User Guide

Important Safety Instructions

1x Latte Art Foam Whisk

1x Thick Foam Whisk

1x Charging Cable

USING YOUR APPLIANCE

02

Before Using

When using the appliance for the first time,
- Clean it before use.
- Make sure to fully charge it **(takes 5 hours)** to ensure a smooth frothing experience.

Charging

Follow the steps below to charge the appliance:

❶

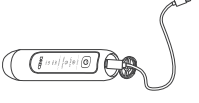

Open the protection cap at the top of the appliance.

❷

Connect the included charging cable to the appliance.
Note: The power indicator will flash in red.

❸

Plug the cable into a USB charging socket or a 5V power adapter (not included).

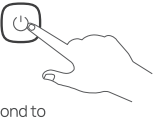

Charge until the power indicator turns white.

Power Indicator

Light Color	Operating	Charging
White	Battery ≥20%	Battery Fully Charged
Flashing Red	N/A	Battery Charging
Red	Battery <20%	N/A

Selecting An Operation Mode

1. Press ⏻ to turn on the appliance.
2. Press ⏻ repeatedly to cycle through the 4 modes.
3. Stop at the mode you want. Then, the appliance will start operating in the selected mode.
4. During operation, long press ⏻ for 1 second to pause. Press ⏻ again to resume operation.

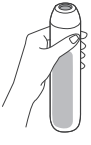

Note:

- After cycling through the 4 modes, pressing ⏻ will return the appliance to standby mode.
- If no action is taken after entering standby mode for 10 seconds, the appliance will automatically turn off.

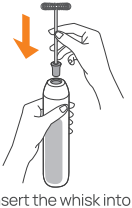

Installing & Removing the Whisk

❶

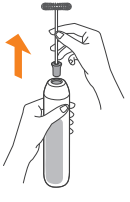

Firmly hold the appliance upside down.

❷

Insert the whisk into the appliance.

❸

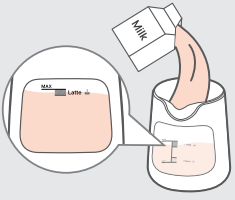

To remove the whisk, simply pull it out of the appliance.

Frothing with BaristaMaker Milk Frother Nano

Latte Art

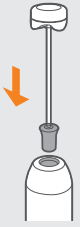

1. Prepare Milk

149°F/65°C

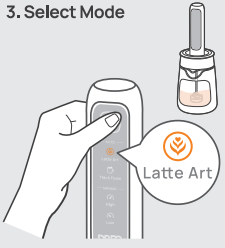

Pour 8oz/235ml of milk into the frother jug up to the LATTE ART marking, then heat it up to 149°F/65°C. Microwave on high for 60-80 seconds.

2. Insert Whisk

Use the Latte Art whisk.

3. Select Mode

Press ⏻ repeatedly to choose the Latte Art mode.
*During operation, long press ⏻ for 1 second to pause. Press ⏻ again to resume operation.

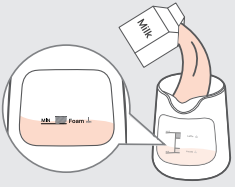

4. Voila!

Pour & enjoy!
***Pour the foam asap after frothing to ensure the best quality.**

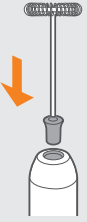

Thick Foam

1. Prepare Milk

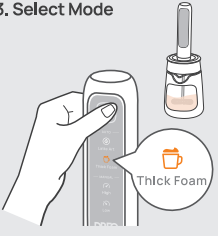

Pour 4oz/120ml of milk into the frother jug up to the FOAM marking.

2. Insert Whisk

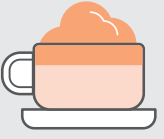

Use the Thick Foam whisk.

3. Select Mode

Press ⏻ repeatedly to choose the Thick Foam mode.
*During operation, long press ⏻ for 1 second to pause. Press ⏻ again to resume operation.

4. Voila!

Pour & enjoy!
***Pour the foam asap after frothing to ensure the best quality.**

CLEANING AND MAINTENANCE 03

Cleaning the Wand Body: Do's and Don'ts

Do's

Wipe the wand body clean with a soft, damp cloth.

After cleaning, wipe the wand body dry.

Don'ts

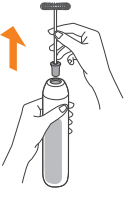

- **DO NOT** clean the wand body with abrasive cleaning materials.
- **DO NOT** immerse the wand body into water.

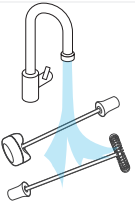

DO NOT put the wand body in the dishwasher or microwave oven.

Cleaning the Whisk: Do's and Don'ts

Do's

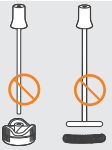

Detach the **whisk** before cleaning it.

Clean the whisk with hot soapy water, then rinse it under running water.

Don'ts

Do not disassemble the **Whisk Head** in any form.

Cleaning the Frother Jug: Do's and Don'ts

Do's

Take off the heat-resistant Sleeve before cleaning the jug.

Rinse the inside of the jug with water using soft damp cloth.

Wipe the exterior of the jug with a soft, damp cloth.

Don'ts

Don't use **alkaline cleaners, steel wool, or scouring pads** on the frother jug to prevent surface damage.

Don't clean the jug without taking off the heat-resistant Sleeve.

Note:

After use, carefully fill the frother jug with tap water, wait till it completely cools off, and rinse off any milk in warm water.

Do not immerse the wand body in water, or put it in the dishwasher / microwave oven.
