Plug adapter into a 120V outlet. Plug the cable into the platform. 2. While LED will illuminate indicating power on & heating function. 3. Removable lid provided to maintain heat when moving about. 4. This system includes a 1-hour auto shut-off feature. Heating will stop one hour after your mug leaves the platform. (Let's be honest - if your blood type is caffeine, that cup won't last an hour anyway). <p style="font-weight: bold; font-size: 0.9em;">Avoid placing an empty or nearly empty mug on the platform. With a 1-hour auto shut-off, prolonged contact may overheat residue, creating a burnt smell.</p>

FRONT

<p>FCC Warning:</p> <p>This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:</p> <p>(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p>	<ul style="list-style-type: none"> - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. <p>NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>RF Exposure Statement</p> <p>To maintain compliance with FCC'S RF Exposure guidelines , This equipment should be installed and operated with minimum 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.</p>
