FCCWarning

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

2.4 GHz and USB

- 2.4 GHz Wireless**
1. Insert the USB receiver into your computer.
2. Turn on the keyboard.
3. Briefly press Fn + 4.
4. The indicator lights green while the keyboard reconnects.
- During pairing or reconnection, the keyboard backlight turns green. If the connection is lost, keep the keyboard close to the receiver and press and hold Fn + 4 for 2 seconds to pair again.
- USB Wired**
1. Connect the keyboard to your computer using the USB-C cable. Briefly press Fn + 5.
- 2 The indicator remains white while USB mode is active.
3. The keyboard can be used while connected through USB.
