Speaker Wireless Charger

You must connect to a power source to enable wireless charging

Instruction manual

Product Introduction

Thank you for purchasing our product Multi-function Wireless Charger. It uses high-end fast wireless charging chip and has a luxurious and compact design. It is compatible with any Qi-compliant mobile phone. Perfectly compatible with iPhone 12 and above, it is recommended not to use a protective case for magnetic mobile phones. If a protective case must be used, the protective case adds a magnetic suction function to the corresponding magnetic suction position of the mobile phone. Since the distance of magnetic suction is limited, the magnet has a better adsorption effect on the magnet. To ensure the best charging effect, the distance between the mobile phone and the wireless charging area of the product should be controlled within 2mm. Other mobile phones with wireless charging function need to be used with a magnetic mobile phone case, which effectively saves more time and improves your charging experience.

Product Outline

- Ambient light button
- Next song/Increase volume
- Pause/Play/Power button
- Previous song/Decrease volume

Applicable Devices

1. Devices with built-in quick charge/normal charge wireless receiver.
2. Devices with outer-face wireless charging receiver.
3. Devices with wireless charging receiver in its protection case .

Note: All devices must be Qi standard.

Instructions

1. After connecting the wireless charger to an AC power source via a power adapter, the ambient light flashes three times and then turns off, entering standby mode.

2. The ambient light will light up when the phone is wirelessly charging, and the ambient light will light up when the earphones are wirelessly charging. The flashing ambient light indicates that a foreign object has been detected. (Note: When the watch is out of power, it will charge more slowly. It is recommended to charge the watch when the power is close to 10%. When the watch is out of power, it will charge more slowly and may take 1 hour. Please be patient!)

Specifications

Model No.: HT-571
Output : Watch 2W
Output : Earbuds 3W
Output : Phone 5W/7.5W/10W/15W

FCC ID:2BKM0-HT-571-2
Input : 5V=3A 9V=3A
Input power :27W (MAX)
Charging efficiency:70%-80%

Standard Accessories

- 1* Multifunctional Wireless Charger
- 1* User Manual
- 1* C-C data cable

Attention

1. Please keep the charger away from water or other liquid.
2. If you need to clean the charger, please make sure it is power off.
3. Home Environment temperature remains 1°C-45°C degree.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. 20cm usage distance is only applicable when using WPT equipment.
