

Norman is a real person and is our expert head of Quality Assurance. Norman appears here to bring to your attention features, technical or quality issues.

More importantly the reasons why, on occasions, it's worth paying a little more for a product that may look similar to a cheaper alternative but is much better.

norman says

ENGINEERS SQUARE

One of the few Engineers Squares that conform to BS939, workshop grade B for squareness. This guarantees the solid steel stock will never be more than 0.00064" from square. To all intents and purposes... that's square!
