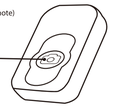
BYTECH®
THE ART OF TECHNOLOGY

BY-PG-MC-200-BK

EXTENDABLE
TRIPOD

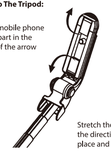
Included Items:
1x tripod stand
1x remote shutter button
1x CR1632 battery (installed in shutter remote)
1x instruction manual



Pairing Instructions:
1. Go to Bluetooth® Settings on your mobile device.
2. Turn Bluetooth® ON, on your device.
3. Press and hold the camera icon on the shutter remote button until you see a blue blinking light, indicating it is ready to pair.
4. On your Bluetooth® device, select "**BY-MC-200**" from the list of available devices to pair to.
5. The blue light will shut off when the shutter and your device are paired.
6. To turn off the shutter remote, press and hold the camera icon until the blue light blinks and shuts off.

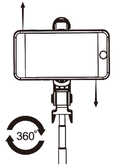
Setting Up The Tripod:

Open the mobile phone clamping part in the direction of the arrow



Stretch the holding part in the direction of the arrow to place and hold the phone

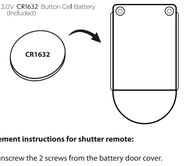
*Actual model may differ slightly.



Reminder:
In order to protect your smartphone, please keep the Tripod stand in a smooth surface, and prevent other external forces from tipping the tripod. Do not press down on the tripod when the tripod is in position, as it could break or deform the legs.

*Actual model may differ slightly.

Remote Control:
Requires One (1) X 3.0V, CR1632, Button Cell Battery (Included)



Battery replacement instructions for shutter remote:

Simultaneosly unscrew the 2 screws from the battery door cover.

Slip the battery out from under the holding arm. Replace old battery with new battery.

Replace the top cover, and secure the battery door cover with original screw.

FCC ID:2AHN6-BYMC200
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including
interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

⚠WARNING: TO AVOID BATTERY LEAKAGE

1) The batteries used with this product are small parts and should be kept away from small children who still put things in their mouths. If they are swallowed, promptly see a doctor and have the doctor phone American Association of Poison Control Centers (1-800-222-1222).
2) Always purchase the correct size and grade of battery most suitable for intended use.
3) Do not mix old and new batteries, alkaline, standard (Carbon - Zinc) or rechargeable (Nickel-cadmium) batteries.
4) Clean the battery contacts and those of the device prior to battery installation.
5) Ensure the batteries are installed correctly with the regard to polarity (+ and -).
6) Always remove batteries if consumed or if product is to be left unused for a long time.

⚠ WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours.**
- **KEEP** new and used batteries **OUT OF REACH OF CHILDREN.**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

•Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
•Even used batteries may cause severe injury or death.
•Call a local poison control center for treatment information.
•Compatible battery type 3V CR1632.
•Nonrechargeable batteries are not to be recharged.
•Do not force discharge, recharge, disassemble, heat above (77° F / 25° C) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
•Ensure the batteries are installed correctly according to polarity (+ and -).
•Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
•Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.
