

※ BUTTON OPERATION INSTRUCTIONS

Click on the main interface to dispense one serving of grain.
Press and hold for 5 seconds until the green light comes on, then click the blue light to reset the distribution network.
Blue blinking twice per second indicates stable network status.
Blinking once per second indicates WiFi signal disconnection status.
Green Constant light indicates network failure and inability to connect to the server.

PLUS FUNCTION:
Click on the main interface to download the app and install it. Allow all permissions and turn on your phone's GPS and Bluetooth.

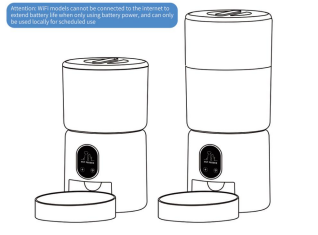

APP DOWNLOAD:
Scan the QR code on the right to download the Smart Life APP.

ADD APP:
1. Press and hold the main interface until the green light comes on, then click the blue light to reset the distribution network.
2. Enter the WiFi password, click on the middle to add a device, or click the plus sign in the upper right corner to add a device.
3. Finally, the main interface of the device will be added to the app, please refer to the app for the specific operation.

FUNCTION RELATED:
1. Enter the device details page and select the number of servings for manual feeding. You can also click to set a fixed feeding plan.
2. Click on the feeding plan to view the feeding record.
3. Click on the settings icon in the upper right corner to enter other settings pages where you can share your device with others.

INTELLIGENT FEEDER

INSTRUCTION MANUAL SMART VERSION

PLEASE READ THIS MANUAL CAREFULLY BEFORE USING THIS PRODUCT AND KEEP IT PRECIOUSLY FOR FUTURE REFERENCE. IF THERE ARE ANY DIFFERENCES BETWEEN THE USER MANUAL AND THE PRODUCT, PLEASE FOLLOW THE ACTUAL FUNCTION OF THE PRODUCT (SMALL PICTURE).

※ FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This Equipment generates uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a Particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

※ SIMPLE TROUBLESHOOTING

Q: I PRESS ANY BUTTON WITHOUT ANY RESPONSE

A: Try to power again and check if the battery is low

Q: INACCURATE OR UNABLE TO DISPENSE FOOD FROM THE FEEDER

A: Please check if there is too much grain in the food bowl or if the grain passage is blocked. If no, please clean the grain passage and install in a timely manner. When using battery power, please check if the battery is dead and if there is any error.

Q: NO RESPONSE UPON STARTUP

A: Please make sure the power is plugged in and try replacing the charging head or using a power bank to connect the power cord to test if it can turn on. If the check is correct and the device still cannot turn on normally, please contact the dealer or customer service in a timely manner.

Q: TIMED PLAN WITHOUT PRODUCING GRAIN

A: Check if the feeding plan has been successfully set and verify if the power supply is uninterrupted after attempting to power off, long press the plus sign to reset the distribution network and reconnect to the power supply.

Q: THE FEEDER DISPLAYS OFFLINE/SLEEP MODE

A: Check if the power is normal, check if the home network is uninterrupted, try to power off and long press the plus sign to reset the distribution network, then reconnect and test. Only using battery power in a low-power state and cannot be connected to the internet. It will only accept the pre-set feeding program.

Q: UNABLE TO FIND FEEDER WHEN ADDING DEVICE SEARCH

A: Check if the Bluetooth and WiFi on the phone are turned on, and if the device is in the network configuration state (the blue light flashes twice per second). If the check is correct, you can uninstall and reinstall the app. All permissions need to be allowed, and then try again.

Q: CAN SEARCH FOR FEEDERS BUT FAILED TO ADD DISTRIBUTION NETWORK

A: The feeder only supports 2.4GHz frequency band. Enter the router settings to check if WiFi 2.4G and 5G are separated. Connecting to 5G or 2.4G mixed frequency band will cause network addition failure.

※ PRODUCT WARRANTY/CERTIFICATE OF CONFORMITY

NAME	FEEDER	WARRANTY PERIOD
MODEL		1 YEAR FROM THE DATE OF PURCHASE
DATE		SPECIFIC DATE

1. This product undergoes strict quality management and inspection during the manufacturing process.
2. If there are any quality issues with the product, it can be returned or exchanged within 7 days from the date of purchase, and the body comes with a 1 year warranty. If the product needs to be repaired after the warranty period, our company will provide reasonable suggestions and charge corresponding repair fees for the damaged product after testing.
3. If any of the following situations occur at any time (including the warranty period) and require repair, the corresponding repair costs will be paid: unauthorised maintenance and modification of products resulting in damage to the appearance and structure of the product. Improper use by the consumer can cause damage to the appearance and structure of the product. Product damage caused by force majeure events such as fire, lightning strikes, floods, pet bites, etc.

※ INSTRUCTIONS FOR USE

1. Please use this product indoors.
2. Please install and use the product according to the instructions.
3. Suitable for hard granular grains with a diameter of less than 15mm. Do not add oversized or irregular dry grains as they may cause grain jamming.
4. Children should use this product under adult guidance.
5. Please do not disassemble or dismantle, modify or add other functions without authorization.
6. This product is in low voltage mode, but pet biting on the wire can still cause electrical leakage. Please pay attention to protection.
7. Please ensure that the machine is placed on a hard and level surface, otherwise it may cause the product to malfunction or spill.
8. The rated voltage of this product is 5V. Do not connect adapters of other voltages to this product to avoid accidents.
9. Please use battery power for dual power supply, otherwise power outage may cause timed failure.

※ CLEANING AND MAINTENANCE

1. Do not place the pet automatic feeder in damp or direct sunlight to avoid affecting normal operation.
2. The pet automatic feeder is only suitable for dry food and should not be placed in damp or perishable food.
3. If any malfunction or abnormal situation is found in the pet automatic feeder, please stop using it immediately and contact after-sales service.
4. It is recommended to regularly replace food to avoid food spoilage or expiration.
5. If you need to leave home for a long time, please ensure that the pet's automatic feeder has sufficient food storage and ask friends or neighbors to regularly check the operation of the feeder.
6. In order to maintain the hygiene of pet automatic feeders, clean them at least once a week.
7. It is strictly prohibited to reuse the body, as water ingress can cause short circuits or abnormal operation.

※ PACKING LIST

※ RF exposure warning

This equipment complies with radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with Minimum distance 20cm between the radiator and your body.

L' environnement du multipoint est incompatible, leurs conditions normales d' utilisation de maintenir, au moins 20cm avec les utilisateurs.
