MRGLAS

Model : X79W

Product name : Vacuum Suction Wireless Charging

FCC ID : 2BFL3-X79W

Input Voltage : DC 5V/3A 9V/3A（Max）

Output Power : 5W/7.5W/10W/15W（15W Max）

MADE IN CHINA

FCC Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.ar

Vacuum Suction Wireless Charging

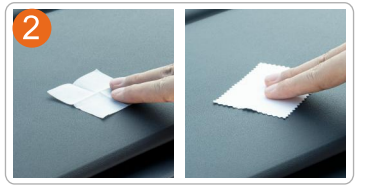

User Manual

1.Product Accessories & Installation Instructions

Product and Included Accessories

Please thoroughly wipe clean the dashboard or the area where the bracket needs to be placed using the cleaning tool kit.

Peel off the suction cup's protective film.

To attach the suction cup: Align it with the surface, press firmly toward the suction cup, then rotate clockwise to lock in place.

Adjusting the magnetic mount: Pull out the magnetic base; 360° rotatable for flexible positioning.

2.Usage Instructions

Mounting your phone: Attach the phone directly to the magnetic base.

For non-magnetic phones: Apply the included **magnetic adapter sheet** to your phone or case. Press firmly and let it sit for **2 hours** before use.

Adjust according to your usage scenario: Use the single arm for standard positioning.
If greater reach or height is needed, unfold and use the dual-arm configuration.

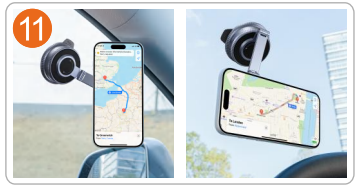

Plug the included USB cable into the charging port at the bottom.

Charging starts automatically when your phone snaps onto the magnetic mount.

3.Application Scenarios

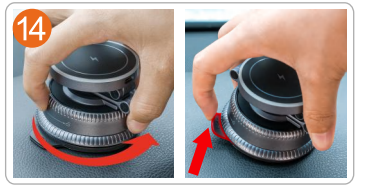

Car installation: Mount on a car's windshield, window, ashboard screen.

Other usage scenarios: Ideal for watching videos while making up, exercising

Desk stand: Use on smooth tables as a phone holder.

Removal instructions: Rotate the suction cup counterclockwise to detach. If suction is too strong, gently lift the protruding edge of the suction cup.
