SR5750
Wearable Computer
Quick Start Guide

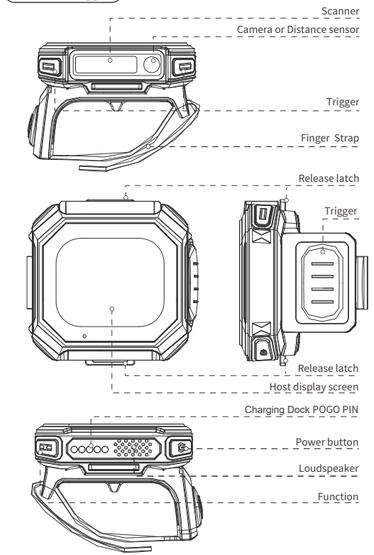

3.01.200.12645

Packing List

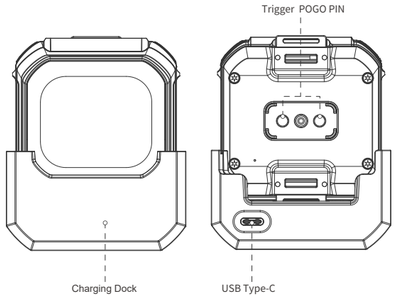

- Device x 1
- Charging Dock x1
- Data cable x 1
- Charger x1
- Single Trigger x1 (optional)
- Gloves x1 (optional)
- Watch strap x 1(optional)
- Quick Start Guide &Warranty Instructions & Certificate of Conformity x 1

SR5750 Overview

Device & Trigger

Charging Dock

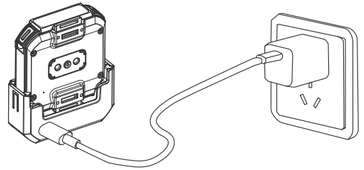

Getting Started

Power On & Power Off

Press and hold the power button, wait until the device vibrates to complete the power on or power off.

Charging Instructions

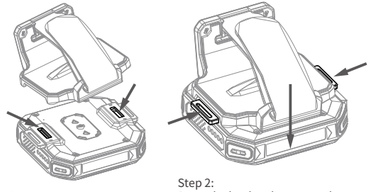

Refer to the diagram below, place the device on the charging dock, connect the Type-C data cable to the charging port.Then turn on the power to charge the device.

Trigger assembly

Equipped the device with the single trigger , it can be worn on the finger and triggered with the thumb. By adjusting the installation method of the ring trigger, it can be used on either the left or right hand.

Install the Trigger

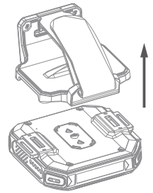

Step 1:
Align the trigger with the locking end of the device.

Step 2:
Press the latch，then press the trigger downward until the trigger is fixed.

Remove the Trigger

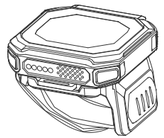

Step 1:
Press the locks on both ends of the device.

Step 2:
Lift the trigger upward to complete the disassembly.

Use on the Left-hand

Use on the Right-hand

Table of Toxic and Hazardous Substances and Content

Part	Toxic and hazardous substances or elements									
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE	DEHP	BBP	DBP	DIBP
Host	X	O	O	O	O	O	O	O	O	O
Adapter	X	O	O	O	O	O	O	O	O	O
USB cable	X	O	O	O	O	O	O	O	O	O

This form is prepared in accordance with the provisions of SJ/T 11364.

O : Indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit requirements specified in GB/T 26572.

X : Indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T 26572, and currently there is no mature alternative in the industry, in compliance with the environmental requirements of the EU RoHS directive.

This logo refers to the period (10 years) during which the toxic or hazardous substances or elements contained in electronic information products will not leak or mutate so that the use of these [substances or elements] will not result in any severe environmental pollution, any bodily injury or damage to any assets. Due to different models, the product may not include all of the above components other than the main unit, so please refer to the actual sales configuration of the product.

Battery Safety Guidelines

1. The area in which the units are charged should be clear of debris and combustible material or chemicals. Particular care should be taken where the device is charged in non-commercial environment.
2. Follow battery usage, storage, and charging guidelines found in the user's guide.
3. Improper battery use may result in a fire, explosion, or other hazard.
4. To charge the mobile device battery, the battery and charger temperatures must be between0 C and +40 C .
5. Do not use incompatible batteries and chargers. Use of an incompatible battery or charger may present a risk of fire, explosion, leakage, or other hazard.
6. For devices that utilize a USB port as a charging source, the devise shall only be connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.
7. Do not disassemble or open, crush, bend or deform, puncture, or shred.
8. Severe impact from dropping any battery-operated device on a hard surface could cause the battery to overheat.
9. Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals.
10. Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, or expose to fire, explosion, or other hazard.
11. Do not leave or store the equipment in or near areas that might get very hot, such as in a parked vehicle or near a radiator or other heat source. Do not place battery into a microwave oven or dryer.
12. Battery usage by children should be supervised.
13. Please follow local regulations to promptly dispose of used re-chargeable batteries.
14. Do not dispose of batteries in fire.
15. Seek medical advice immediately if a battery has been swallowed.
16. In the event of a battery leak, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with large amounts of water and seek medical advice.

Precautions

1. Read all information in this guide before using the device to ensure safe and proper operation.
2. Please use the accessories that have been approved by this manufacturer and corresponds to this model.Use of any power source,charger,battery,etc.That has not been approved by this manufacturer may cause a fire,explosion, or other hazards.
3. Please use device and accessories within the specified temperature range. Equipment failure may occur when the ambient temperature is too high or too low.
4. Do not disassemble the product and its accessories.If the equipment or any of its components are not working properly,consult the after-sales service of the company promptly,or send the equipment to the after-sales service outlet for testing and maintenance.
5. The battery is made from a flammable and explosive material.Do not disassemble,squeeze,drop and make any other destructive aperations on the battery.Do not place the battery in high temperatures.
6. Disposal of used batteries is subject to local relevant documents or policies regarding disposal of used batteries.

Warranty Policy

Thank you for using intelligent terminal series products. In the situation of quality problems, which arise from raw materials or production processes, during normal use of purchased products, the seller will be responsible for free maintenance within one year from the date of purchase.
The company may provide repairs due to the user's failure to use the product according to the provided instructions of the product. However corresponding service fee and component fee will be charged.

Warranty regulations:

1. Under normal circumstances, the warranty period of the device is 12 months (3 months for accessories), subject to the sales agreement.
2. During the product warranty period, under the normal use conditions (determined by our technical staff), the user will be entitled to a free warranty for damaged or faulty warranty parts.
3. During the warranty period, faults caused by repair , disassembly or modification of the product by a personnel other than our company improper installation, improper use by the user (failure to follow instructions), serial number damage, accident or natural disaster, will not be covered under the warranty
4. The warranty will expire immediately if any alterations are made to the warranty card.
5. Please show the equipment SN and purchase certificate for repair. The company reserves the right to interpret the above contents.

FCC Statement
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

This device has been tested and meets the FCC 10g 4.0W/kg limb SAR limit.
When in face-up mode, it must be at least 10 mm away from the human body, and it has been tested to meet the limit of 1.6 W/kg.

5150-5250MHz indoor use only
