01

1. Packing List

User Manual ×1

Wireless Over-Ear Headphones ×1

USB Charging Cable ×1

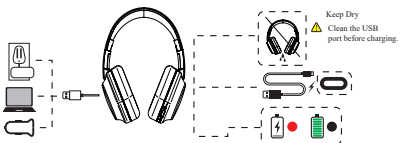

3.5mm Audio Cable ×1

2. Pre-Use Instructions

Turn off the headphones, then connect the headphones to a charger, computer or power bank via the charging cable for charging.

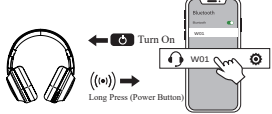

Note: Before first use, charge the device for at least 2 hours. The red indicator light stays on steadily during charging; the indicator will turn off once the battery is fully charged.

Tips: Do not use the headphones while charging, as this will degrade sound quality and shorten the battery service life. Ensure the USB port is dry before charging.

02

3. Connection Instructions (Bluetooth Pairing Tutorial)

Keep the distance between the headphones and Bluetooth device within 10 meters. Press and hold the power button for 3 seconds to power on, and a prompt tone will play upon startup.

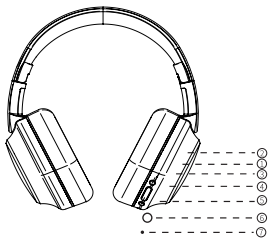

Turn on Bluetooth on your mobile phone, then select W01 from the available device list to complete pairing. If Bluetooth connection is not established within 5 minutes, the headphones will power off automatically.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
