About This Manual	25

01 Welcome

Welcome to Nyrasu

Thank you for choosing the Nyrasu Bracelet.

Nyrasu combines modern health-monitoring technology with Eastern wisdom. By continuously recording your body's condition and applying intelligent AI analysis, it delivers personalized health insights and Eastern lifestyle recommendations. More than a smart wearable, it is an AI companion that helps you explore yourself, focus on your wellbeing, and experience the wisdom of the East.

Whether during daily life, work or study, or rest and sleep, Nyrasu continuously records your health data, and presents more complete, personalized health analysis and AI services in the Nyrasu App.

Using This Manual

This manual will help you quickly get to know the product and complete first-time setup.

We recommend reading the following sections in order:

1. Check that all items are present in the box.
2. Understand the product structure and its components.
3. Charge the device for the first time.
4. Download and install the Nyrasu App.
5. Pair the device and complete initial setup.
6. Wear the device correctly and begin your Eastern journey.

For the best experience, please read this manual in full before first use, and keep it

safe for future reference.

Before First Use

To ensure the device works properly, please confirm the following before first use:

- Charge the device to full before using it.
- Use a smartphone running iOS or Android to install the Nyrasu App.
- During first pairing, turn on Bluetooth on your phone and keep a network connection.
- Grant the necessary system permissions (such as Bluetooth and location) as guided by the App, so the device can connect and sync data properly.
- The first sync may take a few minutes; please be patient. It usually takes no more than 5 minutes.

Tips

- The health monitoring, AI analysis, and related content provided by Nyrasu are intended for health management, lifestyle reference, and personal experience only, and do not constitute medical advice, diagnosis, or treatment.
- AI services (including but not limited to AI health interpretation, AI palm reading, AI face reading, AI chat, and AI daily guidance) are available after connecting to the Nyrasu App. Specific features may vary by product version, region, or software update.
- For more accurate health monitoring results, we recommend wearing the device correctly as described in this manual and continuing to wear it daily.

02 What's in the Box

After opening the package, please confirm that it contains the items listed below. If any accessory is missing, damaged, or does not match the list, please contact Nyrasu customer service promptly.

No.	Item	Qty
1	Nyrasu Smart Health Bracelet	1 pc
2	Magnetic Charging Dock (with integrated Type-C cable)	1 pc

3	Product Manual	1 copy
4	<i>Pouch</i>	<i>1 pc</i>

Note:

- Package contents may vary by product model, sales region, or version. Please refer to the actual package contents.
- Please keep the packaging and accessories for future charging, transport, or after-sales service.

03 Meet Your Nyrasu

The Nyrasu Bracelet features a screenless design. Its built-in health-monitoring sensors continuously collect physiological data and work with the Nyrasu App to provide health monitoring and AI-powered services.

Please first familiarize yourself with the product components so you can wear, charge, and use it correctly.

Product Structure Diagram

(Placeholder for overall product diagram)

Parts Description

No.	Part Name	Function
①	LED indicator	Displays the device operating and charging status. Different colors and flashing patterns indicate different states: while charging (green steady on: fully charged; red flashing: charging); when not charging (green steady on: data collection).
②	Health Monitoring Sensor	Sits against the skin and continuously collects health data, including heart rate, sleep, stress, and step count, providing data support for AI analysis.
③	Magnetic Wireless Charging Coil	Aligns with the magnetic charging dock and charges the device via magnetic wireless charging. Keep the charging area on the back of the device clean and dry to ensure proper charging.

Product Features

- Screenless, buttonless design — comfortable to wear and simple to use.
- Built-in multiple health-monitoring sensors record health data around the clock.
- Connects to the Nyrasu App via low-energy Bluetooth for data syncing and device management.
- Supports AI health interpretation and personalized Eastern lifestyle services.
- Magnetic charging design for quick and convenient charging.

Usage Tips

- Do not cover the health-monitoring sensors on the back of the device, as this affects monitoring accuracy.
- When wearing it, ensure the back of the device rests naturally against your skin, but do not wear it too tightly.
- For more accurate monitoring, we recommend wearing it all day and keeping the battery sufficiently charged.

The product's appearance, materials, and structure may change by version; please refer to the actual product.

How to Wear

Wear the bracelet on your wrist, ensuring the health-monitoring sensors on the back are fitted against your skin (we recommend facing the outer side of your arm) for stable, accurate data collection.

