

# VT07-B50L

## Smart Video Indoor Monitor

VT07-B50L is a versatile PoE-enabled indoor monitor that seamlessly combines high-quality video intercom capabilities with robust access control features. It supports Power over Ethernet (PoE) following the IEEE 802.3af/at standard, streamlining both power supply and communication through a single cable. VT07-B50L offers a sophisticated, unified security solution for modern access control systems.

### Features

- Linux OS
- Support Wi-Fi connection to mobile app
- 7 inch IPS HD touch screen (1024\*600)
- Support TF card (max. 64 GB)
- Support PoE (IEEE 802.3af/ at)
- Plug and play for easy installation

# Specifications

System	Linux
Resolution	1024*600
Power supply	PoE (IEEE802.3af/at) or DC 15V/1.2A
Standby Power	≤1W
Operating Power	≤10 W
TF card	Max 64GB
Button	Virtual button on the touch screen
Interfaces	Network Cable Port*1
Support Wi-Fi	( IEEE 802.11 a/b/g) @ 2.4GHz
Unlock signal output*1	NO / NC port
Installation	Wall mount
Supported Mobile App	ZSmart
Material	Tempered glass panel + ABS plastic
Dimension	195*132*18(mm)
