Optimus GV75MG Manual

To activate your tracker, please follow these easy steps

2

- 1 Go to our website www.OptimusTracker.com
- 2 Click on the "Activate Tracker" link.
- 3 Fill out the form. You will need the IMEI number.
It's the 15-digit number that is printed on the tracker's labels.
- 4 After subscribing, wait a minute for the activation email.
Make sure to check your spam/junk folder too.

★ You must activate before installing ★

Installation

3

Seek professional help for installation if needed

- Connection of a positive (0-32V) and a ground is needed to power on the device.
- Connect the Black wire (GND) to the vehicle's frame. You can use the supplied ring terminal attaching to a screw on your vehicles frame.
- Connect the Red 8-32V wire to a permanent positive power.

Scan me for more details on installation

For your vehicle's protection, always have the red wire draw energy from a 5amp fused line

Keep in Mind

4

- When no cellular signal is available the tracking unit will save the track in its memory until it regains signal. GPS signal may not be acquired if the car is parked indoors.
- ★ You must activate the GPS Tracker online before installation. The GPS Tracker's Sim Card may be blocked permanently by the cellular provider if the device is connected for several days without an active subscription. ★