Wear it so it fits naturally, without leaving visible marks on your skin. Do not wear it too tight or too loose.

It can be worn on either wrist. We recommend consistently wearing it on one wrist to obtain continuous, complete health data.

The device has no power button. While worn, the device stays awake and continuously records health data; placing it on the magnetic charging dock causes it to restart automatically.

You can check the remaining battery level anytime in the Nyrasu App.

04 Specifications

The following specifications are the basic technical parameters of the Nyrasu Bracelet.

Item	Specification
Product Name	Nyrasu Bracelet
Model	NS1
Dimensions	29 × 16.3 × 9.8 mm (main body)
Weight	Approx. 7.7 g (main body, excluding beads)
Casing Material	Titanium alloy
Display	None (screenless)
Operation	No buttons; operated via the Nyrasu App
Indicator	LED indicator
Vibration Alert	Not supported
Charging Method	Magnetic wireless charging
Charging Port	Type-C (5V; official adapter recommended)
Battery Type	Rechargeable lithium-ion battery
Battery Capacity	Typical capacity 50 mAh; nominal capacity 48 mAh
Charging Time	Approx. 2.5 hours
Battery Life	Approx. 6 days
Wireless Connection	Bluetooth® 5.1
Water Resistance	IP67
Operating Temperature	-10 °C to 45 °C
Charging Temperature	0 °C to 45 °C
Supported Systems	iOS, Android
Companion App	Nyrasu App
Offline Storage	Supports offline recording; storage duration as displayed in the Nyrasu App

Dock Water Resistance	Not waterproof; charge only in a dry indoor environment
Data Security	Bluetooth communication is encrypted
Firmware Upgrade	Auto-updated via the Nyrasu App

Device Connection Requirements

Item	Description
Network Connection	An internet connection is required for first-time registration and some features.
Bluetooth	Bluetooth must be enabled for first-time pairing and data syncing.
Location Permission	Location permission is required when connecting the device for the first time (specific requirements follow the phone system prompts).
Nyrasu Account	A registered and logged-in Nyrasu account is required to use the product.

Note

- The specifications in this manual reflect the current version and are subject to upgrade or change without prior notice.
- Product images, specifications, and features are for reference only; please refer to the actual product.
- Bluetooth® is a registered trademark of Bluetooth SIG, Inc., and any use of the mark is under license.

05 Getting Started

Welcome to your Nyrasu experience.

Before first use, complete device preparation and initial setup by following the process below. It usually takes only a few minutes.

Terminology

Bluetooth: a short-range wireless communication technology between the device and your phone, used for data transfer and device connection.

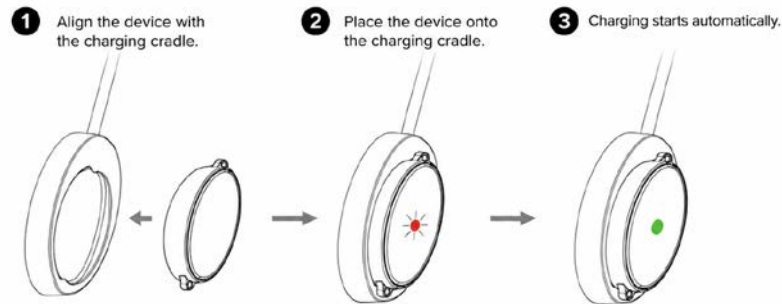

Pairing: the process of establishing a connection between the device and the phone App for the first time.

Syncing: the process of transferring data recorded on the device to the Nyrasu App.

IP67: an ingress-protection rating meaning it is fully dust-tight and can be briefly immersed in fresh water up to 1 meter deep (for up to 30 minutes).

