

90*120mm Fold

SW169 20W Wireless BoomBox Speaker

Instruction Manual

Technical Specificatons:

Model: SW169
Main Chip: JL 6965E
Bluetooth Version: Bluetooth 5.4 + EDR
Bluetooth Protocol:A2DP, AVRCP
Transmission Distance: ≥10 meters (line-of-sight, no obstruction)
Rated Output Power: 20W RMS
Frequency Response: 80Hz - 12KHz
Speaker: Φ105mm full-range speaker × 1,
rated frequency range 200-20KHz
Input Sensitivity: 87dBm
Supported Modes: Bluetooth, TF Card, USB, FM Radio
Battery: 18650 lithium battery, 1200mAh*2, with protection board
Playback Time: 50% volume about 6-8H

Bluetooth pairing connection:

1. Long press the power button to turn on the speaker, it will enter Bluetooth pairing mode, and the Bluetooth indicator light flashes;
2. Turn on the Bluetooth function of your phone/computer, search and select the Bluetooth name 「AUDIO MATRIX-SW169」 to complete pairing;
3. After successful pairing, the indicator light stays steady on, and you can play music.

Key Function Description:

1. Power/Light Button
Long press: Power on/off, with prompt tone
Short press: Switch light mode
2. Volume + / Next Track Button
Long press: Increase volume, with prompt tone
Short press: Switch to next track, with prompt tone

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
