Status indicator lights

When using the camera function, the status indicator light will remain constantly lit in white. *Note: Do not cover or damage the status indicator light, as this will cause the camera to malfunction. The indicator light will cycle green while charging; when fully charged, the indicator light will remain solid green.

Charging method

Use one end of the Type-C cable to connect to the Type-C port at the end of the right temple of the glasses. The other end must be connected to a safe USB charging device, such as a charger or power bank.

Introduction to AI Voice Assistant

After connecting to the app, you can wake up the AI voice assistant by saying "Glasses". You can try saying things like "Take a photo", "Record a video", "Record audio", or "See what's in front of me". , What brand is this car?

Do not twist the temples excessively,
as this may deform and damage the
waveguide lens.

The glasses are not waterproof ;
contact with liquid may cause
damage.

Eyeglasses are precision
electronic devices; please
store them properly and
avoid heavy pressure.

Security Information

Smart Glasses|AI-G3 is only compatible with plano-concave lenses.

The display lenses are fragile; do not subject the product to external impacts that could cause breakage. Use this product with caution while driving, cycling, operating machinery, or during any activity requiring concentration to avoid danger.

- This device should not be used for direct sunlight, artificial light source protection, or as eye protection against mechanical impacts.

- Do not rely solely on this product for navigation or guidance in potentially hazardous situations.

Do not store this product with sharp or rough objects to avoid scratching the surface.

- Using harsh cleaning tools or incorrect cleaning products may damage the product. Please use the included special eyeglass cloth or a clean, soft cloth to wipe the product. Please use a neutral cleaning solution. Do not use abrasive cleaners, sprays, highly concentrated cleaning solutions, chemical cleaning solutions, alcohol, or acetone, as these may damage, deform, or discolor the frames, accessories, and lenses.

- Due to individual differences, if you experience skin discomfort while wearing the product, please discontinue use and consult a doctor.

- This product is not intended for medical use; do not use it to diagnose, treat, or prevent any disease.

- To avoid radio wave interference, please maintain a distance of at least 15 cm from implantable medical devices or personal medical devices (such as pacemakers, cochlear implants, hearing aids, etc.) when using the product, and consult the manufacturer regarding the device's limitations.

- Please consider the privacy of others when using smart glasses. Avoid taking photos, videos, and recording audio without consent, as this may infringe on the privacy rights of others.

Please use this device within a temperature range of 0° C to 35° C, and store the device and its accessories within a temperature range of -10° C to 45° C. Excessively high or low ambient temperatures may cause device malfunction.

- If the device requires charging, please use the original charging cable and ensure the charging port is dry and free of dirt before charging.

- Do not expose the device to high temperatures or near heat-generating devices such as strong sunlight, heaters, microwave ovens, ovens, or water heaters. Overheating may cause the battery to explode.

- This product does not support rinsing; do not rinse directly or perform ultrasonic cleaning.

- Do not disassemble or modify the device, insert foreign objects, or immerse it in water or other liquids, as this may cause short circuits, battery leakage, overheating, and potentially fire or explosion.

- Do not heat or bend the product, as this may cause malfunction or fire. Do not throw the product into fire, as this may cause a fire or explosion.

- Please dispose of the device according to local regulations; do not treat it as household waste.

Improper disposal may lead to an explosion. Please comply with local laws regarding the disposal of this device and its accessories and support recycling programs.

- Do not allow children or pets to chew on the device, as this may cause injury or explosion.

- Do not drop, squeeze, or puncture the device to avoid subjecting it to excessive external pressure, which could lead to damage, malfunction, short circuit, fire, or explosion.

- Using unapproved or incompatible adapters, power supplies, or batteries may cause fire, explosion, or other hazards.

- This device and its accessories may contain small parts; please keep them out of reach of children.

Children may unintentionally damage the device and its accessories, or swallow small parts, leading to choking or other hazards.

This device has a non-removable built-in battery; do not replace the battery yourself to avoid damaging the battery and the device.

- Do not use at high volume for extended periods to avoid hearing damage.
- Upgrading the device's firmware, system, or downloading applications through unofficial channels may render the device unusable or leak your personal information. We recommend using authorized channels for upgrades.
- If you need to export, re-export, or import the products described in this manual (including but not limited to the device, its software, and technical data) , you must comply with relevant import and export control laws and regulations.

After-sales service and warranty terms

I. We will provide a one-year warranty for the entire device to end consumers who purchase Smart Glasses products, upon presentation of the purchase invoice. For products with quality issues, we will provide a 15-day replacement service from the date of purchase upon presentation of the purchase invoice.

II. Please note that the following situations are not covered by the warranty:

Expired warranty period;

2. Damage caused by failure to use, maintain, or store the product according to the instructions; 3. Damage caused by unauthorized disassembly by an unauthorized repairman;

4. Lack of a valid warranty certificate and invoice (except for those proving the product is within the warranty period);

5. Unauthorized alteration of the warranty certificate;

6. The product model or serial number on the warranty certificate does not match the actual product;

7. Damage caused by virus infection during use;

8. Damage caused by force majeure;

9. Use of accessories that are not from YJL official or not officially certified by YJL.

Disclaimer

This user manual is published by YJL Technology (Shenzhen) Co., Ltd. It may be subject to necessary improvements and changes at any time to correct typographical errors, inaccuracies, or outdated information, or to improve procedures and/or equipment, without prior notice.

FCC FCC WARNING

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference;
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
