

2 in 1 SMART WATCH WITH EARBUDS USER MANUAL

Information to User

[1] For relevant electronic devices or peripheral devices, the instructions provided to users include the following or similar instructions:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

[2] Changes or modifications that are not explicitly approved by the regulatory responsible party may invalidate the user's device operation permissions. The example content is as follows: Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

- Product usage environment (excessively high or low temperatures, humidity, rain, diving, or dusty environments), operating procedures, low battery power, etc. may affect normal product use and even cause damage. Please use the product correctly.

- Please charge the product before using it for the first time. Charging takes more than 4 hours.
- If you do not use this product for a long period of time, please ensure that it is fully charged at least once every three months.
- Do not shower with hot water and do not expose your smartwatch to high temperatures; otherwise the waterproof performance of your smartwatch will be impaired.
- Keep the sensor close to the skin during measurement to avoid movement.
- Product measurements are for reference only and should not be used for medical purposes or relied upon.
- Some data is synchronized with phone or network data after connecting the phone through APP. Such as time, weather, steps, sleep and so on. Cannot be set artificially.

APP Download and Connection

APP download

Scan the QR code below to download and install the watch client

Binding

Open the mobile client to set up personal information. Switch to the 'Devices' page and click 'Bind Devices'. Click on your device in the scanned devices list. Binding complete.

APP's functions

After connecting to the mobile phone APP via Bluetooth, this device can perform relevant operations and view related data on the APP interface.

- On the homepage of the app interface, click the "Start Measurement" icon at the bottom of pages such as "Heart Rate", "Stress", and "Exercise" to initiate the relevant real-time tests.
- On the APP interface, you can view relevant data such as "sleep" and "activity".

Considerations

- The measurement results of this product are for reference only and should not be used for any medical purposes or as a basis. Please follow the doctor's guidance and must not use these measurement results for self-diagnosis or treatment.

Warning

Do not wear the watch while swimming or diving. For waterproof performance, please refer to the product specifications.

Keep the dial and charging base dry during charging.

Do not charge with wet hands. Children must be supervised by an adult. Avoid swallowing the watchband.

If the accessories are worn for a long time and the skin is uncomfortable, please take off the watch and rest.

Please do not wear this watch in high temperature or sauna environments.

This device is not a medical device, and the monitoring data is for reference only and not used as a basis for diagnosis and treatment.

Please do not disassemble or modify the watch by yourself to avoid electric shock and equipment damage.

Avoid violent impact and compression to prevent screen breakage.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
