Build the Football Arena

1. BOTTOM PLATE LINK

① Connect Base Plate 1 and Base Plate 2.
② Connect Base Plate 3 and Base Plate 4.
③ Connect (1 & 2) with (3 & 4).

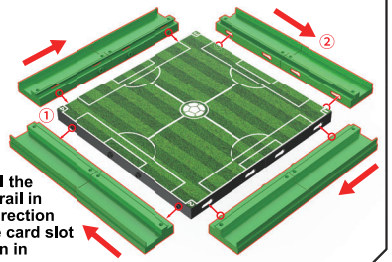

2. INSTALL BOTTOM CUSHION

Turn over and install the mat.

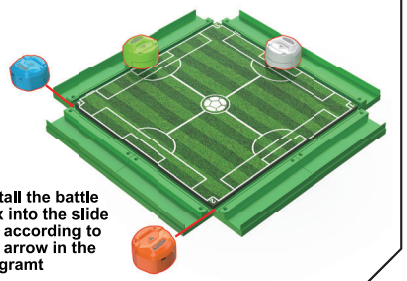

3. INSTALL THE SLIDE RAIL

Install the slide rail in the direction of the card slot shown in the diagram

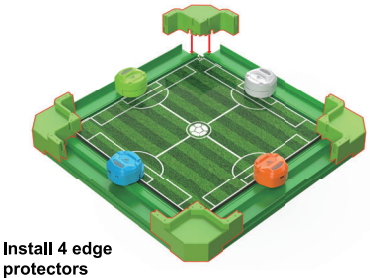

4. INSTALL THE BATTLE BOX

The arrow pointing forward is the correct assembly Pay attention to the ejection port of the battle box facing the football field

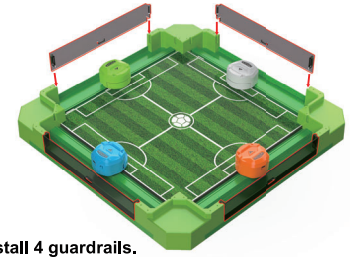

Install the battle box into the slide rail according to the arrow in the diagramt

5.INSTALL EDGE PROTECTORS

Install 4 edge protectors

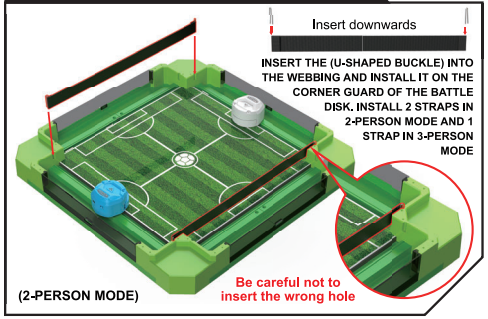

6. INSTALL GUARDRAILS, 4-PERSON MODE

Install 4 guardrails.

THE BATTLE BOX AND CONTROLLER CAN BE OPENED ONE-ON-ONE AT THE SAME TIME, WHICH MEANS THAT IF TWO OR MORE OF THEM ARE OPENED AT THE SAME TIME,THE SENSING WILL FAIL. IF THE FREQUENCY CANNOT BE MATCHED, THE BATTLE BOX AND CONTROLLER NEED TO BE CLOSED AND PAIRED ONE-TO-ONE AGAIN.

7. INSTALL WEBBING (TWO PERSON MODE/ THREE PERSON MODE)

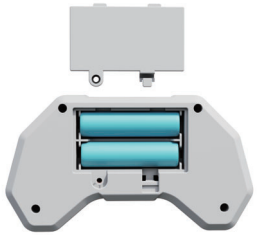

8. PREPARE REMOTE CONTROL AND SOCCER

Place the football on the match plate

9. OPEN THE INSURANCE

Install the"AA" battery

10. CHARGING THE BATTLE BOX

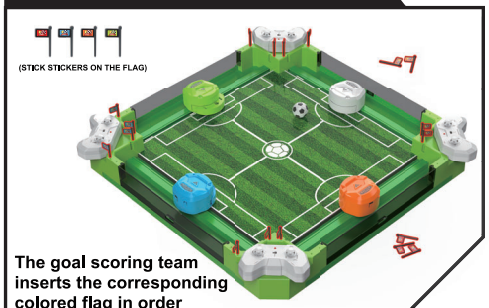

Charging the battle box

11. PERFORM FREQUENCY MATCHING

Turn on the battle box and remote control at the same time to perform frequency matching

12. STICK STICKERS ON THE FLAG GOAL SCORER INSERTS FLAG

The goal scoring team inserts the corresponding colored flag in order

Tips

After finishing the game, it is necessary to close both the battle box and the remote control together in order to engage in frequency again.
Please follow the installation instructions for installation.
Before playing the game, please fully charge the battle box to ensure that the remote control controller is charged normally.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
