White

Features

- Acoustic Optimizer technology achieves optimum acoustic characteristics by maintaining the sound pressure balance in front of and behind the diaphragm

- Dynamic sound from 11.5 mm (0.45 inch) Neodymium magnet drive units

- Ergonomic design, for a snug fit in the ear and comfortable wearing

- Pliant-coated housing, to enhance sound quality, and for easy handling
The AH-C252 housing is coated with a pliant material for secure fit and easy handling. It also absorbs vibration to produce a cleaner sound.

- Canal-type in-ear headphone reduces external noise and lets the listener enjoy the music in a noisy environment

- Cables of equal length for left and right channels, to maximise sound quality

- Gold-plated stereo mini-jack is compatible with iPhone™, no adapter is needed

- Convenient carrying pouch

- Comes with 3 sizes of detachable ear pieces, for the most comfortable fit
