⚠ WARNING

CALIFORNIA PROPOSITION 65 WARNING:
This product can expose you to chemicals including Chromium (hexavalent compounds), which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to: www.P65Warnings.ca.gov

Do not use power tools to assemble. Only use hand tools, as power tools can damage or loosen the nutsert.

Tools Needed: #2 Phillips Head Screw Driver – "Not Included"

hardware needed "included"

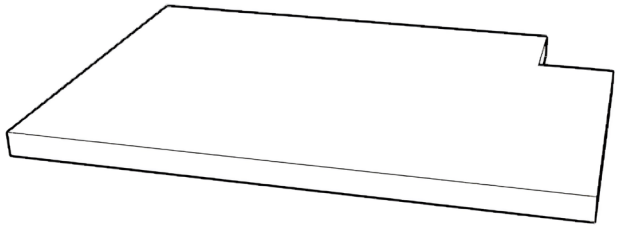

(12) M5 x 25 mm

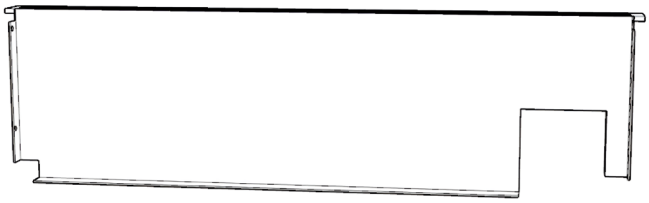

Before getting started:

Unpack and lay out all of the included parts. Most of the stainless steel pieces come with a protective film. Remove all of the plastic film and pay no attention to the print on the film as it has nothing to do with the assembly instructions.

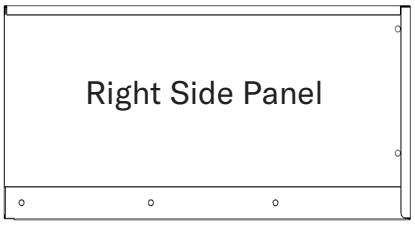

Take caution with the stainless steel components as to not scratch them during the assembly process. Use a non-aggressive surface and protect the stainless steel as best as possible. The foam and box can be used to place the stainless steal parts on to prevent scratching.