Quick Start

Charging Guide

LED Indicator

Red light blinking
Charging

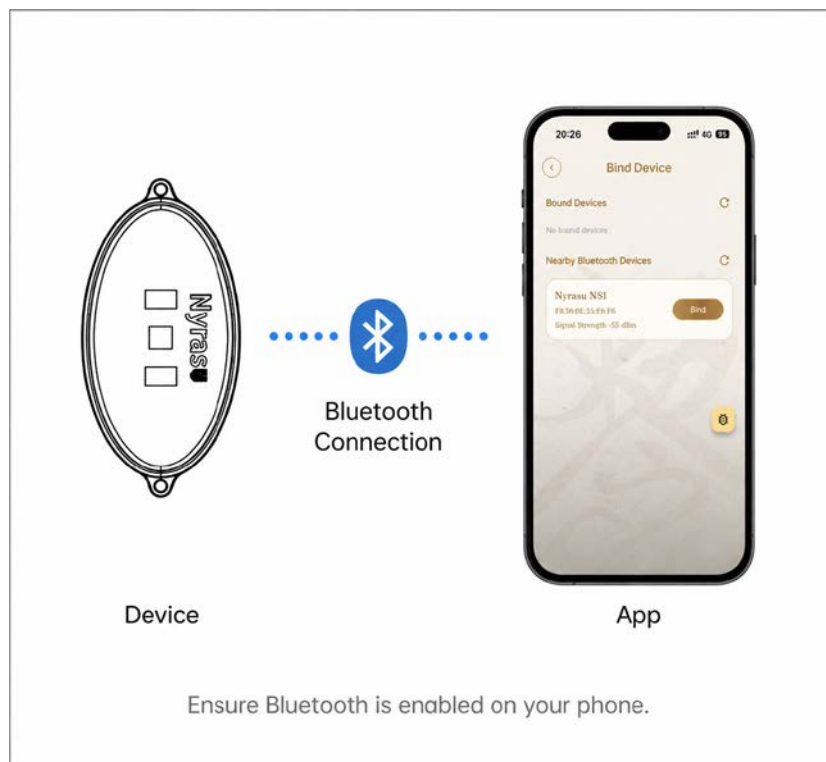

Green light solid
Fully charged

Wipe the charging contacts clean before charging.

① Charge the device

② Open the App, search for, and add the device

Charge the device

Download the Nyrasu App

Register / Log in

Enable Bluetooth & permissions

Connect & pair the device

Wear the bracelet correctly

Start health monitoring

Step 1: Charge the Device

Before first use, charge the device with the included magnetic charging dock.

We recommend fully charging the device before pairing and everyday use.

Step 2: Download the Nyrasu App

Scan the QR code on the product packaging or in this manual with your phone, or search for Nyrasu in the corresponding app store to download and install.

(Placeholder for Nyrasu App download QR code)

Supported platforms:

- iOS
- Android

Minimum system version requirement (to be confirmed)

Step 3: Register or Log In

Creating a Nyrasu account is required for first-time use.

If you already have an account, simply log in to continue.

After logging in, your health data will be securely synced to the cloud with your authorization, so you can use related services across different devices.

Step 4: Enable Bluetooth and System Permissions

To connect the device smoothly, enable the following permissions as prompted by the App:

- Bluetooth
- Network connection
- Location permission

Some phone operating systems may require additional permission grants; follow the system prompts to complete setup.

Step 5: Connect the Device

Open the Nyrasu App and add the device by following the on-screen instructions.

Bring the bracelet close to your phone and keep the device sufficiently charged.

Once connected, the App will automatically complete device initialization and the first data sync.

The first sync usually takes a few minutes and normally does not exceed 5 minutes.

Step 6: Start Wearing

Once the device is connected, wear the bracelet correctly.

We recommend wearing it all day, including during sleep at night, to obtain more complete and continuous health data and AI analysis results.

Tips

- During the first connection, keep Bluetooth on your phone enabled and try not to move far from the device.
- During the first sync, do not close the App or disconnect Bluetooth.
- If pairing fails, make sure the device is charged, then reopen the App and try to

connect again as prompted.

- If it still cannot connect, contact Nyrasu customer service for help.

06 Care & Maintenance

To keep the device performing well and monitoring accurately, follow these recommendations for daily care and maintenance.

Daily Cleaning

- Periodically wipe the device surface with a soft, clean, slightly damp cloth.
- Keep the health-monitoring sensors on the back clean, and avoid buildup of sweat, dust, or oil to ensure monitoring accuracy.
- After cleaning, dry the device with a soft, dry cloth and make sure it is completely dry before wearing or charging it again.

Do not clean the device with alcohol, gasoline, acetone, strong acids, strong alkalis, or other corrosive cleaning agents.

Daily Usage Tips

- We recommend wearing the device for extended periods to obtain more complete and accurate health monitoring data.
- Charge the device promptly when the battery is low.
- Before charging, make sure the device and the charging area are clean and dry.
- If the device will not be used for a long time, charge it to an adequate level before storing it, and top up the battery periodically.

