Instruction

- **SWITCH ON/OFF:** long press the  key to turn on and off, short press the  key to switch the light mode.
- **Bluetooth connection:** After turning on the device, switch it to Bluetooth mode, and the indicator light  will flash blue, indicating waiting for connection. Turn on the Bluetooth function of your phone, search for **S7**, click on Connect, the audio indicator light  slowly flashes, And with a successful connection prompt tone, you can play music on your phone.

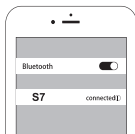

Hands-free calls: After the Bluetooth connection of the mobile phone is successful, when making a call using the phone, the speaker will automatically enter a hands-free call state. When there is a call, short press  to answer and long press  for 2 seconds to reject the call. When a call is in progress, briefly press  to end the call. In music mode, quickly double-click to automatically make the last call.

- **TWS Dual Wireless Interconnection:**

1. Turn on the two **S7** and switch them to the Bluetooth mode. Do not connect other Bluetooth devices at this time.
2. Select one of the speakers and press and hold the  button for 2 seconds to enter the TWS pairing state.
3. Wait for 30 seconds, and the prompt tone will be heard after the TWS connection is successful.
4. After the connection is successful, one of **S7** becomes the main speaker, which is the left channel, and the other is the right channel.
5. Turn on the Bluetooth function of the mobile phone or other playback device, search again and connect the main speaker: **S7**. After successful connection, you can enjoy the surround stereo sound field composed of two speakers.
6. Disconnect TWS: In the TWS connection state, press and hold the  button for 2 seconds to disconnect the TWS interconnection. Long press and hold the  button for 5 seconds to clear the Bluetooth connection and reset the speaker.

(This function requires two **S7** speakers to be used)

Instruction

Power and Bluetooth indicator lights

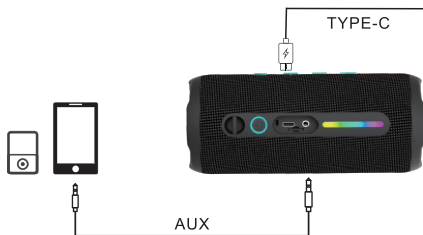

Type c charging interface

TF Card interface(32G max)

AUX interface (3.5mm)

● TF Card Display

Insert the TF card, and the speaker will automatically switch to the memory card mode and start playing. Memory card mode supports MP3/WMA/WAV/APE/FLAC format audio source, and TF memory card supports a maximum capacity of 32G.

● AUX Audio Input

Insert the 3.5mm audio cable into the headphone output hole of the mobile phone/computer, and insert the other end into the AUX connector of the speaker. Press the "Z" key to switch to the AUX mode. Now the speaker plays audio as the external audio of the mobile phone or computer.

● Party lighting control

In the power-on state, short press "⏻" to switch the light mode or turn off the light.

Instruction

Product Size	75*75*178(mm)	Input Interface	TYPE-C/TF/AUX
Bluetooth Name	S7	Charging Time	<3 Hours

Troubleshooting

1. What if Bluetooth can't connect and play music silently?

- (1) Please first confirm that the speaker is in Bluetooth mode, and then confirm that your playback device supports Bluetooth connection function, and turn it on.
- (2) Check whether the speaker is in the Bluetooth search status. If there are too many Bluetooth devices around, it may be difficult to search. Please turn off other Bluetooth devices.
- (3) If you have successfully connected and cannot reconnect now, please delete the old Bluetooth name in the playback device and

support@ohayo.com.cn

Basic Product Information

search for the connection again.

2. What if the TF card or USB flash disk fails to play?

- (1) Please check whether the TF card or U disk has quality problems, and check whether the audio files stored are MP3/WMA/WAV/APE/FLAC format.
- (2) If the above problems are excluded, it may be the compatibility problem of TF card . It is suggested to change the format of TF card into FAT32 file format to improve its compatibility.

Precautions For Use

1. If the speaker is not used for a long time, please be sure to charge the unit at least once within 2 months to prevent excessive battery consumption and damage.
2. Please use the machine under normal temperature, and do not use it in dusty, humid, dry or overheated environment.
3. Avoid falling or hard objects hitting the machine during use, which may cause damage to the appearance or components of the machine.
4. Do not disassemble or repair the machine without permission, which may cause product damage or personal injury.
