- 1.SHIDU patented appearance;
- 2.Stylish, ergonomic and comfortable design;
- 3.10W power output;
- 4.Equipped with SHIDU special acoustic microphone;
- 5.Support TF card music playback;
- 6.Support audio input.

Function Illustration:

1.Power switch & volume control: Rotate the knob to “ON” to turn on the amplifier, the operation indicator will light up. Rotate to “ON” continuously to increase the volume, rotate to “OFF” continuously to decrease the volume till turn off.

2.Operation Indicator

3.TF card slot: Insert the TF card to play mp3. It is compatible with most brands, the maximum capacity is 32GB.

Note: It may be unreadable when the file is large or complex.

4.Ø3.5mm Microphone Jack: Insert the wired microphone to amplify the voice.

5.Play/Pause: Short press it to pause, and press again to play. In TF card mode, long press “▶||” to switch to Bluetooth mode. Long press “▶||” again to switch back to TF card mode.

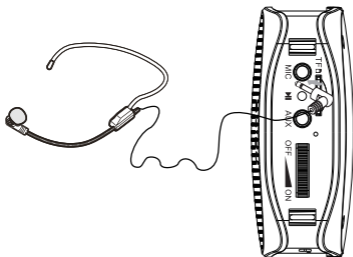

6.Audio Input

7.Charging Port: Use the charger with DC 5V output connect with Type-C charging cable to charge the PA system.

8.Charging Indicator

Voice amplification:

Insert the wired microphone to the microphone jack to amplify the voice. Before turn on the amplifier, ensure that the MIC don't point at the amplifier, this will eliminate any annoyance associated with howling. For ensure better amplification, aim at the headset MIC capsule when speaking, and keep the distance between the voice amplifier and the MIC more than 60cm to avoid howling.

Bluetooth Function:

Please pair with your Bluetooth device as follows:

1. Turn on the amplifier, a voice will prompt "Bluetooth is waiting for connection" and the operation indicator will flash.

2. From your mobile setting, turn on the Bluetooth function. Then search for "SD-S515" and connect. Bluetooth pairing is completed with a voice prompt "Bluetooth is connected".

When playing music, please keep the amplifier close to the Bluetooth-enable device to maintain a stable connection.

Charge the amplifier:

Please charge through Type-C charging cable with DC 5V output adaptor. The red indicator light will keep on when charging; and it will go out after fully charged. Unplug the charger as soon as it is fully charged. (the charging time is normally 3~5 hours)

Notes: We suggest fully recharge the amplifier before you using it at the first time.

Trouble shooting:

1.Turn on the power switch, but the amplifier has no sound.

A.The indicator is not light: it means low power and you should charge the amplifier.

B.Turn the volume up on the voice amplifier.

2.The voice amplifier has distinct howling.

A.Wear the microphones correctly: put the microphone in front of the mouth;

B.In a small room, please turn down the volume properly to avoid howling.