Storage Recommendations

- Store the device in a cool, dry, and well-ventilated place.
 - Avoid direct sunlight, high temperature, high humidity, and extreme cold.
 - Protect the device from heavy pressure, drops, and strong impacts.
 - When storing, keep the device away from prolonged contact with sharp objects or hard metals to reduce cosmetic wear.
-

Precautions for Use

- Do not place the device near fire, high-temperature equipment, or other hazardous environments.
- Do not charge the device with unofficial or incompatible chargers.
- Avoid prolonged contact with chemicals, cosmetics, perfume, sunscreen, or other substances that may damage the finish.
- If you experience obvious discomfort while wearing it, stop using it immediately and consult a professional as appropriate.

Tips

Nyrasu is a smart health wearable. Correct use and care not only extend its service life but also help you continue to enjoy stable, accurate health monitoring. Check the device appearance and charging accessories regularly; if you notice anything unusual, stop using it and contact Nyrasu customer service.

07 FAQ (Frequently Asked Questions)

Below are common questions you may encounter while using Nyrasu. If the problem persists after following the suggestions, contact Nyrasu customer service for help.

Q1: Why does the device show no response or fail to wake up?

A:

The device has no power button and wakes automatically when worn. If it shows no response, it may be low on battery. Place it on the magnetic charging dock to charge (it restarts automatically when placed on the dock), and make sure the device is properly seated on the dock. We recommend fully charging the device before first use.

Q2: Why is the device unable to connect to the Nyrasu App?

A:

Please check the following:

- Is Bluetooth enabled on your phone?
- Is the phone's network working?

- Has the phone been granted the necessary permissions, such as Bluetooth and location?
- Does the device have sufficient battery?
- Is the device already connected to another phone?

If it still cannot connect, try turning Bluetooth off and back on, then re-enter the App and try again.

Q3: Why is the health data not updating or syncing?

A:

Please confirm:

- The device is worn correctly.
- Bluetooth on your phone is left on.
- Your phone and the device remain within effective Bluetooth range.
- The Nyrasu App is logged in and keeps a network connection.

The first sync may take a few minutes; please be patient.

Q4: Why are the heart rate, sleep, or stress data inaccurate?

A:

Health data may be affected by how the device is worn, your activity, and environmental conditions.

We recommend:

- Wear the device on your wrist and ensure the sensors on the back fit naturally against your skin.
- Avoid wearing it too loose or too tight.
- Keep the sensor surface clean.
- We recommend wearing it continuously for a while to obtain more complete health data.

Q5: Why is the device not charging?

A:

Please check:

- Are you using the included magnetic charging dock?

- Is there dust, moisture, or foreign matter on the charging area?
- Are the Type-C charging cable and power source working properly?
- Is the magnetic charging dock properly attached to the device?

If it still will not charge, stop using it and contact Nyrasu customer service.

Q6: Does the device need to stay connected to the phone at all times?

A:

No.

The device can record health data independently. When it reconnects to your phone, it automatically syncs the recorded data to the Nyrasu App.

Q7: Can I wear the device while sleeping?

A:

Yes.

We recommend wearing the device during sleep so it can record sleep data and provide more complete health analysis.

Q8: Is the device waterproof?

A:

This product has an IP67 rating (fully dust-tight, and can be briefly immersed in fresh water up to 1 meter deep for up to 30 minutes). It can be worn normally during daily hand washing and showering.

To extend the product's service life, avoid using it in hot water, saunas, hot springs, or similar environments.

Water resistance rating: (IP67)

The magnetic charging dock is not waterproof. Charge only in a dry indoor environment and avoid using it in humid places such as bathrooms.

Q9: Can the device be connected to multiple phones?

A:

The device does not support simultaneous connection to multiple phones. It can

connect to only one phone at a time to ensure data syncing and a good user experience.

Q10: Why is the LED indicator not lighting up?

A:

The LED indicator works only in specific states, such as charging, pairing, or device status alerts.

If the device shows no indication even while charging, check that the charging connection is normal and confirm the device battery level and charger status.

Q11: What should I do if AI services are unavailable?

A:

Please confirm:

- You are logged in to your Nyrasu account.
- Your phone has a working network connection.
- The Nyrasu App has been updated to the latest version.
- The device has been paired and data synced.

Some AI services may vary by region, product version, or software update. Please refer to what is actually provided in the App.

Q12: How do I restore or reconnect the device?