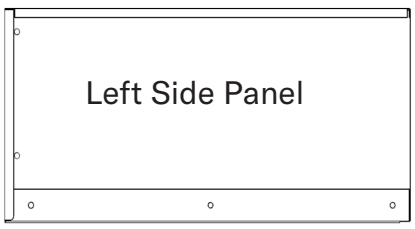

Bottom Panel

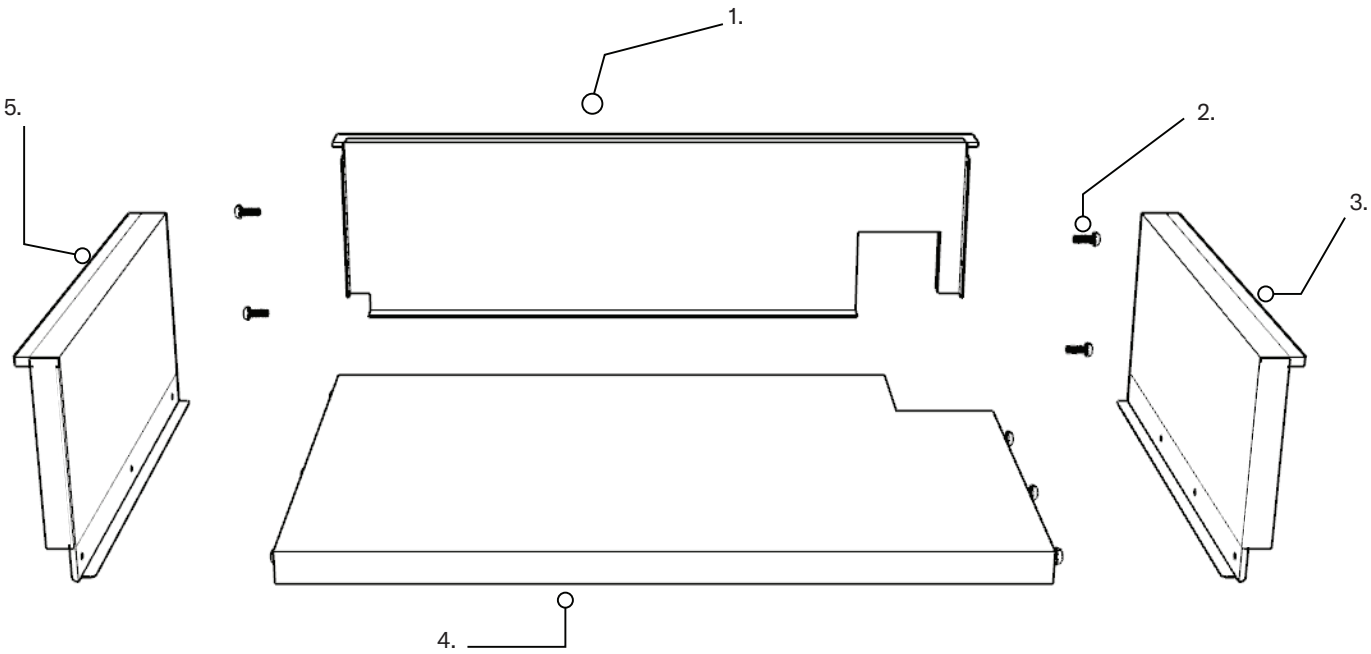

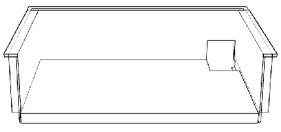

Back Panel

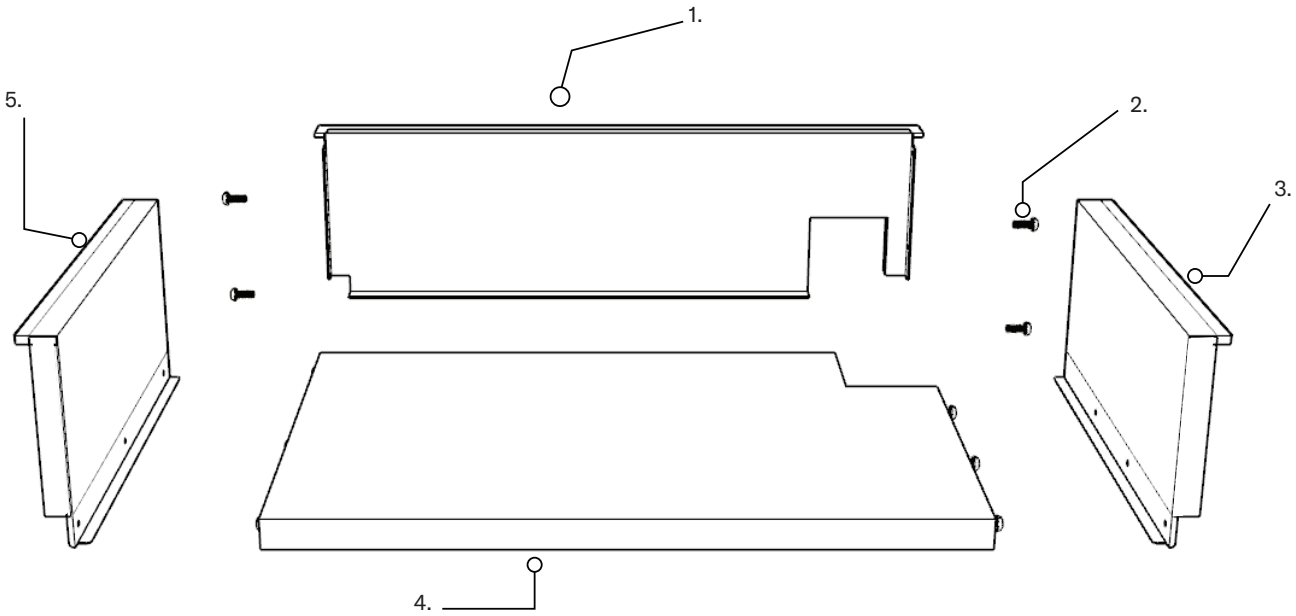

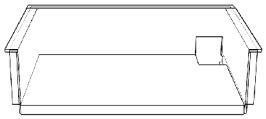

32" LTE Grill Insulated Jacket

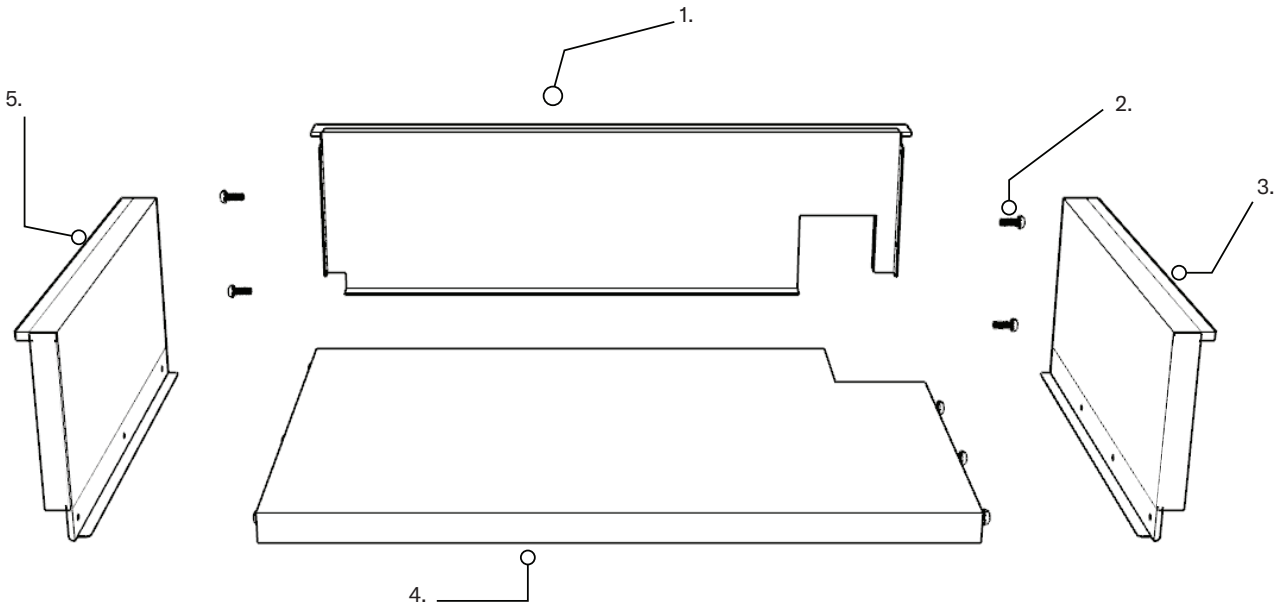

Blaze Part Number: Reference Guide

STEP 1: Align the right side panel up with the bottom panel so the holes in each panel are aligned. Using (6) M5x 12 screws , attach the two panels. Repeat for step for left side panel.

STEP 2: Align the back panel up with the bottom panel and two side panels. Align the holes and fasten with provided (7) M5 x 12 screws.

STEP 3: The (2) M5 x 25 screws are used to secure the grill head to the provided holes on the inside of each side panel of the insulated jacket

Please leave these instructions with the consumer.
