

QUICK START GUIDE

Solar Panel

What's Included

Solar Panel

Mounting bracket

Screw pack

Waterproof gasket x 2

Quick start guide

You may need

Screwdriver

Drill

Step ladder

Installation Tips

- 1 The intake of sunlight impacts the energy produced by the solar panel. Install the solar panel on the roof or wall outside your house to get maximum sunlight exposure.

- 2 Position your solar panel south-facing (in the Northern Hemisphere) or north-facing (in the Southern Hemisphere), and adjust its angle at about 30°.

- 3 Dirt or debris on the solar panel can reduce sunlight exposure. Remember to regularly clean the panel.

- 4 The cable of the solar panel is 10ft/3m long, make sure the cable can reach your camera. Otherwise, you have to relocate your camera first.

- 5 Do not extend the cable of the solar panel. Because it might cause a voltage drop and negatively impact the charging efficiency.

Bracket Installation

- 1 Place the bracket against a roof or a wall and secure it with the included screws. To install the bracket on concrete, brick, and other hard materials, drill holes with a 15/65-inch (5.95mm) drill bit and insert anchors first.

- 2 Screw the solar panel to the bracket and adjust its angle at about 30°.

Camera Connection

- 1 Slide a waterproof gasket onto the USB connector of the solar panel.

- 2 Open the rubber cover of your camera's charging port and firmly plug in the USB connector.

Setup the App

1. Scan the code below to get the Noorio app.
2. Go to the related **Camera Settings** -> **Power Management**. Tap **Power Source** and select **Solar Panel**.

Notice

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- (1) Reorient or relocate the receiving antenna.
- (2) Increase the separation between the equipment and receiver.
- (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- (4) Consult the dealer or an experienced radio/TV technician for help.

Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

 This product complies with the radio interference requirements of the European Community.

Declaration of Conformity

This product complies with the essential requirements and other relevant provisions of Directive 2014/53/EU. For the declaration of conformity, visit <https://www.nooriolife.com/>

 This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

IC Statement

1) This Class **【B】** digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