A:

If the connection is abnormal, try the following:

1. Turn Bluetooth off and back on.
2. Restart the Nyrasu App.
3. Place the device on the charging dock for a few minutes, then try to connect again.
4. If the App provides "Unpair" or "Re-pair" functions, follow the App's instructions to pair again.

Q13: How do I check the remaining battery level?

A: Open the Nyrasu App and view the remaining battery level on the device page.

When the battery is very low, the device LED indicator flashes red.

Q14: How do I restore factory settings?

A: Go to device settings in the Nyrasu App, choose "Unpair" or "Restore factory settings", and follow the App's instructions.

Q15: How much data can the device store offline?

A: 4 days.

Q16: How do I upgrade the device firmware?

A: When the Nyrasu App detects a new firmware version, it will prompt you to upgrade. During the upgrade, keep Bluetooth on, ensure the device has sufficient battery, and follow the App's instructions.

Q17: How do I delete personal data or cancel my account?

A: You can view, export, or delete your personal health data in the Nyrasu App, and cancel your account in account settings. After cancellation, cloud data will be deleted in accordance with the Privacy Policy.

Still Have Questions?

If the above steps do not resolve your issue, contact Nyrasu customer service or visit the official support platform for further assistance.

08 Safety Information

Please read the following safety information carefully before using this product, and keep this manual safe for future reference.

Using this product in ways other than those described in this manual may cause device damage, reduced performance, or other unforeseen risks.

Safe Usage

- Use this product only in the manner described in this manual.
- Do not disassemble, modify, or repair the device or its accessories yourself.
- Do not throw the product into fire or place it in high-temperature environments to avoid danger.

- Do not place the product in strong magnetic fields or strong electromagnetic interference environments, as this may prevent the device from working properly.

The light emitted by the device's LED indicator is within the visible spectrum and is safe for the wearer and those nearby during normal use.

- If the device becomes abnormally hot, emits an unusual odor or smoke, or shows other abnormal signs, stop using it immediately and contact Nyrasu customer service.

Magnetic Parts Warning

This product and the magnetic charging dock contain magnetic materials. If you have an implanted medical device such as a pacemaker or implantable defibrillator, consult your doctor before using this product and keep a safe distance (at least 15 cm recommended) from the product and its charging accessories.

Battery and Charging Safety

- Use the charger included with the product or one recommended by the manufacturer.
- Do not use a damaged charging cable, charger, or magnetic charging dock.
- Keep the device and charging area clean and dry, and avoid charging in humid environments.
- Do not cover the device or charger while charging, as this affects heat dissipation.
- If the product will not be used for a long time, top up the battery periodically to maintain battery performance.

If you notice the device casing swelling, deforming, or leaking, stop using and charging immediately. Do not puncture or squeeze the battery, and contact Nyrasu customer service.

Wearing Precautions

- Make sure the health-monitoring sensors on the back fit naturally against your skin.
- If prolonged wear causes redness, itching, or other skin discomfort, stop wearing it immediately and resume only after your skin recovers.
- Keep the device and your skin clean and dry to reduce discomfort caused by sweat or dirt.
- Do not wear the device too tightly, as this affects comfort and health monitoring

accuracy.

For people with sensitive skin: before first-time wear, we recommend trying it on a small area of your arm for a short period to confirm there is no skin irritation before wearing it long-term.

The parts that contact the skin (the casing and sensor surface) are made of skin-safe materials. If discomfort at the wearing area persists, stop wearing it and consult a professional.

Usage Environment

- Avoid using or storing this product in extreme heat, cold, high humidity, or corrosive environments.
- Protect the device from strong impacts, drops, crushing, or other external force.
- Avoid prolonged exposure of the device to direct sunlight.
- The product's water resistance applies only under the specified conditions. Do not use it beyond the rated protection range.

For the water resistance rating and applicable range, refer to the "Specifications" section.

This product contains a built-in lithium-ion battery. When flying, follow the airline's rules regarding devices containing lithium batteries (they are usually carried in the cabin, not in checked baggage).

Health Monitoring Statement

- This product is intended for daily health monitoring and health management and is not a medical device.
- The heart rate, sleep, stress, step count, and other health data provided by this product are for personal health management reference only and must not be used as a basis for disease diagnosis, treatment, or medical decisions.
- If you feel unwell or have health concerns, consult a doctor or other qualified medical institution promptly.

AI Services

The personalized AI services provided by the Nyrasu App are generated from data collected by the device and artificial intelligence models. Their content is for personal

experience, lifestyle reference, and entertainment only, and does not constitute medical, psychological, legal, investment, or other professional advice.

