Installation

1. Install all the plastic caps on the related positions (these may have been installed already).
2. Connect the two legs with the middle cross tubes according to the drawing.
3. Connect the upright post on the crossbar.
4. Install the angled support bars to reinforce the upright post on the base.
5. Install the round tubes on the upright post and tighten them with the knobs.
6. Tighten all the screws, bolts, and nuts.

Attention!

- Always remove all weights before moving the rack.
- Regularly check and maintain all hardware.
