5. Never yank cord to disconnect from outlet; instead, grasp plug and pull to disconnect.
6. Do not allow cord to touch hot surfaces. Let appliance cool completely before putting away. Loop cord loosely around appliance when storing.
7. Always disconnect appliance from electrical outlet when filling with water or emptying, and when not in use.
8. Do not operate appliance with a damaged cord, or if the appliance has been dropped or damaged. To reduce the risk of electric shock, do not disassemble or attempt to repair the appliance, take it to a qualified service person for examination and repair. Incorrect reassembly or repair could cause a risk of fire, electric shock, or injury to persons when the appliance is used.
9. Close supervision is necessary for any appliance being used by or near children. Do not leave appliance unattended while connected.
10. Burns could occur from touching hot metal parts, hot water, or steam. Use care when you turn a steam appliance upside down – there may be hot water in the reservoir.