Please use your own judgment and interpret the information provided by AI rationally in the context of your own situation.

Data and Privacy

When using AI palm-reading or AI face-reading services, you will need to take and upload a photo of your hand or face for AI analysis. The photo is used only for the service you requested; for how it is processed, see the Privacy Policy in the Nyrasu App.

You can view, export, or delete your personal health data in the Nyrasu App, and cancel your account at any time. After cancellation, cloud data will be handled in accordance with the Privacy Policy.

If the device is to be scrapped, gifted, or resold, first unpair it in the Nyrasu App and clear the personal data stored on the device.

Children

- Keep this product and its accessories out of reach of children.
- This product is not recommended as a toy for children.
- This product is designed for adults and is not recommended for minors. If a minor must use it, it should be done under the supervision of a guardian.

This product is made up of beads. If the cord becomes loose or beads come off, stop wearing it immediately and store it properly to prevent young children from swallowing the beads, which could cause choking. Do not give the product to children as a toy.

Disposal

Do not dispose of this product or its built-in battery as ordinary household waste.

After the product reaches the end of its life, recycle and dispose of it in accordance with local laws and regulations concerning electronic products and battery recycling, to help protect the environment.

Disclaimer

Nyrasu is not responsible for device damage, data loss, or other losses caused by the user's failure to use, maintain, charge, or store the product as described in this

manual.

09 Compliance

The design, manufacture, and sale of the Nyrasu Bracelet comply with the laws, regulations, and technical standards applicable in the relevant countries and regions.

Depending on the region where the product is sold, the applicable certifications and regulations may differ. Please refer to the product label, packaging markings, or information published on the official website.

Product Certifications

This product has obtained (or will obtain) the following related certifications:

Certification / Regulation	Status	Mark / Number
CE (EU)	(To be confirmed)	(To be confirmed)
FCC (USA)	(To be confirmed)	2BXZA-NS1
RoHS (Restriction of Hazardous Substances)	(To be confirmed)	(To be confirmed)
WEEE (Waste Electrical and Electronic Equipment)	(To be confirmed)	(To be confirmed)

Radio Equipment Statement

This product uses Bluetooth® wireless communication technology.

The device should be used in accordance with the laws and regulations on radio equipment in your country or region. Do not modify or replace the wireless communication module without authorization.

The Bluetooth® word mark and logo are owned by Bluetooth SIG, Inc., and Nyrasu uses the relevant marks under license.

FCC Statement

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for

compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement

This product is a low-power Bluetooth device, and its wireless transmission power complies with the safety limits for RF exposure applicable in your country or region.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

For Charging Dock

This device complies with part 18 of the FCC Rules

Environmental Recycling

This product and its built-in battery must not be disposed of as ordinary household waste.

After the product reaches the end of its service life, recycle it separately in accordance with local regulations on the recycling of electrical and electronic products and used

batteries, to reduce environmental impact.

Restriction of Hazardous Substances

The materials and electronic components used in this product comply with the relevant regulations on the restriction of hazardous substances in the applicable regions.

We recommend visiting the official Help Center first for the latest product information, user guides, and FAQ solutions.

Warranty

Nyrasu provides a limited warranty for products that meet the warranty conditions.

Warranty coverage, duration, and after-sales policy may vary by product model, sales region, and purchase channel. Please refer to the warranty policy provided at the time of purchase or the information published on the official website.

The following situations causing product damage are generally not covered by the warranty:

- Abnormal use, drops, collisions, or man-made damage.
- Unauthorized disassembly, repair, or modification of the product.
- Damage caused by using chargers or accessories not recommended by the manufacturer.
- Damage caused by force majeure or other reasons unrelated to product quality.

When claiming warranty service, provide a valid proof of purchase (invoice or order record). The warranty period starts from the date of purchase; the specific warranty period is subject to officially published information.

Software Update

To continuously improve performance, stability, and security, the Nyrasu App and device firmware will be updated from time to time.

We recommend keeping the App up to date and promptly completing device upgrades as prompted for the best experience.

About This Manual

This manual applies to the Nyrasu Smart Health Bracelet.

The product appearance, functions, software interface, and related services may change due to product upgrades, software updates, or different sales regions, without notice.

If there is any discrepancy between this manual and the actual product, the actual product and the Nyrasu App display shall prevail.
